

24 April 1986

6. Responsibilities:

- * Writing letters/obtaining principals - Olson
- * Contacting statue designer(s) - Olson/Cook
- * Designing plaque - Olson
- * Contracting for plaque - Barrett
- * Designing program - Olson
- * Contracting for program - Aschenbrenner
- * Obtaining platform, podium, PA system - Aschenbrenner
- * Obtaining bunting, line, podium chairs - Saunders
- * Decorating podium/building - Saunders/Barrett
- * Obtaining Color Guard/Chorus - Saunders
- * Obtaining names of those killed in line of duty - Olson
- * Coordinating Band - Aschenbrenner/Grant

7. I will expect each sub-committee member to take the initiative to solve problems, not create them. Start now, as six months will pass very quickly. Keep all concerned aware of what you're doing. I don't believe in the mushroom theory of keeping 'em in the dark and defecating on 'em.
8. Other responsibilities that I will take-on that are not directly related to this sub-committee will be to attempt to have the LCSR, SEAFOX, UH-ID Helicopter, Space Capsule, Trass SDV and Sea Horse SPU on station. This is dependent on the availability of transportation. I will also contact Fred Miller to obtain a weapon(s) for raffle purposes and the American Historical Foundation for a UDT-Seal Commemorative Fighting Knife.

Sincerely,

Norman H. Olson
