I retired and moved to this area and would like to be able to fish off the pier or just be able to walk on it.

Town ties

To save the pier. I am born and raised here. The pier is a HUGE part of Holden Beach's history as well as many visitors and locals enjoy the use of the pier. I don't know of many islands that don't have a pier. It would be a shame and disgrace to see the pier be completely removed unless being rebuilt.

The pier has been there forever and I have wonderful memories of my grandfather fishing there. Myself and then my children visited the pier each summer while on vacation. The restaurant in the pier used to be a great place to grab a quick meal. Would love to see it reopened and include a restaurant, game room, etc like I remember from the 80's. Hopefully, it would not be a hardship on owners nor raise taxes but would love to see it restored for future generations to enjoy.

Well I think it's actually stupid that we as a community even have to do this in order to save our pier! However, since some want to be ignorant on this matter here I am, signing because the pier means a lot to our community. There have been generations taught how to fish on that pier. If you did not grow up here then you truly wouldn't understand & if you've moved here then you should respect the locals opinions on this. It's part of our community & the thought of being tore down literally makes me sick.

Every Beach town should have a pier! It has tons of income potential and it's a easier way for special needs families to be able to enjoy fishing and the ocean

Belinda Reed	2658...	Supply	Fishing, walking on the pier Because the town implemented paid parking to supposedly use the money for fixing the pier , and the need to stand by their word , especially when they have grant money that could combat some of the cost ! There is nothing to do here , council will not allow things to grow , we're the worst beach in Brunswick county , don't get me wrong I love it here and there are good people here who don't come here to retire and do nothing . Our pier is a staple of the history of Holden beach . We also use the pier during bigger swells to help us get out and it has been one of the only surf spots that friends from all walks of life can meet up and enjoy a surf before work .

It's a part of Holden Beach heritage and history. I kept my babies out the sun under the pier when we go to the beach strand. I grew up myself venturing the pier. It's where I would go to clear my mind.

Do I was lucky enough to live on Holden Beach for 15 years. I now live right across the intercostal and spend numerous hours every week on the island. I want to preserve the historical properties and ambience of the beach.

It's the Pier!! Everyone absolutely loves a nice pier to enjoy, have food, snacks, fishing loads of Fun!!

I very much want to see the pier restored and reopened.

They used to be a family-owned Pier my grandpa used to worked there and I used to like going down there and go fishing

Local fishing, to prevent injury to tourists

I grew up at the pier

Save the pier and bring economic development

I want the pier open up

The beach needs a pier-unless the Town plans to tear this pier down and replace it- then this pier needs to be fixed. It's a staple of the community.

I am a fisherman and love that the pier was close to home. The pier is also a social event where many people get together. It is also a tourist attraction where people walk out to the end just to be out away from the beach and there is now incumber view.

I would love to have a pier to fish off of in Holden Beach

The pier is not only a part of our county, community, and hearts. It also has a purpose! It supports our beach ecosystem in both tourists and locals fishing to providing nourishment to sea life as well. It will bring in revenue to the town which will continue our growth as a community!

The Pier has a lot of history, and it deserves to be maintained for the people who are their year-round.

I go to Holden several times a week. Would love to use pier and fish

Community, fishing, beauty, charm, welcoming, sunset watching, for our children, & to keep the GOLDEN HOLDEN vibe!

I have loved visiting the pier for many many years. My grandpa used to take me fishing off the pier. It was one thing I really looked forward to doing every trip. I was disappointed to hear of the sell and even more so the plans/ lack of plans the City had for it.

Because it's a historical part of holden beach

How could you possibly have a Beach without a Pier??? This is very important for the Beach, the people and the overall meaning of what the Beach is as a whole.

The pier is the history for holden beach. It's a fishing community . Keep things simple, the pier is a place for coming together, teaching, learning, so much more

Piers are nostalgic and the Holden Beach Pier holds a lot of great family memories for many. I don't believe there is anyone that is opposed to paying for the privilege of use

I'm tired of watching historic sites become a long lost memory. This whole county has turned into an overdeveloped crap show and there's little to nothing left that actually feels like home. Where's all the money from the stupid paid parking going? Apparently not where it should go. Locals can't even enjoy their beach anymore. Fisherman use the pier as a landmark while working. Not to mention the debris from tearing it down will cause. It'll be a fisherman's worst nightmare. Not like anyone cares about the fishermen anymore. Also, if you have the money to tear it down, then there's money to fix it.

We love pier. My 92 father in law loves fishing off the pier.

My Father loves to sit there all day and fish

I've had a place here since 1988 and made some great memories on and around the pier. It is the backbone of Holden Beach.

I have been at Holden Beach since I was 5 years old and I'm now 45 and the pier was always our go to place. I think it would be a disservice to our community to not replace the pier.

To keep things like they are and not have to go to another beach to fish off their pier and give them money. When we have one right here to do the same thing.

Need to preserve the history of Holden.

The pier has been a part of our family for generations. We need to save for the future!

I own property close by and my family would love to have access to an ocean fishing pier without driving 30 minutes away.

Preserve the past. Make memories in the future.

The pier is a piece of history, and it is awesome to fish from.

In October 2009 I moved to the Holden Beach area because of the simplicity of it. I love this place and I don't want to see it become commercialized. It should remain the family oriented place that has drawn so many of us here for decades.

I was born and raised at Holden Beach. I grow up going to the pier and walking out in the pier seeing everyone enjoying fishing. I feel by keeping the pier we will be keeping a little piece of history for years to come.

The pier is an asset to the community that helps draw visitors to the island. It has been a fixture to the community for over a half century and should be rebuilt to it's original length which would make it the place to fish in Brunswick County.

The pier is an important economic anchor for Holden Beach. I've been going to Holden Beach all my life. My grandparents have a house down there. We have always gone to the pier and walked down to the water. The pier is a landmark to us and it's how I know where to get back to my car. It also is a meet spot if we decide to split up on the beach. The pier also provides shade for us to take a break from the scorching sun. We never could get an umbrella to work or it would blow away. We would be so sad if it gets tore down and not built back as soon as possible.

Save. the pier  
I love NC beach piers

My family has enjoyed Holden Beach since the early 1950's. We have owned island property there since the early 1970's. I have 3 out of 5 siblings that live on the island now. I used to own a home there as well. Ever is was a very little girl I've carried the memories of "going to the pier" to be able to walk out over the ocean to view the horizon, sunsets and vast beach strand, look over into the depths of the water and waves, see what the fisherman were catching and talking with friends and visitors. Back in day, going to the HB pier or Surfside Pavilion (which is unfortunately gone) were the only attractions where the community could gather and it was the highlight of something to do on our little family beach. We spent our full summers at Holden Beach growing up. As a child our parents could take us to the pier for a snack or icecream, to fish, play games inside and walk out onto pier. As a teenager and young adult there were endless summer days spent on the beach around the pier enjoying all the wholesome activities it offered swimming, sunning, surfing, shelling, picking up trash, people watching, surfing contests, etc. with the respite of being able to go into the pier for food, drinks AC, outside restrooms and a walk to the end of the pier to watch the serious fisherman catch the big ones! Then, we would go home shower and come back to spend our evening there with our new and old friends, local and from afar to walk the pier, eat, play the put our quarters up to play the juke box, arcade games, pool, ice hockey, and foosball for hours until it was our curfew and a promise of looking forward to the same fun and good times at The HB Pier! As an adult I was able to do the same with my family until the pier closed. This was the only place where all people of various ages, from different locations, backgrounds could gather for something to do years ago. I have many longtime friendships with folks that were formed decades ago on those very grounds. It was a place where the young and old all came together in making memories of the good times in the good ole days of Holden Beach. Most people cannot imagine what it was like to enjoy the pier at some point during the fifty some years while it was open and they do not appreciate or understand it's history and significance. I can assure you that if we SAVE THE PIER through reconstruction it will once again be the highlight of Holden Beach an capture the hearts & minds of all!

We have Family that lives at Holden Beach and we visit offer we would love to see the Pier opened back up

The pier is an important part of the history, I may not live there but I visit often and love Holden Beach

I love Holden Beach and love to taje the grandkids to visit the pier.

The pier has many memories made by my family. It's tradition during vacation to walk the pier at night to see the water and the fishing that is going on.

It's a piece of history and if at all possible should be saved

Vacation property at Holden

History

I've grown up going to Holden Beach and I absolutely think the pier is vital to the island. It's a landmark that should be maintained and restored.

I grew up going to Holden Beach and spent many days there with my dad and enjoyed it so much. So many good family memories!

We often vacation on Holden Beach and the pier is a very important part of the Beach.

I think it's important to keep the pier.

The pier is the only entertainment for families on a beach that is promoted as "family oriented."

Visited for the first time last summer. It was a beautiful area. Loved looking for shells on the beach by the pier.

My grandmother lives in Holden Beach and I spent my summers visiting her. A lot of my fondest memories of childhood were made on this pier, and I would be gutted to visit her again and see a huge absence where the pier should be.

Fishing piers are becoming a thing of the past. Growing up, fishing off the pier with my dad and other family members are some of my best memories. I hope other families have the opportunity to have this pier and to make memories of their own!

Holden is a great family beach and it needs a pier!

I used to go to Holden beach every year with my family and the pier was always a special spot for us

We have visited Holden Beach since 1975 and since we retired, we vacation there every year for the whole month of October. If the pier is closed, we will vacation at one of the SC beaches because my husband only goes to fish on the pier.

My family has used this pier for Over 40 years it holds some many special moments in my life with my Dad who is now in heaven my children my husband and my grandchildren Please save the pier !!

Jane Wooters	4392 ...	Ramseur	I grew up going to Holden starting at the age of 2. 40 years now I still go but multiple 11times a year now. Getting discouraged though with all the extra people & craziness over sea biscuits. Until 2021 I never worried about sitting by another family. We /are lucky to rent my aunt's ocean front home (clearly she pays alot to have it). All I truly need to say the pier has been there my entire life & my 2 sons as well. Why destroy something so meaningful to a lot of people. Fished with my kids many a times. Also, with my Daddy. Seen cool things caught & released. Just a fun place to go even when a kid. I want my children who are adults now want to take their kids to the Holden Beach Pier one day . Long time from now. Fix the damn thing. THIS not fixing should not be an option.
Janet Helms	5610 ...	Waxhaw	The pier is a vital part of the history of Holden Beach. I first went there over 40 years ago. My sons fished there when they were small. ### We love Holden Beach and the pier!

Have been going to Holden for decAdes. Used to love fishing and walking on the pier.

I have been going to Holden my whole life. My mom grew up going with my grandparents who started going in the 1950's. The pier is a staple and landmark at Holden. It just wouldn't be the same without it.

The Pier will benefit from the fishing generated revenu. Most people have expressed how can a beach not have a pier to go fishing. Will benefit local businesses

Backbone and culture of Holden beach

Saving a historic property that has been a part of my family's lives

We love coming to holden and loved the pier

Holden Beach was my former hometown.

For the last 39 years I have spent many days and nights walking, fishing, relaxing and enjoying this pair! It has been a huge disappointment each trip to Holden that I am not able to give my children the same simple pleasures Holden once offered. This pair was a foundation to my entire family. As my great grandparents Hugh and Mabel Dutton were a staple in the Holden Beach community and history!!

We camped at the Holden Pier campground for 4 years several times a year and loved it. Need to save the pier!

I want to keep the pier

I have been coming to Holden Beach since I was a child. The pier is an important part of HB history.

Lucinda Eason	810...	Fayetteville	Lots of memories of growing up on the pier with my grandfather also with my children would love to share it also with my 13 grandchildren as we enjoy golden and would love to have a pier to walk on and fish on

That pier is the main attraction for all beach users and they always congregate around that area. Our son and his uncle often fish from the pier and everyone loves the shade it provides for people on the beach.
Mark Johnson	205...	Statesville	Enjoy all the piers in our state
Mark Meds	1030...	Roswell	The pier has always been a great place for fishing and fun for my family over the past 50 years.
Mark Smith	5273...	Mount Holly	It a landmark at Holden. One of the last places that a normal income family can enjoy.
Mark Smith	100...	Spartanburg	The Pier is a part of the history of Holden Beach. Thousands have enjoyed this pier!
Marla Polk	792...	Hampstead	Holden beach pier has been a very important part of Holden community. It also had one of the few ocean front camping. It know identifies with million year old fossils.

Maureen Weyant	5201...	Raleigh	I have loved this beach since the 80's. Politics seems to be playing a huge part in this decision.
Megan Eger	166...	New Columbia	I just love beaches and don't want to see a pier destroyed.
Megan M Brauch	Sale...	Ellison Ave	My husband proposed on the pier, and this would be heartbreaking if it were torn down. It is such a special part of Holden Beach!
Melanie Outen	3315...	Monroe	I've been coming to Holden beach for 40 years with my family! I now have grandchildren and want them to be able to come enjoy what I got to as I was raised at Holden! The Pier is a pivotal part of Holden Beach and it's community!!
Melissa Deal	116...	Belmont nc	In my opinion a beach is not a beach without a pier. If it wasn't for the fishermen that built and fished the pier there would not be a beach. It amazes me that we the people that have camped and fished at this pear for many many years seems to not matter to anyone at Holden beach.
Michael Andrews	321...	Bladenboro	Sheathed you walk or fish the pier it is a land mark and it should be saved.

As I child in the 1970s, we would visit my aunt and uncle's Holden Beach house each summer. I have fond memories of hanging out all day at the pier, playing arcade games and sometimes fishing.

Each time I return to Holden Beach now as an adult, I always stop at the pier for nostalgia sake, grab some food and to purchase something to show my support.

Please don't remove this landmark. Restore it and make it a jewel for Holden Beach.

I have been fishing on that pier for 50+ years. I caught a 38 lb king there one time.

Love Holden Beach and amenities. Losing the pier would be like losing an old friend. Lots of memories.

We have a place at Holden Beach and loved going to the pier to fish and walk... it's sad that we were told that the town was purchasing it to restore and now wants to demolish it. Appears they only wanted the parking lot to generate more money from parking fees.

I've spent my entire life coming to Holden Beach. It is a second home to our family. I've cherished seeing my child experience & love Holden Beach as I did as a child, and I hope in the future he will take his children & grandchildren to grow up there as well. Though things have slowly changed over the years, it still keeps some of it's charm. We've lost the small quaint cottages to tall fancy houses obstructing views. We unfortunately even lost part of the pier, even though she is shorter, she remained. The pier is still one of those things that never changed completely. At least not to be completely gone forever. We have prayed through numerous hurricanes and storms that she would remain standing strong and she has. And now she needs some TLC in her old age. She doesn't need to be replaced with more tall structures instead of revitalizing her history and charm. So much could be done with this property for the town & would bring in income after revitalizing. Bring it back similar to the old pavilion, mini-golf, waterslides, arcade, restaurant, ice cream parlor, fishing, paying to walk and enjoy the pier day & night, etc. She's not a lost cause and we want to help rally to save her.

The pier was one of favorite things as a vacationer of Holden Beach! Fishing, the views, and meeting new people as we walked along the pier! I visit Holden Beach several times a year. The first time 5 years ago I really enjoyed walking on the pier. I have started fishing and would love to be able to fish from the pier. But, my main fear is loss of Beach access to house on Charlotte street now that campground is gone.

I want those same memories continuing for my great grandkids and beyond . Either rebuild or replace the pier ! Don't let it be a bygone memory like so many of the other landmarks have become ! Nothing replaces a long walk on the pier !

Recreation/History

I grew up at Holden Beach with the pier

My wife's family are 30+ years property. The pier is an important historical, cultural, and economic landmark of HB. My kids have grown up going to the pier, as my wife did when she was young. Open the grill and arcade also! This could be a great profit generator for HB.

I have vacationed at Holden beach for 25 years and the pier is staple of our vacation. I can imagine seeing the beach without it

Having property in area, we enjoyed using the pier in past years. Would like my children and grandkids to be able to enjoy also.

The pier is important to keep Holden Beach the perfect vacation destination year round. Fishermen support is needed in off season.

My mother has a home on the island and i have been coming to Holden since I was a young child. I remember going to the pier with my dad(who has passed) and my mother,walking out on the pier and playing mini golf. We even stayed at the camp ground before the purchase of the home. My daughter also grew up coming to Holden Beach. Along with my brother and his family. Would be ashamed to do away with the pier,its like a landmark. Who ever heard of a beach without a pier.

I have a second home at Holden Beach and the pier has always been a form of entertainment (primarily fishing) for many years.

I have been going to Holden Beach for a very long time for vacation and love the area and would love to see the peer restored and saved. Thank you.

I have a house in Supply, NC. I have been coming to Holden Beach for over 50 years. Please do not destroy the Pier!!

We love Holden Beach, and vacation there every Summer. Since the beach is such a rural one without the likes of a boardwalk and shop after shop (of which I am not fond), I love everything that having a pier offers.

We have a second home there and loved the pier

I grew up at holden and we still enjoy it multi times a year with our family. The pier has always special to us .

My entire family Have been vacationing at HB since I was a child Have place in Supply

We absolutely loved walking on the pier as teenagers.

Now as older adults memories are all we have left. I miss fishing so much. Have gone done for 35 yearshave alot of memories and want to see it saved it is history and alot of beauty ♡

The pier is important to the community.

I'm from Holden Beach, lived there for 18 years and still have family there. I have great memories from playing on the beach and walking on their pier when I was a little girl.

This was the pier I spent a lot of time at with my late husband and my kids grew up going there . I would love my grandchildren to be able to fish there

We visit Holden every year and the pier is a treasured part of our visits. The NC coast used to have scores of piers; every beach seemed to have one. Now, few do and the number is dwindling. Please preserve this wonderful resource. It adds great value to the community.

Having property in area, we enjoyed using the pier in past years.

From the age of 6 I have spent many summers on Holden Beach due my parent formally owning a place there until the early 90's when they sold their vacation property. The first time I ever fished from a pier was The Holden Beach Pier. My brother and myself had a lot of great memories from this pier and Holden Beach in general. Now that my brother is no longer with us I have been bringing my son to the pier every year to fish like my brother and I once had. To honor my brother's favorite place my son is naming his first child Holden! The pier definitely an iconic place with many wonderful memories for thousands of vacationers for many years and has a very special place for my family! Thank you all for letting me share the memories and experiences of the Jenkins family!

This is important to me because I love coming to Holden Beach . I love the atmosphere that this pier resonates. I would love to see it restored to even better than it was .

The pier has always been the heart of Holden Beach. I've been coming there since 1969 and I can't imagine HB without the pier.

The pier is historic and used to be the longest one on the East Coast. It needs to be saved and restored.

I'm there 2-3 times a year and usually either dish off of it or take a walk on it

I love visiting holden beach and would enjoy getting to fish off the pier and walk on it

Holden Beach Pier memories...approaching the double screen entrance doors to step into on those sandy concrete floors to everything you'd expect at the pier of Holden Beach! Off to the left were the glass top coolers filled with ice cream treats, canned sodas and frozen bait. Above them were the essential tackle needs and sundries like adult & kiddie sunglasses, hats, visors, flip flops, floaties, sand toys and sunblock. In the middle were shelves of knick-knacks, snacks and typical grocery items surrounded by metal trimmed counters with swiveling pedestal stools where people were checking in to the old hotel or campsite in one corner, sitting at the counter eating or standing in line to order food and pay for their purchases. It was always friendly mix of families, fishermen, and people of all ages giving their business to the pier. Off to the right was the huge recreational arcade area lined with windows and built in benches & arcade games that surrounded the pool, foosball and air hockey tables divided by a long two side bench down the middle dividing the the space. In the back ground you could hear the juke box playing, pinball machines ring, clack of pool balls and air hockey and the ping of a foosball score.

Wherever you looked it was a community of people of all ages having enjoying the local pier. A trip to the pier was never complete if you didn't go out on the pier itself though which was once free to the public as it should. Making your way to the rear doors that lead outside onto pier boardwalk you passed the counter to the left where fishing permits were sold surrounded by walls cover in photographs of the people with legendary fish caught off the pier! Feeling the ocean air and breeze as you traveled along that 1000' pier over the ocean waves below was special, not mention taking in all the sights with a bird's eye view. Seeing people enjoying themselves fishing and their catch of the day or sitting a spell on the 6' benches spaced every 10' along the rails or picnic tables in the middle of the pier until you got to the very end where the big gazebo over picnic tables were located and the serious fishermen were set up to catch the big one. 'The Pier' is iconic to Holden Beach and all the memories come rushing back at the thought of it not saving it. It must be saved at all cost to be enjoyed by all in the future!

A good place to just look out at the beautiful ocean. I love to fish off this pier .And if pier is gone there will be no more Holden Beach. I have been coming to Fish off the pier for over 45 years now I am retired a could really enjoy my time there fishing.

We have a house on Fayetteville St Holden Beach and enjoy the beach like it is

Because the pier has been a staple of the beach for many past and present generations. I've been going to Holden beach from the time I was born in the 70's. I have passed my love for the pier down to my children and hope they will have the chance to pass it to theirs ! We make memories together as all my family come together and we walk the pier ( or fish ) . I feel with the pier gone it will take away so much attraction, memories , beauty and history !

As a homeowner I think it is important to offer amenities and things to do for residents and visitors. The pier and snack bar etc. were important offerings of Holden Beach. I come from a long line of homeowners (pre Hazel) on the beach.

Family property owners over 30 years. The pier is an important historical, cultural, and economic landmark of HB!

My mom lives in holden beach and would be devastated if the pier did not get saved. The community loves the pier.

My mother owns property at Holden

We have a family vacation home on the island Tarpon Drive. We are avid fishermen/women and the pier is part of what drew us to the area.

Property owner

The pier in the outer banks that is maintained by the state aquarium system is amazing and something like that would be a game changer for the area-

The pier is an historic piece of Holden Beach and the concept of a 'Family Beach'. This issue has already been addressed by the previous commission and doesn't need to be resurrected by a few of the new commissioners. The HBPOA represents a small percentage of the total property owners on the island.

The pier is important to the homeowners, local visitors and tourists.

I own a beach house that I rent on Holden Beach. I have owned it for over 40 years. The pier is an important part of Holden Beach history. It is an important attraction that brings enjoyment and happiness to all ages, renters and locals alike. It is the only place on the island where you can walk out over the water and enjoy the natural beauty of the ocean. The pier is an integral part of any beach environment and is what makes Holden Beach a very special place.

The pier has long been a centerpiece of the Holden Beach community, with something to offer every member of the family. It is crucial that we not only maintain but also commit to improving the pier as well as all of the recreational resources for our community, property owners and visitors alike.

The pier is special to Holden Beach. I grew up going to eat there and every night after dinner we would pay our \$1 to walk out there and get our 25 cent gum ball after. I would hate to see it be gone, it's like a central location for visitors to come to the beach who don't live the island

My first trip to Holden Beach in 1979 was to go fishing. We had a lot of success from the pier so we went back every year. If the pier hadn't been there we probably would not have returned. I bought property on the island in 1983 and have been there ever since fishing from the pier until recently.

All forms of recreation are important, to fellow residents and to visiting vacationers. A primary recreational pastime for many is fishing, and pier fishing is a truly iconic thing to enjoy

I want to save the Pier. It is part of the island. Many family memories Preserving the Pier as a critical community resource for Holden Beach residents, property owners & as a vacation destination. Fishing & recreation needs that are basic to the Islands people & their needs.

I have a house on Dolphin. The pier is important to the people that have owned a house on the island. It's part of the history of Holden Beach.

Pier is an important part of Holden Beach

The pier is part of our family history over the years with happy memories spent there. The pier needs to be restored & re-opened!

Vacations have been centered around fishing at the pier.

Buying, closing and selling the adjacent campground so MORE private homes could be built proves the need for MORE direction from the tax payers.

I grew up going to Holden Beach and my family has for five generations. Some of my earliest memories are on and around the Holden Beach pier and I would like to see it live on for a very long time.

The Holden Beach pier used to be so much fun for people to visit and fish from. I would love to see that again. I think it would be good for the tourists and for our economy.

We own land @148 Greensboro street and piers are very important to island communities.

We want save the pier! It's an important part of Holsen Beach even for those of us who live here full time!

I wish to save the pier as was presented before the Town bought the Pier

This is an important structure to the Holden Beach Community in so many ways.

I want the town to keep the pier and make necessary repairs to make it safe and to upgrade and open a restaurant at that location

We are one of six families owning 192 Greensboro Street. Our ownership families have been coming to Holden Beach since 1985. Being only a few blocks from the pier, it has been an essential part of our heritage at Holden Beach.

The pier represents the soul of every beach community up and down the North Carolina coast. It is picturesque and inviting. It is a physical and emotional part of our beach. It must be saved for all the generations today and generations to come. It is what memories are made of for all of us as we walk it and experience it.

We request the Holden Beach Board of Commissioners to SAVE THE PIER. Demolition of this historic landmark should not be an option.

Mitch Varner

As a property owner the pier is one of the elements that makes Holden so special. People come to Holden to walk and fish off the pier. Additionally, the pier would be a good source of income for the town.

My property is located next to the pier. I want to see the pier restored and operational.

My property is located next to the pier. I want to see the pier restored and operational.

I would like to see the pier either saved or legitimate plan on how to replace it immediately. The pier is one of the reasons I chose to build at HB!

Our kids love the pier!

I believe the pier is one of the most important things for our beach. Holden Beach is known for being a family beach we don't have a lot of businesses or restaurants and things like that on the beach. The pier is one of the last things that makes this a family beach I believe without it we have lost a lot of history and what makes Holden Beach special.

The Pier is a Historic land mark of Our beach!

My family started vacationing in HB in 1978, owed property from 1984-1997 and I spent many spring, summer, and falls at the pier. The pier is iconic and has weathered many storms that has signified HB strength and resilience!

I have personal owned and lived on HB since 2000 and I can't imagine a life on HB without the pier!

The pier adds value; mentally , spiritually, communally and in the long run, financially. Let's Holden better. Simply, it will bring happiness.

The pier is place to relax, fish and enjoy the ocean. Piers are a tradition up and down the coast. To remove the pier and take it away from the public is criminal not to mention the complete waste of over 3 million dollars.

Because I began coming to the Holden Beach Pier and enjoying this Beach more than 35 years ago. I am now a resident and I see families enjoying Holden Beach the same way I did and still do today. It's the Family Beach and there is no other place like it..

I love that we've had a pier for so many years. We have a lot of fishermen in my family who like to fish off the pier and surf fish. I think it's welcoming to visitors too. I think every beach should have a pier. I'd love it if they had a restaurant there too. I think it's a great attraction for any beach.

I live here in Holden Beach year round .

I have been coming here since I was a teenager.

The pier would provide monetary benefits and beautify our beach. Solace we could take our grandchildren to carry on the tradition. Please consider this.

The pier is an asset that should be maintained.

I think the is important to the beach and families.

The town purchased the pier to restore it not demolish it.

I enjoy the pier. We liked to walk to breakfast at the little cafe. The pier looks fabulous in my photos. It provides shade for beach goers. My father in law loved to fish on the pier. He would stay for hours. It is nostalgic. Please save the pier. On another note, I don't mind the paid parking. The clientele on the beach around the pier has improved. More families is nice.

Because I've had a beach home here since 1965. And I love fishing off the pier. Holden Beach pier is special to me

I whole heartedly think the pier should be repaired or replaced as was the original plan.

It is a shame that the new board members want to destroy something that has been so important to so many for so long. Holden Beach is a public beach and not a private island. I cannot understand how people that did not have the pleasure or the wonderful memories of growing up as a child, not only learning to fish but learning a lifestyle and life lessons that are priceless, can even fathom destroying something so wonderful, just because they can. I feel really sorry for them not having the memories that many generations have enjoyed and loved. The pier has been an icon to this entire community. If you want to keep Holden Beach the wonderful FAMILY beach that it is, then you need to keep the pier so that future family's can have the same wonderful experiences. Not everyone owns or has access to a boat for fishing nor does everyone have the access or the ability to surf fish. Please for GOD's sake keep and fix the pier for our future generations!

Making memories at the pier

I've lived on Holden Beach 33 years and the pier is part of our lived experience. Public beaches have piers and they are a wonderful gathering place

The pier is part of history. Lifelong homeowners talk about the island before Hurricane Helen. They recollect the old hotel next door and tell stories of sitting in the Cafe with friends talking with Mr. Bass watching an occasional vehicle pass by on Ocean Blvd. Why sell the landmark for development? We continue to lose landmarks to big business. Soon HB will fall the way of Wrightsville Beach and be overrun with overbuilt beachfront homes. Where has the "family" beach gone?

It is critical that Holden Beach restore its pier!  
The pier is a part of Holden Beach and it's history.

Property owner  
I believe the pier is a necessary amenity that will greatly benefit from its repair/reconstruction.

My family and I have visited this beach for over 25 years. I now live on the island but I believe all people in the community and ones around us near and far should enjoy the pier.

To save the history of Holden Beach and support what makes Holden Beach HOLDEN BEACH!

As a homeowner on Holden Beach, our voices need to be heard. The pier is a historical part of the island and needs to be preserved.

The historical pier has been an icon for the island before it became incorporated. It may be the only thing that connects us to the earliest beginnings. It will attract fishermen back who have left of Oak Island to pier fish. Other visitors will come bringing in revenue to businesses. The building needs work but will be able to turn a profit and generate business tax revenue that is limited on our island.

I would love to see the pier reopen. For me, it has always been an important part of Holden Beach and destination for my family when they come visit.

Want a pier for my kids and grandkids

Because I feel strongly that our pier should be preserved. It adds to the character of our island.
