Sex: Female
Age: 11 weeks
approx. as of Oct. 21 2026

Meet Eclipse, one adorable little Universe pup who's ready to take on the world!

Eclipse is a total snuggler who loves belly rubs and soaking up attention from her humans. She has a playful side too, and squeaky or crinkly toys are definitely the way to her heart!

She loves being outside and taking in everything around her. Birds, planes, new sounds... Eclipse wants to know what's going on! She recently went on her very first leash walk and, while the big wide world was a little intimidating at first, she was brave and ended up having a blast.

Eclipse is also doing really well with her puppy routines. She sleeps through the night in a pen and is making great progress with potty training, heading outside to do her business and having very few accidents in the house.

This sweet little girl is ready to find a family to snuggle, play and explore with. Apply to adopt Eclipse today!
