

Dear Parents/Legal Guardian:

I would like to take this opportunity to introduce services from the School Based Health Center. The Behavioral Health Clinician is located within the school and provides expanded behavioral health services. Mobile dental services are also offered through Community Health Center, Inc. All students are eligible to participate regardless of insurance status.

- Behavioral health services include individual and group counseling, family support services and parenting assistance. Referrals for medication evaluation and psychiatric care are available as needed.
- Mobile dental services are available approximately twice each calendar year and include cleaning, exams, sealants (if needed) and education.

Our services participates with most major insurances. We will bill your child's health insurance at time of visit (if they have insurance) If your child does not have health insurance we can help you apply for coverage.

Enrollment into our services can be completed at sbhc1.com. The enrollment process must be completed before the health center staff can treat your child.

If you have any questions, concerns or would like additional information, please feel free to call our Operations Coordinator Lirianie Mendez 860-519-4417.

We look forward to working with you and your child during the school year.
