Meet Susie, the heart behind not one but two Moe Dog litters! This mama is extra special to us and we're honoured to be on the hunt for her perfect home! She lovingly raised her own "S Litter" pups, and when our "V Litter" needed a mom, Susie stepped in without hesitation. She's proven herself to be the most selfless, gentle soul, nurturing babies that weren't even her own!

When Susie first came to us, she was scared and unsure of the world. With patience, love, and the comfort of a safe foster home, she has blossomed into a beautiful, affectionate girl. She can still be cautious around unfamiliar men, but with time and reassurance, she learns quickly that she's safe and loved!

Now, it's finally her turn. After giving so much of herself to others, Susie deserves a forever family who will give her the same unconditional love! Could that family be yours?
