

# Enfield Community Learning Resources

Grades PK-5

A collective effort of the Enfield Public Schools

Dear Families,

This resource is designed to help connect you to learning resources that you can use in addition to the learning packets supplied to students. **None of these activities are required** but they are wonderful ways you can expand your child’s learning and fill more of their time with productive activities. **All these sites are FREE – you may need to create an account but there is no charge to do so.** You can scroll through the entire list or you can click on the blue headings to jump to that section.

We will continually update these listings so check back often! If you find something great that you want to share, please email the information to your school’s principal.
