- Affectionate, confident, and eager to be part of the action
- Health-checked, vaccinated, dewormed, microchipped

Sex: Female
Age: 3 months
approx. as of June 3, 2026

Meet Flower!

Flower came into our care during May's Flower Moon, and her name couldn't suit her better. Sweet, bright, and impossible not to love, she's been thriving in foster care and showing everyone what a wonderful little puppy she is!

This girl is already impressing her foster family. She knows how to sit, happily comes inside for paw wipes, and has been handling all sorts of new experiences with confidence! Car rides? No problem. Vet visits? She handled them like a pro. Even better, her foster reports that she sleeps through the night beautifully!

Flower loves being involved in whatever her people are doing and is always ready to investigate something new. She's playful, affectionate, and loves carrying toys around the house. She has a happy, easygoing personality that makes it hard not to fall in love with her!

She has a lovely balance of confidence, sweetness, and curiosity that will make her a wonderful companion as she grows. Now all she needs is a family to call her own!

Applications are now open for Flower!
