## Unknown mix

(likely to be medium-large when fully grown)

- Loves playing with other dogs
- Great with kids of all ages
- Smart, curious, and eager to learn
- Health-checked, vaccinated, dewormed, microchipped

### Meet Hope!

Named after the smallest of the iconic Three Sisters mountains, Hope may be little now, but she's already making a big impression on everyone she meets!

Hope has settled beautifully into foster care and is thriving in her new surroundings. She's a playful little girl who loves spending time with the resident dogs and happily keeps up with all the fun. Nothing seems to faze her, and she approaches new experiences with confidence and enthusiasm.

Her foster describes her as very smart and quick to pick things up. She enjoys being active and exploring the world around her, but she's also showing signs that she'll have a nice off-switch as she matures. And we can't ignore her most striking feature: the beautiful brown eyes that perfectly match her bright, curious personality.

Hope has also been spending time around children and has done wonderfully. She's happy to join in on the fun and has been a lovely companion for the whole family.

Hope is ready to find a family of her own to continue showing her the world. We have a feeling this sweet girl won't be waiting long for her forever home!

Applications are now open for Hope!
