About the Fatherhood Initiative

" My name is Rocco, throughout my life I've been known by many titles. I've been called a "son", "brother", "teammate", "musician", "cook", "social worker" and a "salesman". Out of all the titles I've held the most important is that of "Dedicated Dad" to my beautiful three year old daughter. Our group is designed by a Dad for Dads. No script, No curriculum. Our program's mission is to create a place to work and learn together so we can be the best Dads we can be. "
