

RUBY

Sex: Male

Age: 10 weeks old

approx. as of May24th, 2026

Shepherd/Husky/Lab mix

(best guess - likely large when fully grown)

- Curious, adventurous puppy with a very sweet side
- Loves people, exploring, and lap naps
- Health-checked, vaccinated, dewormed, microchipped

Meet Ruby, also known as Ru Ru or Mr. Roo!

Ruby is endlessly curious and wants to know what everyone is doing at all times. Whether it's a toy, a new sound, or a new corner of the yard, he's determined to investigate it.

Once his adventures are over though, he's more than happy to climb into a lap and recharge with a cuddle and a nap!

This sweet boy went through a very difficult battle with parvo and handled it like an absolute trooper. He's still rebuilding his strength and energy levels a bit, so he'll need a family willing to give him a little extra TLC while he continues bouncing back.

Ruby is incredibly social, loves people, and we're so happy to see him finally getting the chance to just be a carefree puppy again!

If you think Ruby could be your perfect match, apply to meet him to today!
