Please fill out the following form, and we will contact you soon. The Modular Packaged Unit (MPU) is designed to be a factory packaged air conditioning and heating unit for 100% Outdoor Air (OA) applications. Units are sized to operate between 360 to 600 cfm/ton of cooling, depending on climate. Direct Fired Heat with Cooling Package Indirect Fired Heat with Cooling Package Electric Heat with Cooling Package Heat Pump Option - Ideal for small heating needs and where gas is not available Cooling Only Configurations AC Option - Sized for 150-300 CFM/ton of Cooling AC Option with Warm Liquid Reheat - Sized for 150-300 CFM/ton of Cooling and Dehumidification High Efficiency Nominal 14 SEER Rating Condensers Integral Cooling Staged Thermostat Multiple Stage cooling for lower energy usage Pre-Piped and Charged Refrigeration Circuits Optimized for 100% OA for kitchen use Cooling requires no additional roof footprint Coils and Condensers sized to comfort cool make-up air R-410A Environmentally Friendly Refrigerant Thermal Expansion Valves and Filter/Dryer Kits External Equalization Lines for Thermal Expansion Valves Hard Start Relay Kits on the Condensers Condenser Disconnect Switch Vacuum Tested and Leak Checked Linset/Coils Condenser Transformer Prewired Thermostat Prewired and Interlocked with Heater Integral Weather/Hail Guards The modular packaged cooling unit is optimized to work in conjunction with highly efficient make-up air delivery methods, such as perimeter supply plenums. The unit can either have a down or end discharge, and can be used with both electric and gas heat. All refrigerant is environmentally friendly R-410A and condensers have a nominal SEER rating of 14 for greater efficiency. One benefit of this unit is the multiple cooling stages.

Multiple cooling stages increase the efficiency by not using 100% of the cooling capacity when this is not needed, thus allowing lower energy usage. An internal make-up air cooling thermostat automatically energizes the first stage when cooling of the make-up air is required. The same thermostat has a built in adjustable differential to energize the second stage of cooling when required. The condensers are top mounted on the make-up air unit to minimize roof space requirements, and are situated for optimal airflow and serviceability. Thank you for your feedback! A1-D.500-G10 Direct Gas Fired Heated Make Up Air Unit with 10" Blower A1-D.500-G10D Direct Drive Direct Fired Heater Unit with 10" Blower in Size #1 Housing with speed control, disconnect switch. A1-D.250-15D Direct Gas Fired Heated Make Up Air Unit with 15" Mixed Flow Direct Drive Fan A1-D.500-15D Direct Gas Fired Heated Make Up Air Unit with 15" Mixed Flow Direct Drive Fan A1-D.250-16Z Direct Gas Fired Heated Make Up Air Unit with 16" Direct Drive Fan A1-D.500-16Z Direct Gas Fired Heated Make Up Air Unit with 16" Direct Drive Fan A1-D.250-18Z Direct Gas Fired Heated Make Up Air Unit with 18" Direct Drive Fan A1-D.500-18Z Direct Gas Fired Heated Make Up Air Unit with 18" Direct Drive Fan A2-D.250-G15 Direct Gas Fired Heated Make Up Air Unit with 15" Blower A2-D.500-G15 Direct Gas Fired Heated Make Up Air Unit with 15" Blower A2-D.750-G15 Direct Gas Fired Heated Make Up Air Unit with 15" Blower A2-D.250-20D Direct Gas Fired Heated Make Up Air Unit with 20" Mixed Flow Direct Drive Fan A2-D.250-20Z Direct Gas Fired Heated Make Up Air Unit with 20" Direct Drive Fan A2-D.500-20D Direct Gas Fired Heated Make Up Air Unit with 20" Mixed Flow Direct Drive Fan A2-D.500-20Z Direct Gas Fired Heated Make Up Air Unit with 20" Direct Drive Fan A2-D.750-20Z Direct Gas Fired Heated Make Up Air Unit with 20" Direct Drive Fan A2-D.250-22Z Direct Gas Fired Heated Make Up Air Unit with 22" Direct Drive Fan A2-D.500-22Z Direct Gas Fired Heated Make Up Air Unit with 22" Direct Drive Fan A2-D.750-22Z Direct Gas Fired Heated Make Up Air Unit with 22" Direct Drive Fan A3-D.500-G18 Direct Gas Fired Heated Make Up Air Unit with 18" Blower and 12" Burner. A3-D.750-G18 Direct Gas Fired Heated Make Up Air Unit with 18" Blower and 18" Burner. A3-D.1000-G18 Direct Gas Fired Heated Make Up Air Unit with 18" Blower and 24" Burner. A3-D.500-24D Direct Gas Fired Heated Make Up Air Unit with 24" Mixed Flow Direct Drive Fan and 12" Burner. A3-D.750-24D Direct Gas Fired Heated Make Up Air Unit with 24" Mixed Flow Direct Drive Fan and 18" Burner. A3-D.1000-24D Direct Gas Fired Heated Make Up Air Unit with 24" Mixed Flow Direct Drive Fan and 24" Burner. A3-D.500-25Z Direct Gas Fired Heated Make Up Air Unit with 25" Direct Drive Fan and 12" Burner. A3-D.750-25Z Direct Gas Fired Heated Make Up Air Unit with 25" Direct Drive Fan and 18" Burner. A3-D.1000-25Z Direct Gas Fired Heated Make Up Air Unit with 25" Direct Drive Fan and 24" Burner. A4-D.1000-920 Direct Gas Fired Heated Make Up Air Unit with 20" Blower and 24" Burner. A4-D.1500-920 Direct Gas Fired Heated Make Up Air Unit with 20" Blower and 30" Burner. A4-D.1000-28Z Direct Gas Fired Heated Make Up Air Unit with 28" Direct Drive Fan and 24" Burner. A4-D.1500-28Z Direct Gas Fired Heated Make Up Air Unit with 28" Direct Drive Fan and 30" Burner. A4-D.1000-30D Direct Gas Fired Heated Make Up Air Unit with 30" Mixed Flow Direct Drive Fan and 24" Burner. A4-D.1500-30D Direct Gas Fired Heated Make Up Air Unit with 30" Mixed Flow Direct Drive Fan and 30" Burner. A5-D.2000-925 Direct Gas Fired Heated Make Up Air Unit with 25" Blower and 48" Burner A5-D.2500-925 Direct Gas Fired Heated Make Up Air Unit with 25" Blower and 60" Burner A5-D.2000-36D Direct Gas Fired Heated Make Up Air Unit with 36" Mixed Flow Direct Drive Fan and 48" Burner A5-D.2500-36D Direct Gas Fired Heated Make Up Air Unit with 36" Mixed Flow Direct Drive Fan and 60" Burner
