

Bring Your Own Device (BYOD) Policy

Cathedral of Our Lady of Guadalupe

Effective Nov. 10, 2025

It happens that people might use their own electronic device to access the Internet here at the parish and/or school. In doing so they acknowledge that their device is not exempt from legal scrutiny if there is ever an issue. They also acknowledge and agree to sign this BYOD policy and the computer/internet policy before any access is granted. The signer acknowledges that any password/access granted to them is only for their individual use. They also agree to not share any password or access with another person. In doing so they might lose their internet/WIFI privileges. I understand that this agreement is required for me to be employed or volunteer for the Cathedral of Our Lady of Guadalupe Parish and that abuse of Internet and computer access subjects me to termination of employment or volunteer service.
