Fiber Optics to your community in **Ponder**

New Digital Infrastructure | Open fiber access

Open Infra will start construction of an open access fiber network for residents in **Ponder**. This privately funded development aims to provide residents and businesses with the best internet infrastructure available. The project includes approximately **2500 homes** in your area and every connected property will have the ability to access internet speeds up to 10 000 Mbit/s. In Addition, the new network will enable more internet service providers to compete for your business resulting in better prices, more options and higher speeds.

Choose the offer that suits you the best!

1.Full Fiber + 36 months Service | No installation fees | Router included

Monthly cost: \$79 for 1000/1000 Mbit/s (time limited offer*)

2.Full Fiber + 24 months Service | No installation fees | Router included

Monthly cost: \$99 for 1000/1000 Mbit/s (time limited offer*)

*Installation is free if you sign up with the rest of your community during this campaign

To start of your new journey with highspeed internet, this offer includes internet service from Starlight fiber (offering 1000/1000 Mbit/s) with a commitment period of 24/36 months. The service provider is authorized on the Open Infra fiber network, After the initial commitment period the customer can stop the service, change to any other authorized Service Provider on the fiber network, or continue the service on a month-by-month basis. All services are billed directly by the Service Provider and no monthly fees are charged from Open Infra.

Open Infra is an Open Access fiber network. All authorized service providers of TV and internet can offer you services through our network to your home. Competition makes prices fair and keeps your chosen provider on their toes to give you the excellent service that you deserve. Choose freely from the best customer support or which provider that offers you the best possible price available for the fastest speed. Fiber fulfills your need for high-speed internet and TV, but also offers all the possibilities of digital communication in the future. **Say goodbye to your old internet solution and welcome the future with Open access fiber!**

Sign up today!

To order full fiber to your property for the upcoming construction you can **easily** sign up on our website on the link below. Our representatives are more than willing to pay you a personal visit to further explain our offer and assist you with signing up. Give us a call!
