TAKE THE GREEN PATH TO THE FUTURE

CLOSED-CELL

Introduced to the market in 2006, Heatlok Soya is a Canadian product made in Quebec with 18% recycled content including renewable content while providing a high R6 value per inch. Demilec has recycled over 500 million plastic bottles to date. Its installation generates less waste on job sites and the product is delivered in liquid form, in returnable or recyclable containers.

- Interior and exterior applications
- Continuous seamless barrier that prevents air infiltration
- Greenguard Gold certified since 2006
- Adheres to any surface
- The only spray foam product tested against Radon infiltration in Canada
