Save the Date: Lord willing, Dr. Jonathan Engelsma hopes to give a topic on AI to our community on March 19, at 7 pm. Dr. Engelsma is the director and a professor in the College of Computing at GVSU. Some of the topics he hopes to cover under the umbrella of AI are:

1. Introduction to what AI is and how it is being used today.
2. Opportunities and challenges for parents and students regarding education and how to effectively use it; including an ethics discussion on whose work is being turned in.
3. Biblical guidelines and dangers of new technology and how to safeguard our families
4. Encouragement and advice to parents as we move forward and face these new challenges.

All this the Lord willing and we live.

"...bring them up in the nurture and admonition of the Lord." –Ephesians 6:4
