Meet Mac!

Since coming into our care, Mac has really started to show us just how special he is. He's an incredibly smart boy with so much potential, and he absolutely adores people... especially kids. He's gentle, affectionate, and so happy being around his humans.

Mac has a fun, active side too and will thrive in a home that can keep him moving and engaged. He's eager to learn and truly wants to do well, he just needs someone with a bit of experience to help guide him and bring out his very best.

He's been friendly and polite with everyone he's met, and has shown nothing but kindness. He's still working on his leash skills, but he's eager to learn and already such a wonderful companion to have by your side!

Mac is truly a special boy. A loving, loyal family dog who adores kids and just wants to be part of it all. He's ready to find his perfect match and settle into a home where he can keep being his happy, loving self!
