

Hello, my name is Karla Flores-Cavani and I am currently employed at an MSP called Newgentek as a Tier 2 Security Analyst. In this role I identify threats and vulnerabilities in our client's security systems and recommend security measures we can have in place to prevent cyber-attacks from happening. I have worked for this company for almost 4 years and started there as a dispatcher and worked my way up from there as a Level 1 technician, an opener, and a level 2 technician. During my time there, I got Network plus certifications, apple technician certification, and am currently working on getting my SEC + certifications. I have become familiar in the use of Gravity zone by Bitdefender, KaseyaOne , Kaspersky , Dark Web ID , along with many other security tools that I use daily in my current position . I am also currently a senior at the University of South Florida and will be graduating in the Fall of 2023 with a degree in Information Science with a concentration in Security. I plan to further my education and obtain a master's degree in this field after graduating as well as eventually becoming a Senior level Security analyst in the foreseeable future. Outside of work, I enjoy being outdoors, staying active , spending time with my dog, as well as continuously staying up to date with cybersecurity news and the newest threats in the cyber environment. You may contact me at 813 410 6328 or via email at karla.cavani96@gmail.com. You may also take a look at my portfolio at kcavani96.com
