

## SPEAKER RIDER

- Presentation will be sent to the event organizer at least 48 hours in advance of the event. Ted and the event organizer will agree on a time to meet at the event. Upon arrival at the venue, Ted will go on stage and do a quick run-through of the presentation to ensure everything is as it should be.
- Ted has a strong preference for using a lavalier microphone. The conference organizer should also provide the presentation clicker. Ted prefers to have a confidence monitor and countdown clock if possible. There should be a small bottle of still water available.
- There is no need for a podium or any other sort of furniture on stage.
- For all engagements, Ted prefers to arrive the day before the event and requests to stay either at the venue hotel or close by. Please book Ted on a non-smoking, high floor.
- Ted does not make his presentation available for distribution following the event.
- Photos and video during the event are welcome but please limit the use of flash photography.
