To: Guardian/Parent/Staff Notification
RE: Asbestos Abatement in the White Wing (Work Area G) of JFK Middle School, Enfield, CT

Dear Concerned Parties:

The intent of this letter is to inform you that asbestos abatement activities in the White Wing (Work Area G) of JFK Middle School are scheduled to begin on February 18, 2021, with a tentative end date of May 18, 2021. Asbestos-containing floor tile mastic, stair tread glue, pipe insulation/fittings, and white/chalkboard glue will be removed within the various rooms/ areas on both floors of the White Wing. AAIS of West Haven, CT will be conducting all asbestos removal activities, which will take place, in general, during the hours of 6AM to 5 PM on weekdays.

Abatement work will be performed within air-tight enclosures using proper removal methods to prevent contamination from the impacted asbestos materials into other areas of the school. In addition, a State of Connecticut licensed asbestos abatement contractor, AAIS of West Haven, CT (AAIS) will perform the asbestos abatement work and TRC Environmental of Windsor, CT (TRC) will be acting as the Town's independent environmental consultant, monitoring all project activities. TRC will perform pre-abatement visuals of the containment integrity, frequently review and visually check the abatement contractor's removal methods, perform ambient air sampling during the abatement process and perform final visual inspections following removal.

This notification is being sent to all appropriate parties and will be displayed at all entrances to the School. Any questions about the project can be directed to Christopher J. Drezek, Superintendent of Schools.
