Meet Quill!

This sweet boy is still waiting... and so ready for his forever home.

Quill hasn't had the easiest start. When he was found, he was covered in porcupine quills and had clearly been through a lot. These days, though, his world looks very different... and what stands out most is how much love he has to give!

Quill is a lot of fun and loves to run and play outside, especially if he has another dog to share it with. He absolutely adores his foster brother and would thrive in a home with a playful companion by his side!

He's a gentle, kind boy with not an aggressive bone in his body. He loves a good game of tug, happily spends his days exploring the yard, and is more than content just being near his people.

His best friend from his stray days, Porky, has already found his forever home... now it's Quill's turn!

He can be a little shy at first, but with soft introductions, he warms up and shows you exactly who he is... a really, really sweet dog who just wants to love and be loved.

Quill has been through the hard part. Now he's ready for the life he deserves. Could that be with you?
