

WHISKERS

Mixed breed

(likely to be medium-large when fully grown)

- Great with other dogs and respectful of cats
- Sleeps through the night like a dream
- Catching on well with potty training
- Health-checked, vaccinated, dewormed, microchipped

Sex: Female

Age: 12 weeks (approx.)
(as of Oct. 16, 2025)

Meet Whiskers, the sweetest little soul with the softest heart!

This gentle girl is equal parts playful and polite! She loves her ball, her foster pup brother and rolling over for belly rubs any chance she gets. Whiskers has a brave little spirit, and she's getting more confident every day!

At night, she's an angel. She curls up by her foster's bed and sleeps through until morning, patiently waiting to go outside. Potty training during the day is still a work in progress, but she's learning fast!

If you're looking for a kind, gentle-hearted puppy who'll grow up to be your loyal shadow and cuddle buddy, Whiskers might just be the one!
