Mallorca

- Balearic islands of the coast of mainland Spain
- Like the Hawaii of Europe
- Four main islands: **Mallorca, Menorca, Ibiza & Formentera**
- Every major European city/airport has flights to Mallorca/PMI

- PMI is the International airport on the island of Mallorca
- The island's major industry is Agriculture, Tourism and Cycling
- It is known as a cycling mecca due to its pristine roads due to lack of mainland traffic. Tour de France teams train here!

“

Now that I have been introduced to cycling in Mallorca, it is hard to imagine a better place to participate in either a cycling or a triathlon camp ... great roads, safe roads with respectful drivers, endless routes, great quality foods, lots of history to explore and of course, great weather.
