About Us

Integrated, turnkey, end-to-end project solution for EV charging stations. Our team can handle everything from permits and design to installation and ongoing service.

Why Choose Us

EV Chargers is all we do. This allows us to stay up-to-date on industry changes, applicable grants and incentives, and offer the most competitive pricing.

CHARGERS

Powerful Level 2 and DCFC (Level 3) chargers available

SMART STATIONS

Load Management Tools to reduce costs and increase revenue

FLEXIBLE FEE STRUCTURE

Make it free for residents and customers or charge a premium to generate revenue

CONTROL

Decide if you want to manage and maintain the chargers after install, or we can handle that for you

WARRANTY

5 Year coverage guarantee

Next Steps

1. **Survey and Evaluate** - We send our team to provide a free site survey and evaluation.
2. **Plan and Design** - Our team of engineers design a plan that works best for your location and needs.
3. **Permit Process** - We work directly with cities and utilities and handle the entire permit and approval process for the project.
4. **Install and Test** - Our EVITP certified installers will ensure your chargers are installed properly and performing optimally.
5. **Manage and Operate** - If desired, we can monitor and maintain the chargers with 24/7 network insights and metrics.

Ways to work with us:

If you want to own the charger:

Outsource any portion of the project that you don't want to deal with. This could include:

- Site assessment and engineering design
- Securing best pricing from multiple manufactures
- Installation and initial setup
- Ongoing maintenance and warranty
- Applying for grants and incentives

If you DON'T want to own the charger:

We will do everything! We own and operate the charging locations and can share a portion of the profits with the property owner.

- We own and operate the location
- Share % of profits with property owner
- Flexible term lengths
- We can finance the entire project
