Some of you may remember this handsome face! Bowser, formerly Brownie from our Bakery Litter, has found his way back to SRDR and is once again searching for his forever home.

At 9 months old, Bowser is a big puppy with an equally big personality. He's goofy, social and has quickly made friends with dogs of all shapes, sizes and ages. He's also been amazing with kids! Like any excited young dog, he can forget his manners when something especially interesting is happening, but once the initial excitement wears off, he does great.

Bowser has been making awesome progress on his walks and is showing some really promising recall skills. Off leash, he's responding well to a whistle, regularly checking in with his foster and will even park himself beside her when he knows a treat might be coming!

He's also nicely relaxed around food. Bowser isn't particularly meal-motivated, takes his time eating and has shown no interest in stealing from the other dog's bowl.

Crates aren't quite Bowser's thing yet, but otherwise he's been doing incredibly well in his foster home. He's still very much a big puppy learning the ropes, and everyone who has met him can see just how much potential this goofy boy has!

Bowser never expected to find himself back in rescue, but sometimes life takes an unexpected turn. Now, this sweet boy is looking for his second chance and a family who will choose him for good. He has so much love to give and his whole life ahead of him. We can't wait to see who gets lucky enough to call him theirs.
