Age: 11 weeks

approx. as of Oct. 21 2026

Meet Apollo, one sweet little Universe pup who is starting to come out of his shell more every day!

Apollo can be a little unsure at first, but once he feels comfortable, his affectionate side comes shining through. He LOVES his people, wants to be close, and is always happy to curl up for some cuddles.

He's also had quite the introduction to the animal kingdom! Apollo has been around cats, pigs, chickens and ducks and has done great with them all. He's wonderful with kids too!

Apollo is working on his housetraining and is making great progress. With a little patience and lots of love, we know this sweet boy is going to make such a special addition to his future family.

Apply to adopt Apollo today!
