

SOLAR SYSTEM WARRANTY

1. WARRANTY TERMS

Green Valley Solar offer a 5 year warranty on the components making up your solar system (Components Warranty). This means that if any component of your solar system which was installed by us or on our behalf fails or breaks within 5 years of the installation date, we will provide you with a remedy as set out below

We also offer a 10 year warranty on the installation services relating to your solar system (Workmanship Warranty). This means that if the solar system installed by us or on our behalf fails or breaks within 10 years of the installation date due to defective performance of installation services, we will provide you with a remedy as set out below.

Together the Components Warranty and the Workmanship Warranty comprise Green Valley Solar's System Warranty.

2. TRANSFERABILITY

Green Valley Solar's System Warranty is transferable by the original purchaser of the solar system to any subsequent purchaser of the premises at which the solar system remains installed.

3. YOUR RESPONSIBILITIES

When your solar system is installed, you will be provided with documents which explain a recommended maintenance routine for your solar system and advice on how to monitor its performance. In order to have the benefit of the Green Valley Solar's System Warranty:

If we determine that there has been a breach of the System Warranty but the failure is not a major failure and is capable of being remedied, you must provide us with an opportunity to remedy the problem free of charge within a reasonable time.

If we determine that there has been a breach of the System Warranty and the failure is a major failure or is not capable of being remedied, you are entitled to:

- cancel your agreement with us and get a refund; or
