1 1 Discussing reparations is a very serious matter. Others got reparations before Black People, but
2 that was not fair, because blacks were hurt first, and much worse and much longer. 2 So, we discuss
3 AARS without disruption or retaliation, to learn about the truth from the beginning, to show crimes
4 and damages posing problems, to form a plan like AARS we validated with universal solutions.
5 3 We know reparations are way past long overdue, so everyone should confidently, constantly, and
6 demonstratively, demand AARS Global Black Reparations in all venues, until AARS is ratified.

7
8 4 God made Africa the birthplace of all of humanity, with very dark Black People as the original
9 people. 5 He also set resources in Africa to benefit all nations, and intelligence in Africans to lead
10 all peoples to prosper. 6 {{Learning the true history of different races will show contributions, from
11 various cultures around the world. Now, observe the great ancient African cultures to learn about
12 their efficient methods in math and technology, which led to forming and maintaining superior
13 African infrastructures we admire. Then try to learn the brilliant manner in which they governed
14 their affairs, and the significance of their impact on the advancement of their civilization, and most
15 other cultures around the world. Many studies do prove that Africa is the Cradle of Civilization}}.

16
17 7 Considering those facts and upon early European exploration they learned Africa had much better
18 weather, bathing and soothing oils, tasty spices, vast resources, and was a strong strategic place to
19 relocate. 8 They also learned, the great ancient African civilizations consisted of knowledge and
20 wisdom that was so powerful, that it provided diagrams for most of the wonders of the world, and
21 for the foundations for society as we know it today. 9 That led Europeans to invade, divide, and
22 conquer Africa; steal her resources; chain and enslave Black People; and diminish Africa's legacy.

23
24 10 {{The truth is that the Pope noticed that ► 7 European nations were fighting over African land,
25 her valuable substances, and billions of blacks to colonize; while in that process they murdered
26 hundreds of millions of Black People. So, he tried to stop the ► in fighting by suggesting to
27 partition Africa into 7 territories where resources flourished, so each nation could continue
28 benefiting from stealing her in ground assets, deviant sex all across the continent, and forced slave
29 labor}}. 11 {{They actually plotted Africa's demise for the beneficiaries of cruel and brutal crimes
30 of colonialism and slavery, including profiting from capturing human cargo, capitalizing African
31 properties and resources, and dominating, indoctrinating, and terrorizing Black People. That
32 ensued in Africa, all around the Diaspora, and all up and down the Trans-Atlantic-Slave-Trade
33 Route. These criminal acts still exist and are spreading in America and globally}}, 12 so, AARS
34 reparations will work to bestow justice and autonomy for blacks, and reconciliation with all others.

35
36 13 {{Therefore, when analyzing Black Reparations, we have to go all the way back to the
37 beginning, of the European Invasions in 332 BC. That is how we learn the main problem blacks
38 have today, is they lost their sovereignty, way back when the invasions began. When blacks were
39 sovereign, they had control of their own land and natural resources, governing their groups and
40 tribes of people, and local and national trade}}. 14 Now, a good reparations plan will be national
41 and global, like AARS, to restore all that has been taken and stolen out of Africa, and from Black
42 People. It will include mental therapy programs for ages and centuries of oppression, which planted

emotional trauma and psychological disorders. **15** So, AARS terms can impart modes for spiritual guidance as part of a plan to regain sovereignty and procure cerebral recovery, as a prerequisite for unity; monetary relief for loss of lives and resources; and land grants in America, Africa, and globally, to return or settle blacks back to land that was stolen from them, to amend the intrusions.

16 The Kwanzaa Reparations Project (**KRP**) is a reading task to start and elevate a peaceful political process for a public project to expedite all blacks winning AARS, and others accepting and binding with AARS. **KRP** is a vision to get all blacks and everyone else 18 and older to read and discuss all docs on their homepage. The process should produce a transforming procedure in the minds for all non-blacks, to stop thinking about and treating Black People so bad and cruel.

17 This is critical for blacks, because vestiges and beneficiaries of slavery, do cause others to mistreat blacks. The oppressors created a crash caste system to show and spread degrading images, malicious propaganda, and primitive stereotypes of Black People. That enabled them to enslave Black People, and it also influenced most others to abuse, deceive, and exploit Black People; extending massive damage. **18** Blacks need to and should promote the KRP all around the world, to get all others to start thinking about and treating all Black People fair and just. ♦

Perhaps we should specifically summarize AARS for clarification, to confirm AARS offers Global Black Reparations, and Worldwide Racial Reconciliation, to benefit all African-Americans, all Black People, and everyone else in America and on earth ♦.

19 Now, AARS offers redress for all 50 million blacks in America, and all 1.5 billion blacks globally. This is done with programs for a spiritual renewal for unity, generating wealth from seed funds (SF) for emergency relief, and by getting prime land for all three models of AARS reparations. **20** Model one, is to improve integration via racism dialogue and case studies. Model two, is to expand repatriation so they reconnect with their extended Global Black Family, learn their native names, languages, customs, and cultures; and draft a resolution for Black Nationalism, Global Black Unity, and Universal Racial Reconciliation. Model three, is the most important model to create sovereignty, for African-Americans and all Black People to demand their own land for liberation and independence. **21** Then most governments should grant blacks their own land, that can never be confiscated for eminent domain, or any other excuse that they ever devise. All Black People need their own land after enduring extensive and fatal atrocities to forgive and live in peace.

22 Three beautiful services of AARS are giving Black People time to recover and regroup personally and collectively, and seeking to grow spiritually. Blacks must learn to love and trust one another, to prosper in sovereignty, as they get control of their own land, cities, institutions, and lives. **23** So, all governments, and all others who benefitted and gained unjust enrichment, while causing severe psychological damage and acute emotional trauma, from colonialism, the middle passage, and slavery; **24** should agree to atone by offering a sincere apology, and binding with AARS to generate wealth for all Black People, to raise the Global Black Economic Foundation (the AARS Hedge Fund), and to initiate mutual respect and benefits for descendants of slaves, who are also the offspring of the most noble leaders and spiritual deities. **25** The KRP will also help to form better images of Africa and Black People, and improve race relations now and forever.

26 We know reparations means one group claiming redress, engaging a political process, or filing lawsuits for crimes inflicted by others, to get justice. 27 The U.S. Government was liable for minor damage done to others, so they were right to give them formal reparations, but they were wrong to give others reparations before Black People. 28 The U.S. Government and all the other guilty groups, are liable for major damage done to Africa and all Black People first, so blacks should have gotten reparations first. 29↓ Now, coping with Black People being denied reparations is an insult to their entire race, and it triggers Post Traumatic Slave Syndrome (PTSS), because blacks needed and should have received reparations right after slavery. 30 Since AARS was not ratified for June 19th of 2024, we should lift calls and demands for AARS in all venues until it is ratified!!

31 There are some pivotal reparations plans with good ideas to offer, but they all rely on lawsuits, reluctant sources, or some miracles to get reparations. That is highly unlikely and may never happen. * * *

32 **So, AARS is the only reparations plan that will enable Black People to generate their own reparations wealth**, from seed funds (SF) for the next four or five 50-year terms, to raise \$150T to fund what they have earned, deserve, and are entitled to, which is AARS.

33 **AARS also offers processes, programs, and services to regain control of their home and motherland Africa; or at least to get most of the wealth from her resources; reconnect with their Beautiful Culture and Global Black Family; repair all damages and injuries; solve all problems; recover most losses; and transform mentalities to attain and secure global unity, for collective safety, peace, and progress.** 34 Then we provide services for all Black People to make a choice to take advantage of the opportunity to get on the right path, to heal and self-actualize personally, and to uplift relations among their people at home and abroad, then with all other nations and races.

* * 35 No other plan even comes close to offering all these amenities, concessions, and requirements. So, we are calling on the Global Black Family and their allies, to engage in the KRP peaceful and political reading process on their free time, planned reserved times, and also to honor Kwanzaa at home and abroad. We circulate, read, and discuss all docs on the homepage, to learn all about AARS, before making our serious and constant national and global demands for AARS. That should inspire most reparations advocates, then the masses of Black People and their allies, to faithfully endorse and promote AARS, until it is ratified. 36 The KRP is a peaceful and political process which include a Black Plebiscite Vote (BPV) for all U.S. Blacks 18 and older in 2025-6, outlined in the next 3 paragraphs as another **power move**, like generating their own wealth.

37 The BPV indicates Black People are indigenous to this land called America, as distinct relatives of the Great Ancient Black African Olmecs, who were here first building civilizations, not Native Americans or Mesopotamian Mexicans. 38 So, everything Indians and Mexicans ever got for any kind of aid or help, especially in the name of sovereignty before Black People, should be turned over to the rightful recipients, Black People. 39 **Thus, all blacks deserve the rights and privileges of indigenous people, like land and emergency cash relief which will eventually come with AARS.** We have not won AARS yet because we have not utilized the KRP. With KRP participation and momentum, we gain land, other reparative measures, and the last part of AARS; which is a national

and international declaration and treaty, from all governments, militaries, and lobbying groups with power, of non-repetition of slavery, and for safety and equality for all Black People}}.

40 The BPV also gives U.S. Blacks a chance to finish the Civil Rights Movement (CRM), because they were forced to integrate. That is when blacks should have been awarded 40 acres and a mule they were promised, but never received right after slavery. 41 Since they were maliciously denied freedom, justice, equality, safety, and fair wages, before the CRM, and now they suffer from more covert operations sustaining oppression after the CRM via AIDS, Drugs, and Infiltrating Black Churches, that blacks should have demanded and gotten options to examine the three models of AARS reparations, right after the CRM. 42 The three models are (1) to improve integration, (2) to expand repatriation, and (3) to create sovereignty; then they use the PV to claim 1 of the 3 models for residence. 43 It was too early for Black People to integrate after the CRM; because the country was still in chaos from avid civil disobedient movements in bussing, freedom rides, protests, and sit-inns; then she erupted after Dr. King's assassination, which caused the CRM to end abruptly.

44 So, when U.S. Blacks 18 and older take their BPV, they will claim an injured and indigenous status by name, (Indigenous African-American, or Indigenous Black-American). We will officially seal a group status, to get emergency relief land grants of 40 areas of 40 square miles (40 mi²), of prime land; to build new, elite, and safe cities for calmness and comfort. 45 Now we propose Black People will use the BPV to officially claim a status, to officially claim AARS, and to officially choose 1 of the 3 AARS reparations models for residence. 46 {{Next, we explain the 3 reparations models as another **power move** like the PV. Blacks should learn they do not have keep living in integration, with violence, crime, corruption, and police terrorism; becoming common, wreaking havoc, and escalating out of control! So, they should make learning about the 3 models a priority}}.

47 (1) Improving Integration: The AAIU and their allies will form the AARS Congress as a Power Base to implement the AARS Global Black Reparations Plan. The AARS Congress will consist of leaders, residents, and conscious people **with a track record of helping Black People**; those who are knowledgeable of reparations; those with reparations ideas and plans; those from other reparations groups; those protesting social inequality, injustice, and police terrorism/killings; those giving input on AARS; and those who are clear, confident, and savvy on understanding and collaborating in advanced methods of spirituality, education, diplomacy, law, politics, and reform. 48 The AARS Congress will host a 5-Year National Dialogue on racism, corruption, and police terrorism/killings; and host 5-Year Case Studies on various businesses, entities, institutions, and systems in America; to improve their performance for, and interaction with Black People. Both programs will improve integration, and police and race relations much more than imaginable. {{So, AARS starts and sustains, justice and racial healing, for the U.S. to become a civil society}}.

* * * 49 {{All U.S. residents 18 and older should endorse AARS as reparations for blacks, and AARS racism dialogue and case studies to produce positive changes in all areas in society, because it will **benefit all Black People, and everyone else in America}}**. 50 AARS also provides financial services for blacks to use reparations most wisely, and not to squander them by themselves or with others. * * 51 That is key because **Black People should celebrate after AARS is ratified, but limit**

1 **their partying and rejoicing.** Blacks provided many vital contributions, while enduring racial
2 suppression and profiling others have avoided because of their race, **so blacks need reparations**
3 **ASAP.** * * * 52 So, we ask all churches and everyone else to shout long and loud for AARS.

4 53 (2) Expanding Repatriation: Repatriation is going **back to Africa, down south, or any other**
5 **place on earth** where Black People were colonized, enslaved, and/or exploited. We will get
6 leaders from a few worldwide groups like (Marcus Garvey's, Randall Robinson's, and the African
7 Women Leaders Network), on the AARS Congress to direct repatriation. They will get permission
8 from leaders in the places down south or overseas, where blacks choose to go to visit, or to live.
9 With AARS we exalt and simplify the repatriation process at home and abroad.

10 54 Blacks should learn the customs of their people in the places where they choose to go, to make
11 sure they do not offend their distant relatives on arrival, and to go with a sense of belonging and
12 gratitude. AARS offers **Global Black Family** Healing, Recovering, Reuniting, and **Transforming**
13 of the **Mentality Process**. They will also go with ample resources to build new, beautiful, elite, and
14 safe repatriated cities. By learning their native names, languages, customs, and culture; they
15 prepare for their **Global Black Family** and Culture **Restoration Process**. We emphasize AARS
16 will also provide services for all Black People to get **dual citizenship**, to enhance both processes.

17 55 (3) Creating Sovereignty: The most important model of reparations, because we ask African-
18 Americans and all Black People to develop a new line of thinking. To nurture the desire to leave
19 the restraints of others, to seek their own land at home and abroad for self-governing and self-
20 control. They will look out for their own best interest, by declaring and pursuing their own political
21 and ideological agenda and destiny. So, most then all blacks should leave the **shackles** of
22 integration, to get **control** over their lives in repatriation and sovereignty. Granting absolute power
23 and authority of a consenting people, to form their own governments, and to manage all activities,
24 businesses, entities, people, resources, and systems within their city limits. 56 Black People are
25 held down and controlled by others in integration, and that is their main problem. 57 So, blacks
26 need their own land to leave multiple problems and foul police in integration, and to provide basic
27 life needs like quality jobs, homes, and foods for their people themselves.

28 * * * 58 Blacks should also learn **sovereignty** is their **salvation** at home and abroad. It requires all
29 people to know that it is **their inherent right** to have their own land, **to govern themselves**. The
30 U.S. Government should grant U.S. blacks 40 areas, of 40 mi² of prime land, near traditional black
31 cities, symbolic to 40 acres and a mule, to build their own new, elite, and safe, repatriated and
32 sovereign cities, with the latest technology. * * * 59 AARS city planners designed facilities from
33 artistic views, for public and private places, in appreciative and flawless styles, to honor their
34 Amazing Classical African Civilizations, noted Freedom Fighters, and brave Political Prisoners.

35 * * * 60 AARS city plans also poses **building beautiful** infrastructures and homes, including
36 shopping malls, parks, schools, highways, roads; and successful associations, businesses,
37 companies, and global multinational conglomerate corporations; with excellent communication,
38 protection, traveling, and nutritional services. AARS city citizens will also produce products used

1 daily in America for local and national commerce, and produce products in great demand abroad,
2 for global trade and commerce. * * * **61** Many blacks have good and great ideas for businesses,
3 products, and projects. By claiming AARS they use the SEEG to generate wealth, to fund all
4 proposals Black People vision in their own cities, no more acquiescing, or begging. **62** So Black
5 People will **rise** like proud **producers** - Instead of Continuing to **Fall** like Injured **Consumers**

6
7 * * * **63 Generating Reparations Wealth:** This should be **the deciding factor** to get everyone 18
8 and older to endorse and promote AARS. Since AARS is a thorough, comprehensive, and complete
9 plan to repair, recover, heal, transform; and set black folks on the right path to good health, peace,
10 protection, and prosperity; it is a real blessing for them to be able to generate their own reparations
11 wealth via SF, to guarantee AARS reparations benefits for African-Americans and all Black
12 People, and to implement AARS without interference. **64** We ask everyone 18 and older to engage
13 in AARS Dialogue via the KRP, to stop conspiracies and corruption in reparations arena, and to
14 discuss and demand AARS. **65** Most Black People live in poor social conditions, so they need
15 monetary help first, then HBCUs, and Black Institutions to benefit the masses of Black People.

16 **66** In America the AAIU sources identified the U.S. Government, the other 27 guilty groups, all
17 rich blacks, and all others rich with compassion for blacks, as potential clients to engage SEEG
18 programs to generate wealth upon notice. **67** Now all the guilty governments and groups each owe
19 much more than \$20T, and more like \$30T up to \$50T each. So, another great benefit of AARS is
20 providing great debt relief for governments, and all the other guilty groups, by asking them to **note**
21 \$20B-\$50B cash as SF, to utilize the AARS Hedge Fund, and operating U.S. Black Banks, instead
22 of **paying** their \$30T-\$50T debt, which they each owe. * * **68** The greatest benefit of the wealth
23 generating programs is SF are blocked in clients accounts for the programs duration; from 10 days
24 to one year to maximize profits; then SF are unblocked afterwards, so, clients cannot lose their SF.
25 These programs are safe with multiple daily transactions, for big profit in little time with little risk.

26 **69** We go to all potential clients with programs to generate wealth for AARS, **70** instead of settling
27 for less, crying or forgetting about the past, or filing difficult lawsuits to win with U.S. courts
28 declining justice due to Standing, Statute of Limitations, and Sovereign Immunity. **71** Please shout
29 generating wealth expedites the process for all Black People to get immediate benefits at home
30 and abroad. **72** It is politically incorrect and socially unacceptable to continue to deny blacks
31 reparations, especially since they can generate their own reparations wealth now, and others got
32 restitution before them, which was totally wrong!! ↓ ↓ ↓ **73** {{We list harmful and major damages
33 of losing their home and mother land called Africa; their wealth; culture and family; and 600
34 million Black People killed due to racism; to demand all black folks get AARS, ASAP}}.

35 **74** We ask all rich blacks, and all others who are rich with compassion for blacks, to block \$100M-
36 \$5B, or block the cash in a new account at a major bank, then complete a compliance form to enter.
37 Rich blacks and the compassionate should work with their attorneys and bankers to verify these
38 programs are legit. Then they start the process to negotiate bank endorsed contracts, to aid AARS
39 earn a high profit in little time with little risk, and to sway and inspire all guilty groups to engage.

75 The AAIU and their Allies Now and Forever KRP Task has 4 Points; (1) To Ask all Black People and their Allies to Endorse and Promote AARS; (2) To Ask Many Potential Clients to Provide SF; (3) To Ask the U.S. Government to Ratify AARS, ASAP, or by Kwanzaa '25, so all the other guilty groups will agree to engage and sustain; (4) to award **all Black People AARS aid** at home and abroad, *as a Gift to the Global Black Family*. Since AARS was not ratified for 6-19-24, we must make it a point **to increase and intensify many more calls and demands for AARS**, until the U.S. Government, and all the other perpetrators, culprits, and guilty groups agree to ratify AARS.

76 GUIDELINES FOR PRODUCING A REPARATIONS PLAN

77 {{To clarify the reparations position we attest it is wrong for the AB 3121 group, or any group to declare Black People **should prove** lineage, their DNA, region, tribe, or **anything else** to qualify for reparations}}. 78 AARS serves rapid action with an ID process on page 16 of their Closing Summary; to guarantee African-Americans and all Black People receive reparations benefits.

79 Africa and all Black People have endured Aggression and Repression, and Pain and Suffering for more than 2000 years globally, and more than 500 years nationally. The result of the long eras of Mistreatment and Exploitation forced Africa and all Black People to become victims of harmful Spiritual Decline, large Wealth Disparities, and Dire Ethnic Social Barriers. 80 So, by assessing those 8 reasons, Africa, African-Americans, and all Black People need reparations to forgive and get quick relief, to repair all damages, recover most losses, recuperate, reconnect, and transform.

81 It is also wrong for the AB 3121 group, or any other group to have public meetings, prior to releasing findings to produce a reparations plan. They will not get scholarly input, they will only get emotional testimony, and that is only good for venting frustration regarding injuries of the past, which are concurrent with problems which must be solved today. 82 So, they will not receive specific info to produce a very good, strong, and structured reparations plan like AARS. 83 They obstruct justice and impose stress, just by asking blacks for proof, because all blacks require redress to make them whole, after experiencing acute anxiety, deep depression, and social barriers, from the 8 reasons stated in the prior paragraph. They caused a deadly impact to Africa and all Black People as victims of anger, aggression, slaughter, genocide, and crimes against humanity.

84 It is critical for most blacks to become **proactive** in the reparations movement **to contest** the current tone, because they are about to get played like a group of instruments with no intelligence.

* * * * * 85 The AAIU combined more than 40-years of in-depth research in order to produce AARS, so all blacks and everyone else 18 and older should want to read and discuss all docs on the homepage. AARS was written to get justice for blacks, and facilitate global reconciliation.

86 Upon reading the docs people will find many strong reasons to endorse AARS. Like gauging economic setbacks across entire continents and hemispheres, along with African wealth transfer for more than 2000 years, to make other nations and peoples rich and prosper, to determine a fair settlement is \$2M via 20 \$100K payments for **emergency relief** for all African-Americans and Black People in the U.S. who are 18 and older, and all Black Families abroad, **for the next 20 years**; because land, cities, and safety should be a top priority and met within the next 20 years.

* * * * * 87 {{The top goal for the victims should be to get spiritual guidance, an emergency

monetary settlement, and sovereign land via utilizing the KRP to demand AARS. In the process all blacks and their allies should make bold and constant calls to congress to demand AARS}}.

88 Therefore, Reparations Advocates should host AARS Dialogue to **expedite** the process for all Black People to get reparations, to **examine** the 3 AARS models of reparations, and to **prepare** all Black People to use reparations wisely. * * * * * 89 {{AARS is the best reparations plan by far because it has **3 models** to start immediate and simultaneous action for justice, to (1) improve integration, (2) expand repatriation, and (3) create sovereignty. Now another priority and a significant fact is they will generate their own reparations wealth from SF. Profits are negotiated, ideally 25% to clients, 65% for AARS, and 10% for fees. That should encourage the U.S. Government and all the other guilty groups to engage quickly, from caring incentives such as atonement, great debt relief, and sharing profits for reconciliation}}.

90 It is a blessing to know **money** was given to help, but it was **embezzled**, so everyone who wants to help should engage in the wealth generating programs, for a safe profit and reconciling. If the U.S. Government and the Vatican secretly slated \$14T for reparations, that is not nearly enough, but it is okay because we can easily generate \$150T a few times from those and other SF, to fund AARS. 91 Wealth generating programs are secured by system banks, credit facilities, and officers, so SF yield rapid, high, and safe profits with very little risk. AARS will serve relief, redress, justice, and satisfaction for all Black People; and all other nations and races who endorse AARS.

* * * 92 With AARS Black People learn to **transform their thinking** to improve self, to strive for global unity, and to know they are **inherently entitled** to their own land, to govern themselves and to build their own new, elite, and safe cities. 93 They demand to stop being owned and controlled by others, haters, puppets, and old laws; * * * * * 93 in order to attain what they truly need most; a new spiritually led mindset, land, and wealth; for self-rule and self-governing. They will finally become their own educators, employers, and providers for housing, health care, and military police to keep their cities and citizens safe. * * * * * 94 AARS will solve a myriad of lethal and lingering problems to establish group safety and autonomy to last forever. 95 Blacks have resisted encroachment and violence for ages, and they are still victims of transgression, so they need a break from hostilities, which are rising in integration. 96 So, AARS prioritizes restoring and renovating traditional and historical all-black towns and settlements. and locating and engineering prime fertile land in clean environments to build new, beautiful, elite, and safe repatriated and sovereign cities, at home and abroad. That should occur in all places where Black People were abused, colonized, enslaved, exploited, or victimized; by racist intrusions, policies, and practices.

97 Racism and oppression have wrecked the balance of a level playing field in society for image, status, and in the arrangement of human relations and expectations for all Black People. They are said to have a strike against them just by being born black. 98 So, all blacks should stop teaching their children that life is fair in America, and teach them the truth. Their parents should teach their children that if they get a higher education, it will give them a better chance to get a higher paying job, to offset racism and live good. 99 So, let us admit we live in ***cycles of fear and anxiety*** at home and abroad, because racism is the dominant force in all societies around the world. Therefore, Black People should learn all about racism and oppression. Dr. Frances Cress Welsing defines and

explains racism/white supremacy in her book called the Isis Papers. It should be required to read before writing a reparations plan. A few others are How Europe Underdeveloped Africa by Walter Rodney, the Destruction of Black Civilization by Chancellor Williams, the Pale White Horse by White scholars, and the Secret Relationship between Blacks and Jews by Jewish scholars; and the 17 set VHS series called "Eyes on the Prize" to see why blacks need sovereignty and independence.

END OF GUIDELINES

Dr. Welsing said, "Black People were brought here for *slavery*, and now they are just here for *wars, labor, taxes, and entertainment*". I say, "*they are misused and do not get any justice and definitely not in the courts.* 100 They suffered severely and extensively as a group, 101 so they should get reparations abundantly and fully as a group. 102 Anyone trying to limit or deny any black person reparations aid is leading criminal activity, and must be *prosecuted* to the fullest extent of the law.

103 Black People suffer from major problems, which had and have a wide range of fatalities on their entire race, like the Red Summer, FBI's Cointelpro, and the U.S. Draft. They are noted in a list of 30 reasons for blacks to claim reparations in the U.S. on our AARS Closing Summary.

* * * 104 Everyone 18 and older should read those 30 reasons, then decide if they will endorse and promote AARS. 105 {{The U.S. was in an uproar before, during, and after the Civil Rights Movement (CRM). So, President Lyndon B. Johnson called for the Kerner Commission Report, after Dr. King's assassination; to study why blacks lived in such poor conditions; what could be done to improve those living conditions; and how blacks embraced unity and organized to propel the CRM, but the government concealed the report}}. ↓↓↓↓ 106 Then they **infiltrated** Black Churches to stop Black Preachers and Black People from calling for more CRM, to demand justice.

107 The report offered proposals which would have provided national sweeping reforms, to have a positive impact, and improve those living conditions for African-Americans and all Black People in the U.S. Now a good reparations plan should be national and global like AARS, with programs for spiritual guidance to improve self and formulate national and global unity, and programs for safety and progress; along with land, cash, and social mobility via repatriation and sovereignty as stated herein. ↓↓↓↓ 108 {{Regrettably, agent provocateurs, the boule, sambos, sellouts, and uncle toms are taught and paid to prevent Black People from attaining full recovery plans, and sadly they are in the reparations arena. They also try to discredit and discourage other reparations activists}}.

109 All government groups work from the H.R. 40 position, which is limited to otiose studies and creating restricted proposals, instead of just comparing and choosing one reparations plan, which should be the limit and range of government involvement. 110 AARS is a complete and viable reparations plan that provides clarity, and reduces conflict confusion and dissention in the ranks.

111 It also stops preconceived notions for collaborated corruption to pay for more otiose studies.

112 AARS sanctions programs for spiritual guidance, generating wealth, acquiring land, owning and managing all businesses, and facilitating worldwide reconciliation. Please engage in the KRP.
