house of cava

style menu

house of cava offers style packages from a single-room refresh to a complete home remodel. When we style your space, you will receive custom design boards with options from which you can pick and choose. Each package will include all products curated just for your style.

our process

phase 1

consultation

You will meet with our designers for an in-person consultation. This is where we will explore your vision, preferred styles, functional needs for the space, desired timeline, and project budget. We will then email you a project proposal and style contract. Once the proposal is approved and the contract is signed, we move to the next phase.

phase 2

selections / procurement

We develop style boards, sketches, and preliminary layouts, providing a visual representation of the aesthetic direction and layout possibilities for your space. We then dive deeper into the details where we finalize layouts, choose materials, furnishings and fixtures. After approval, purchasing, order management and/or contractor coordination begins.

phase 3

installation

This is where your design comes to life! This is when all the carefully curated elements of your project come together to transform your space. On this day, we will deliver and arrange furniture, artwork, accessories and style every detail to create the cohesive and polished look we've envisioned together.

about house of cava

We are Katie & MaryChris, an interior design duo! Working with an interior designer may sometimes feel overwhelming, expensive, and intimidating. We founded house of cava to change that way of thinking. We are committed to designing your space through a fun and collaborative approach. We understand that a well-realized interior comes from a true partnership between our clients and us.
