Meet Butterscotch!

This sweet girl has been winning people over everywhere she goes with her adorable little wiggle bum and playful personality! Her foster says she gets excited anytime someone walks into the room and is always ready for attention, playtime, or a snuggle.

She's been loving life in foster care, especially getting to play with the kids and explore her surroundings. She's affectionate, outgoing, and happiest when she's part of whatever's going on around her. She's already showing what a fun little companion she's going to be!

Once playtime winds down, Butterscotch is more than happy to curl up for cuddles and soak up all the love she can get.

This happy little pup is ready to find a forever family of her own. If you think Butterscotch might be your perfect match, apply today!
