

# Argus Surveillance Camera Trailers

## "Your All-Seeing Guardian"

Introducing the **Argus Surveillance Camera Trailer** – a robust and highly customizable security solution designed to empower you with unmatched monitoring capabilities. Built to endure and perform in the most demanding environments, the Argus system delivers reliable surveillance for critical applications. With a host of advanced features, Argus stands as the ultimate sentinel for your property, events, or projects.

### Key Features:

#### 1. Customizable to Your Needs

Tailor the Argus Surveillance Camera Trailer to meet your specific requirements. From additional camera mounts to environmental sensors and custom paint finishes, Argus can adapt to your vision.

#### 2. Built Like a Tank

Constructed with rugged durability in mind, Argus is engineered to withstand harsh weather conditions and resist tampering. Its robust frame ensures long-term reliability in any setting.

#### 3. Five Days of Power Without Sunlight

Equipped with advanced battery systems, Argus can operate continuously for up to five days, even in the absence of sunlight. Integrated solar panels recharge the system efficiently when sunlight is available, providing sustainable and uninterrupted power.

#### 4. 24/7 Live Streaming & 30-Day Recording

Monitor your assets in real time with high-definition live streaming capabilities. Argus also boasts a 30-day recording capacity, ensuring you never miss a moment. Footage is securely stored and easily retrievable when needed.

#### 5. Multi-Operator Access

Grant access to multiple users with individualized permissions. Whether you need team-wide monitoring or limited access for specific personnel, Argus keeps everyone connected and informed.

#### 6. Cellular & Wi-Fi Connectivity

Seamlessly access your Argus system via cellular or Wi-Fi networks. Stay connected, no matter where you are, with reliable communication options that suit both urban and remote deployments.

#### 7. Event Notification Options

Enhance situational awareness with optional event notifications. Receive instant alerts via email and SMS messaging for motion detection, system updates, or other critical events.

ARGUS I

ARGUS II

### Applications:

- **Construction Sites:** Protect equipment and monitor progress.
- **Events and Gatherings:** Ensure crowd safety and manage access.
- **Remote Properties:** Safeguard rural or isolated locations.
- **Parking Lots:** Deter vandalism and ensure vehicle security

### Specifications:
