WARNING: Possible Major Events in the Country This Week

by Sandy Miarecki

As you know, leadership in the Republic is connected to some "insiders" that occasionally give us small pieces of information. Lately some of those small pieces are lining up to indicate something BIG is about to happen this week. ALL generals and admirals in the military are having a meeting in person with Secretary of Defense/War at Quantico on Tuesday. That has not happened before. In addition,

prices of gold and silver are rapidly climbing. And Oct 1 is the beginning of a new fiscal year.

We have been down this road before. I have personally heard about 30 or so promises of "it's happening this week" or "it's happening on Friday." And then nothing happens. You know what I'm talking about. It is frustrating beyond belief.

So, what do we do? We do not live in fear. We do not react to information that we do not confirm first. What can we do that is constructive and helpful? Treat this like an exercise. Use the time to check your preparedness supplies in advance.

What if there is a government shutdown starting Wed, Oct 1? We will lose some services. Figure out how that will impact you, and take care of business on Mon and Tues.

What if the banks shut down? There is a chance that the quantum financial system (QFS) will be installed in the banking system this week. What will you do if the banks are closed for the rest of the week? Beforehand, you can withdraw some cash (small bills, \$1, \$5, \$10, \$20) and have it on hand in a safe place. You can also pay your bills early online, if you are able to do so.

What if martial law starts? It will be similar to the Covid lockdown. Generally you will stay home and take care of yourself and your family. You should have the opportunity (and the duty) to check on your neighbors. Make sure you have their phone numbers in your phone. Make sure you have enough food for 3-5 days staying at home, for every member of your family (including pets and livestock). Fill your gas tank on Tuesday. Have alternate ways to cook your meals (barbecue grill, propane, fire pit).

Being prepared is the best way to reduce any stress or anxiety about possible outcomes. We don't know if any of these things will happen. This might be another false alarm. But if you run the scenario "what if?" you should be prepared for just about anything. God bless you and God bless this Republic.

[Maintaining Republic Parallel Status](#)

"So, having documented the key instances where it was necessary for the Interim Government to give Lawful notice to the *de facto* UNITED STATES corporation, and acknowledging that we continue to operate parallel to said corporation, we see no current requirement to give further notice. Let it be known that any agent (or officer of the Republic), unless authorized by the President in writing, has no Lawful authority from the Republic to serve notice on *de facto* officers on behalf of the Republic; and, if they do so, then they are acting in their own private capacity and DO NOT represent the Republic."
