

WE ARE BACK !

You might be asking, what happened to the Republic? We lost contact with you in January. A lot has happened, but we will try to keep this as simple as possible.

Starting in January, infiltrators once again attacked this Republic. They began by trying to take over the Senate (just as before). Shortly after that, Tim Turner resigned from his position as Attorney General. From what we can tell (from his own words), people from his past contacted him again, claiming to be white hats. Apparently this Republic needs to be destroyed in order to create a new one. Does that sound reasonable? It is obvious to us that Tim is once again being tricked by these people, likely the same ones that set him up for prison the first time. The infiltrators are working with these "white hats" to lure away as many patriots from the Republic as possible. We call them the "splinter group." They also appear to be involved with a "nation-states" agenda again.

We lost contact with you because "someone" reported our website domain as "spam" and blacklisted us, even companies that we have used for over 10 years. That blocked our access to sending out the newsletter. I wonder who that could have been?? We have been fighting with the companies responsible for these crimes during this time, but we finally have a solution. And this is why you are seeing this newsletter now.

Next came the infiltrators bragging that they would take control of our Members website, and then a short time later the website attacks started.

These were very sophisticated attacks that were on the level of 3-letter agencies. We have proof that the splinter group is responsible because they claim to "have control of the website and all the documents." The good news is that they do not. Not only that, but it has been reported that Tim Turner claims to have given the order to take down the website. The Members website will be up and running again soon, and we will also let you know once it is operational. Look for it through this shortcut:

<https://www.republicforusa.org>

The splinter group then convinced SG Anon to join them, and we have been addressing the unfounded accusations, without evidence, from SG for a while. In a nutshell, the splinter group likes to make accusations about a lot of people. Does that sound like the kind of Republic that you would like to join??

However, we know that this is God's plan, that these people who are leaving the Republic had to leave, because God does not want them in His Republic. We only get one chance at saving the country, and we need God's people to serve. If God is calling you to serve, email us at

RRB.admin@republicoftheunitedstates.org

and let us know what state you live in. We need governors in about 12 of the states for starters, but you can serve in other positions as well. We would appreciate your prayers as we endure yet another infiltration. Why would the infiltrators spend all this time and energy trying to harm the Republic, unless this was the authentic Republic?

God bless the Republic and God bless America.

Sincerely,

Jim Geiger

President, Republic for the united States of America

Sandy Miarecki

Secretary of State, Republic for the united States of America
