

# DORA

## Terrier x Wolfhound mix

(best guess, expected medium-large)

- Crate training is coming along well
- Bold, curious, and always ready to explore
- Great with kids and does well with other dogs
- Health-checked, vaccinated, dewormed, microchipped

**Sex:** Female

**Age:** 10 weeks

(approx. as of Apr. 4th)

Dora is every bit the little explorer her name suggests. She's confident, curious, and always on the move, taking in the world around her and figuring things out as she goes!

She's got a big personality for such a small pup and a clever, independent streak that makes her fun to watch and even more rewarding to work with. She's learning quickly and will thrive in a home that enjoys engaging with her and helping her grow.

At home, she's doing well with her crate and settles nicely once she realizes it's time to rest. Potty training is still a work in progress, but she's getting there with routine and structure!

Dora is going to thrive with a family who embraces her spunky nature and is excited to help shape her into the amazing dog she's going to be. If you've been looking for a confident, adventurous pup to grow with... this might just be your girl!
