

"Community is much more than belonging to something;
it's about doing something together that makes belonging matter."

~ Brian Solis

What do YOU think?

Author and spiritual teacher, Neale Donald Walsch said that the new spirituality will be understood and expressed in every facet of our lives. That is to say, that Politics is our spirituality demonstrated. Economics is our spirituality demonstrated. Education is our spirituality demonstrated. Relationships are our spirituality demonstrated.

When we become still and quiet, we can feel this sense of connection with a presence that permeates all things. Whether one refers to it as God, or Source, or Universal energy, we cannot deny that it calls us no matter where we are or what we are doing.

So, if we are being called to expand our way of being with ourselves, with each other, and with God, what might that look like?

This series of questions is intended to learn more about the people who choose to be a part of this community family. We know you could spend your time in other ways, at other communities, but you choose Unity of Bay City. With the information you provide in this survey, the vision is to expand and build upon what is working well, understand what isn't working well and perhaps is time to leave behind, and open new ways of offering an even richer experience.

Often, we learn about beautiful experiences from people who talk about them. Our wish is that the experience of being in this community family and enjoying all that it has to offer, will excite you to the point of sharing it with others. An active, involved and joyous community expressing love in a variety of ways out in the world.....what better way to demonstrate our spirituality!

Thank you for your time, energy and effort in this Unity of Bay City community!
