

AARS Part II

The African-American Reparations/Sovereignty (AARS) Business Plan

**Presented by the African-American
Independent Union (AAIU) and the Sports
Entertainment & Education Group (SEEG)
550 W. Regent St. Inglewood, CA 90301**

**AARS is Fairness Justice & Satisfaction for Blacks
and Racial Reconciliation with all Nations & Races**

America's debt to Blacks is to acknowledge they were severely damaged by slavery, and segregation, and that racism and harassment persist in society, so they need a good comprehensive reparations plan, and ample funds to repair that damage. Now the lingering effects of a supremacist mentality harms them in all institutions, areas of life, and mainly with the police. That is systematic racism which has hurt blacks for generations, so they need immediate relief and a long-term strategy for protection and growth.

This AARS plan reveals a way to stop the police and supremacist from killing innocent and unarmed blacks. It reveals a way to generate \$62 Trillion for collective and individual compensation, plus \$5 Trillion for disaster emergencies and unexpected cost to build elite safe cities, that display the beauty and splendor of noble African cultures, and honors their great Freedom Fighters of the past like Mandela, Fannie Lou Hamer, and A. Phillip Randolph. It leads to creating programs for any deficiencies, faults, or vices, like depression, foul language, inebriation, or Post Traumatic Slave Syndrome (PTSS); along with services for blacks who don't have these problems and are stable, to remain stable and to set goals.

We will also conduct 5-year AARS Congressional case studies to improve interaction with and performance of companies, systems, and institutions which African-Americans depend on for learning, working, and survival throughout our nation in integration. It reveals a way to expose hidden and mental barriers creating and sustaining divisions among blacks, so they can overcome those impositions to truly become a united people in America, Africa, and globally. And it also reveals a way to initiate genuine and lasting racial reconciliation with all other peoples and races at home and abroad. We can initiate all these programs and services by utilizing the AARS Truth and Reconciliation Process (T&R Process).

There may be 75-100 groups organized and/or pushing for African-American Reparations. We hope and pray we can bring them all together as leaders with this AARS plan, to provide leadership we need to carry out the working parts of the AARS plan, through the AARS Congress. And all AARS Congress members will be offered a very generous contract for their services. The AARS Congress will consist of activists, politicians, and people with a track record of helping blacks. We have many groups hosting many programs to help the Black Family. We hope to consolidate all their efforts with the AARS plan.

This is the first step in moving towards reuniting and planning on having a brighter future of peace and prosperity in repatriated and sovereign cities for peace and collective progress. It is important to have a military presence at our cities because history proves through places like Greenwood, Rosewood, and Atlanta in 1906, that there may be some racial resistance that may grow without a military presence. A military presence will quickly dissolve the resistance, so we can live in a civil society in America. Many people have said for many years that blacks have the resources to build their own repatriated and sovereign cities to provide, protect, and look out for the best interest of their people, nationally and globally. Now is the perfect time to put AARS in motion for these reasons. If other reparations plans do not include these amenities, concessions, programs, and services; we should endorse this AARS plan.

The Company

The AAIU is a 40-year-old research and intelligence group, composed of scholars and activists of many different races, looking out for the best interest of blacks, who are victims of historical oppression, and crimes against humanity. They are a spiritual and political group. The SEEG is a special group of athletes, educators, entertainers, rich people, and spiritual leaders. We asked them to consider forming a special advisory board for leadership and guidance, to raise the level of consciousness and spirituality in America, by asking everyone to study some form of religion, to talk to and to treat each other with respect, and to reduce then refrain from using foul language in public, mass communications, and in recordings. They can provide charitable, for-profit, or refundable seed funding. This is a spiritual and business group.

The Ownership

The company is structured as a sole proprietorship, but there are many allies to help form the AARS Congress. They will work to produce viable solutions for lingering problems. They will produce solutions during honest AAIU Racism Dialogue. We should inform culprits of racism, invasions, colonialism, slavery; and vile reconstruction, segregation, and integration; with reflections in their system to maintain control; that they are liable. Consequently, only reparations can repair damage from those epic assaults, which bestowed inequality inciting national protest, which ignited the Civil Rights Movement (CRM).

The Management

The company is structured like a school so we can educate America on Black History, to show their valuable creations, (withheld slave wages and crop profits), and patriotic sacrifices, to show how much they contributed to making America the world leader. In this process we also have to show how badly racism and slavery's legacy has harmed them, and still causes problems, to reveal AARS as the solution.

The Goals and Objectives

The goal is to repair damage from deadly European invasions and colonialism in Africa, and throughout the Diaspora, and lethal U.S. racism, slavery, lynching, reconstruction, segregation, and integration. This should be done on a collective basis through the three models of reparations, and an individual monetary settlement. The three models of reparations are Improving Integration, Expanding Repatriation, and Creating Sovereignty. In AARS we also provide direct emergency individual relief funding next year.

THE COMPUTATION FOR THE REPARATIONS DEBT IS ON PART IV - THE AARS REVISED PLAN FROM ERJ TO DFR - THE DEBT IS SO HIGH AND THE EQUATION IS SO LONG - UNTIL WE LEFT SOME INFO OUT WHICH WE TOOK FOR GRANTED THAT EVERYONE KNEW - (NOW WE ARE GOING TO ADD SOME INFO FOR CLARITY - AND FOR THOSE WHO OPPOSE REPARATIONS) - IN A COMPROMISE WE PRESENT THE COMPUTATION WITH MORE EFFICIENT AND EXPLANATORY TERMINOLOGIES FOR CLARITY - AND TO HELP OPPOSERS UNDERSTAND THE NEED TO REPAIR DAMAGE.

The AARS Product

The primary function of the company is three-fold. We will build safe cities, provide healing, recovery, and transforming services, to help blacks heal, recover, and transform mentally, and most importantly to improve police and race relations. This position is mainly for blacks who are less fortunate, gang related, poorly educated, mentally ill, declining physically, coming out of jail, having visions of •Africans jumping and being thrown overboard of slave ships! • or huge intoxicated crowds gathered to cheer a violent lynching! This *social* and *psychological oppression* stems from deeply rooted racism, so the people need Black Unity, White and Jewish Truth and Reconciliation, and Calm Emotional Therapy.

The Target Market

The target market is blacks in America, Africa, and every other place where blacks were enslaved or exploited. Many people want to blame blacks for the poor condition they are in, but the fact of the matter is many people and many groups are responsible for in depth and long-lasting damage. (1) Some offered apologies, which should come with a monetary settlement, while (2) others with compassion committed to economic development. Both should come in the form of seed funds (5B), for the SEEG source to generate wealth for reparations immediately. We will illustrate a path including photos of slavery, lynching, beatings, corporations which owe restitution, the enormous adverse effects of the Willie Lynch Letter, Presidents Bush Sr. and Jr., the Rothchild's, and the Pope, to validate **the reparations debt.**

American Slavery and U.S. State Sponsored Segregation Imposed and Extended Massive Damage causing Emotional and Social Problems for Descendants of Slaves who need Healing & Repairing

In their own words, black men and women remember slavery. They put a face on an institution often objectified and dismissed as ancient history. "These Americans make the connection between the past, present, and future in "Remembering Slavery": "African-Americans Talk about Their Personal Experiences of Slavery and Emancipation." An audiotope set with a companion book is now available in book stores. This is not Black History. This is U.S. History. The Emancipation Proclamation freed enslaved black men, women, and children only 156 years ago, in January of 1863, but they did not get the news in Texas until two years later on June 19th in 1865. That is why we celebrate Juneteenth on June 19th all across America. In the 1930s and 40s workers from the Federal Writers' Project interviewed thousands of former slaves, and preserved their recollections of bondage and misery, the Civil War, and finally hopeful yet elusive freedom via Emancipation.

These elderly men and women, some of them centenarians recall childhoods on the plantations, of the brutality and devastation of the old masters, unbearable conditions working in the fields, feeding the stock, hunting for food, then cooking and preparing meals they couldn't eat; the unwarranted whippings, and other punishments, family members sold away without even a goodbye, never to be seen again, and leaving with nothing. Some even remember the Yankees in blue uniforms and "the Colored Troops".

The Faces and Facts of Slavery

**Fountain Hughes, Age 101
Circa 1952**

**Sara Gudger, Age Unknown
Former Slave, Burke County, NC**

George Washington owned slaves and he was not the only U.S. President who did, in contradiction to the freedoms for which the colonists fought to defend. There were even some of the former presidents who owned slaves, and had babies with our black women, so how could they treat our people so badly!

"My grandfather belonged to Thomas Jefferson." **Fountain Hughes** told an interviewer in 1949. He was 101 years old. "Wasn't no schools. When they started the little school, people that were slaves couldn't many of them go to school 'cept they had a father and a mother. My father was dead. My mother was living and she had three or four other little children. She had to put them all to work to help take care of the others. We didn't have no property. We didn't have no home being slaves all our lives. My father was a slave, my mother was a slave, my brother was a slave, and my sisters were slaves.

This dramatic documentation is newly accessible in remastered audio recordings and transcripts from the Works Progress Administration Arts Project. The recording was used in a recently broadcasted public radio documentary for Smithsonian Productions, giving intimacy to a history that many Americans would rather forget. Our country's history of slavery is available for those willing to look, listen, and learn; on the movie screen in Oprah Winfrey's "Beloved" and in Alex Haley's Roots, on CD. In the just completed PBS four-part documentary Africans in America: "America's Journey Through Slavery." A companion book to the PBS series, traces the saga through the eyes of slaves and enslavers, from the first arrival of Africans in 1517 in large groups, chained like animals, on awful smelling multi-level cargo slave ships.

Why remember slavery? It happened so long ago. No living American was either slave or slave owner, yet it will never be forgotten and never should be!! This bitter period of our history holds answers and insights to an on-going dilemma: America's unfinished business on African-American race relations which requires Black Reparations to facilitate positive relations between the races.

A VIEW AND SPIRITUAL CALL FOR AFRICAN-AMERICAN REPARATIONS NOW

17 Corporations Owe Restitution

This is a list of major corporations who are known to have benefitted from slavery. The T&R process will host an Amnesty Commission giving various corporations, governments, and other entities, whom profited from slavery and/or exploiting Africans in Africa, America, and globally an easy way to identify revenues of unjust enrichment, so that Blacks, Whites, and Jews can negotiate what they consider as fair compensation. Better yet guilty parties should set 5B aside for seed funds to raise the AARS \$67 Trillion.

CORPORATE RESTITUTION FOR BLACK SLAVERY (Plaintiff and Defendant Information)

This compilation comprises materials on landmark class action lawsuits brought on behalf of 3.5 million descendants of enslaved Africans for slavery reparations. Plaintiffs in six different states (New York, New Jersey, Illinois, California, Louisiana, and Texas) filed the actions against a total of seventeen (17) defendant corporations who are known to have benefitted and profited from slavery, including the transatlantic slave trade. The cases have been consolidated in the U.S. District Court, Northern District of Illinois, Eastern Division before Judge Charles R. Norgle.

The Willie Lynch Letter Caused and Maintains Deep Divisions among Blacks and Critical Linger Psychological Damage - which also Requires Therapy

In making a Proposition to Offer a Method to Control the Slaves' Mentality We see the Perpetuation of the Age-Old Divide and Conquer Strategy

From Southern California Activists

SPEECH BY WILLIE LYNCH IN 1712

This Speech was Delivered by the Infamous British Slave Owner Willie Lynch on the Bank of the James River in the Colony of Virginia in 1712.

Lynch was a Slave Owner in the West Indies as Others Steered Trans-Atlantic & Slavery in America

Gentlemen:

I greet you here on the bank of the James River in the year of our lord one thousand seven hundred and twelve. First, I shall thank you, the gentlemen of the colony of Virginia for bringing me here. I am here to help you solve some of your problems with your slaves. Your invitation reached me on my modest plantation in the West Indies, where I have experimented with some of the newest and still the oldest methods for the control of the slaves' mentality. Ancient Rome would envy us if my programs were implemented back when they ruled. As our boat sailed south on the James River, named for our illustrious King, whose version of the bible we cherish, that they did modify to benefit whites. **Therefore, blacks should study real and relevant black theology, to learn how to use the bible for liberation purposes.**

While Rome used chords of wood crosses for standing human bodies along its old highways in great numbers, you are here using the tree and the rope on too many occasions. I caught the whiff of a dead slave hanging from a tree a couple of miles back, (Lynched in 1712). You are not only losing valuable stock by hangings, you are having uprisings, slaves are running away, your crops are sometimes left in the fields too long for maximum profit, you suffer occasional fires, and your animals are killed too often. So, gentlemen you know what your problems are; I do not need to elaborate, I am not here to enumerate your problems, I am here to introduce you to a method of solving your problem's.

In my bag here, I have a foolproof method for controlling the slaves' mentality. I guarantee each of you, that if instilled correctly; it will control your black slaves for at least 300 years. My method is simple and any member of your family, or any master, or any overseer should apply constantly and rigorously.

I have outlined a number of differences among the slaves, and I take these differences and make them bigger. I use fear, distrust, and envy for control purposes. These methods have worked on my modest

plantation in the West Indies for decades, and it will work throughout the South for centuries.

That is why African-Americans need repatriated land in the south. Take this little list of differences, and think about them. On the top of the list is “Age”, but it is there only because it starts with the letter “A”, the second is “Color” or “Shade”, there is intelligence, size, sexual abuse of men, women, and children, size of plantation, status on plantation, displaying a dominant attitude as masters, whether the slaves live in the valley, on a hill, East, West, North, or South, have fine or coarse hair, or are tall or short. Now that you have a list of differences, I shall give you an outline of action, but before that I shall assure you that distrust is stronger than trust, and envy is stronger than adulation, respect, or admiration.

The Black Slave after receiving this indoctrination shall carry on and will become self-refueling, and pose racial decline for hundreds of years. Don’t forget, you must pitch the old black vs. the young black. You must use the dark skin slaves vs. the light skin slaves. You must use the female vs. the male. **You must also have all your white servants, overseers, and masters distrust all blacks. But it is necessary that your slaves trust and depend only on us. They must love, respect, and trust only us.**

Gentlemen, these kits are your keys to control, use them, have your wives and children use them, never miss an opportunity. **My plan is guaranteed, and the good thing about this plan is that if used intensely for one year, the slaves themselves will remain perpetually distrustful.** {There is a lot of work to do to dissolve the slave mentality, which is part of the repair process in black reparations}.

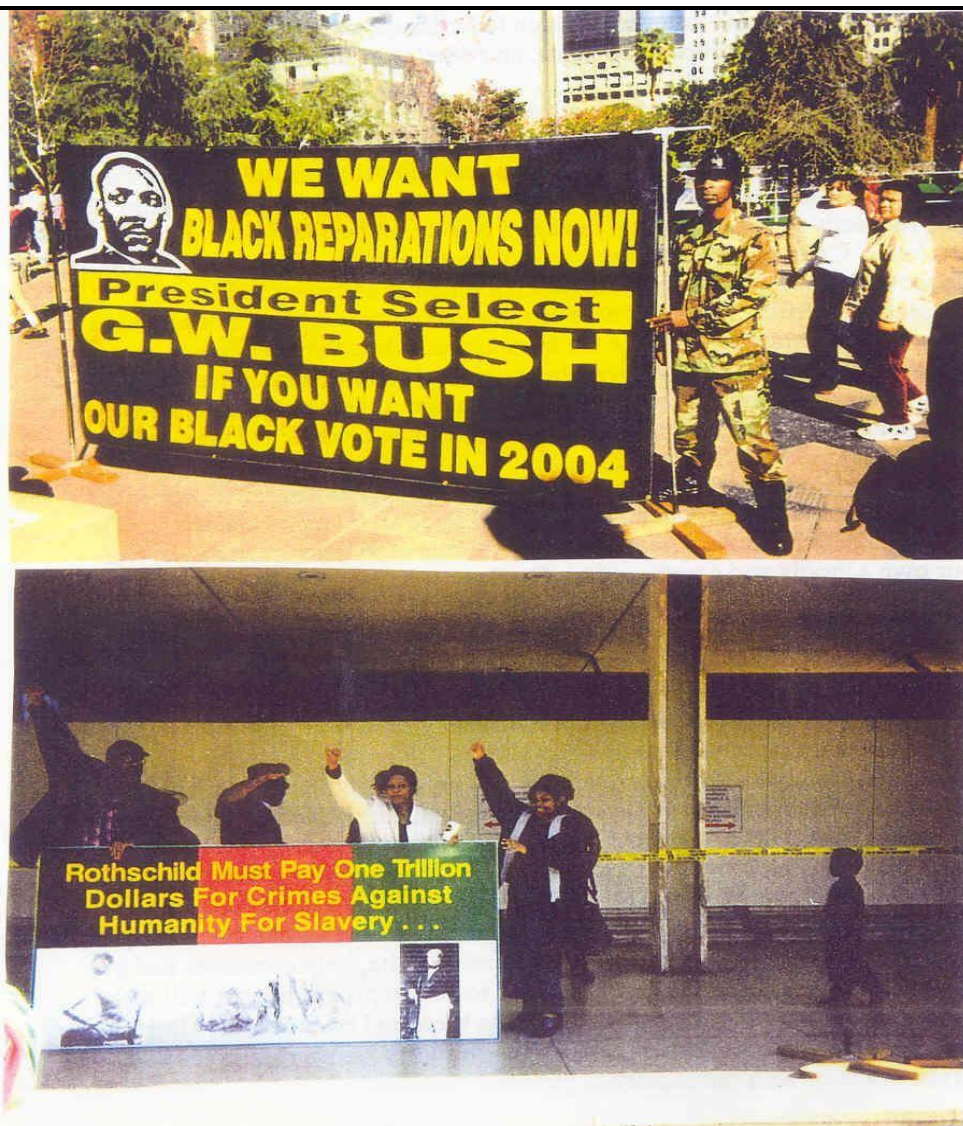

The Bush’s and the Rothschild’s

It is good for the government to consider providing reparations for blacks. They’re long overdue and greatly needed. The key for blacks to win and control their reparations is organizing most blacks in America to utilize the AARS plan, to carry out national boycotting against entities who enslaved or exploited blacks, and selective buying for companies who are fair to blacks. That will force America to talk to blacks about inequality, and reparations focusing on sovereignty. This will reduce and eventually eliminate police terrorism, discrimination, and institutional racism. We will conduct similar activities in all businesses and areas of society, primarily with action towards the three branches of government.

Bush Sr. had a large hand in drugs coming into inner-cities in America, by abusing his power as president. The documented evidence of blacks losing lives, properties, monies, and their minds is unbelievable! That caused a void in an entire generation of personal growth, family possessions, and responsibilities. Bush Jr. also used unethical tactics to steal both elections, and acquired more wealth in the oil business, by abusing his power as president, while we paid unbelievably high gas prices all across the country. The pain and suffering this caused to African-Americans and black communities will never be forgotten!!

And it is public knowledge that the Rothschild’s had a large hand in the Slave Trade for hundreds of years!!! So, the Bush’s, Rothchild’s and all other guilty parties of enslaving and/or exploiting blacks, would show a soothing comforting gesture, and a sign of goodwill in humanity, if they would accept their duty to repair victims of their previous transgressions, by setting 5B aside for AARS via the SEEG source, or face lawsuits and boycotts for 5 years.

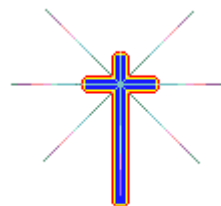

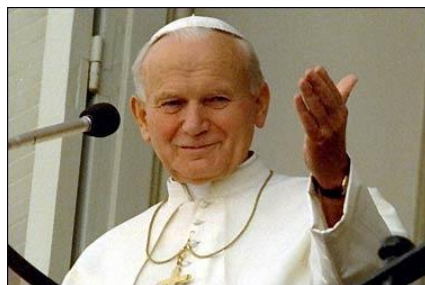

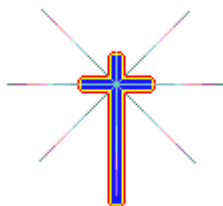

Therefore, the masses can work beside the AAIU with the AARS Congress to have effective boycotting, and rewarding selective buying programming. We have the **collective power** to enrich companies that treat blacks fair, while simultaneously hurting companies who have benefitted from slavery, and refuse to treat blacks fair, with **national action**. But we need direction from the AARS Congress, to unite the Black Family in America, to conduct effective boycotts because of poor conditions and broken promises.

The Church and the Pope's Role in Slavery **by Mr. Peoples**

A Compton community activist who brought attention to the Black Holocaust by driving the model of a slave ship around the Los Angeles County for nearly 40 years. He filed a lawsuit against the church for their role in the Slave Trade, that was, but should not have been dismissed. We thank the World Council of Churches (WCC) for telling Europe to pay reparations to African nations for their role in and profiting from the Slave Trade. **They should provide seed funding 5B, to generate wealth to rebuild Africa!!!!** We thank the Pope for having the courage to admit that the church should apologize to Africans all over the world, for their role in the slave trade. Hopefully other entities will admit their role as well, and own up to their part, so that they can contribute by utilizing the SEEG source for the AARS plan.

The Pope Asks Africans to Forgive the Christians Who were Involved in the Trans-Atlantic Slave Trade

“Pope John Paul II recently journeyed along the same route that hundreds of millions of Africans passed along, on a voyage to foreign lands as slaves for 300 years, to Barbados, Curacao, and Suriname; as for 400 years to America. We are seeking compensation for the last 500 years of damage, which includes viruses manifesting today. The pontiff begged forgiveness for Christians involved in the Slave Trade. How can one forget the enormous suffering inflicted, ignoring the most fundamental rights of man, on those deported from the African continent?” From this African sanctuary of Black pain, we begged the pardon from above.” The Pope made the comments during a visit to Goree Island, which is a 20-minute boat ride from a French naval base in the capital of Dakar in West African Senegal. Gorée Island engaged from the late 15th to the early 19th century, it was the largest slave-trading center on the African coast.

Calling the passage, a “door of no return, the pontiff toured cells of the “house of slaves” where at least 600,000 Africans passed through during an extended period ending in the early 19th century. He likened the house where people were held awaiting slave ships, to this century’s concentration camps, the “Maison des Enclaves”, which has been restored as a museum to document the horror. In a meeting with Muslim leaders, he appealed for an end to modern-day slavery, citing organized prostitution, and stressed the need for cooperation and equal treatment for Christian minorities, who he said are discriminated against in many countries. The Pope’s week-long pilgrimage was aimed at strengthening the role of the Roman Catholic Church in the heavily populated Muslim countries of Senegal, Gambia, and Guinea.

Pricing Strategy

The pricing approach of the company is to hire the Army Corps of Engineers and Black Unions to build elite safe cities; and to train our youth to build and maintain more cities; and the military to build small strong bases at our cities, train our youth to become the military police for our cities; and for experienced professionals to provide clinical, emotional, rehabilitative, social, therapeutical, and financial services.

The Competitors

There are no competitors. We are simply using the AARS plan to unite most reparations activists and groups, to provide leadership to implement the moving parts we developed, and will create through the AARS Congress to help repair, transform, rebuild, and protect blacks for racial stability and uplifting.

The Company

Business Sector

The owner and partners would like to start a business in the following industries:

Spirituality Economics Education and Infrastructure:

It is important to note reparations mean three fundamental points to repair the Black Family. (1) To ask all blacks to make and keep God first in their lives. (2) To ask all non-blacks to stop hurting, and to start treating all blacks fair. (3) To ask most blacks to prepare for sovereignty by working towards top mental and physical health starting on 11-1-21, so they are prepared to receive reparations on 12-1-22. That will position them to utilize AARS programs and services most effectively, to repair the damage.

Company History

The AAIU has held conferences and meetings at various venues including Mt. Tabor Baptist Church and the Afiba Center in LA, at Mt. Saini Baptist Church in North Carolina, and at UCLA in Westwood. Now you can schedule a time with Brotha Pruitt to do a 30 min or 1 hour radio or internet program to discuss details of AARS, and to push for AARS reparations. We always welcome people of all races, and insist that they share info to identify problems created by racism, along with practical sustainable solutions.

Ownership Background - Brotha Pruitt (owner):

As a retired pro basketball player, black historian, social scientist, and navy supporter, I have a wide range of knowledge to produce programs to heal and repair blacks, and to improve all racial and police relations. Dissolving racism and improving police relations is the change that will make America a much better place. We look to apply and implement the AARS Plan to take us in that direction.

Company Management Structure

The Company is structured so that many activists, advertisers, groups, people, and politicians pushing for reparations can work beside them to form the AARS Congress, to direct reparations programs, conduct national boycotts against racist companies, and use selective buying to enrich companies whom show compassion to African-Americans, and whom respect and treat blacks fair, as they should.

Organizational Timeline

The AARS Plan will unfold in five-year and fifty-year programs and services. This is the amount of time it will take to build elite safe repatriated and sovereign cities, and provide healing and recovery services to transform their slave mentality. Blacks should prepare themselves for reparations now by self-assessment for self-actualization, to get in top mental and physical shape, to become the best person possible in preparation to receive reparations, and to move towards self-esteem, and unconditional love and unity for and among all blacks minus the sell outs.

Company Assets

The company assets are irrelevant because we identified a funding source to generate \$67 Trillion for reparations. The source needs seed funding from people who can pass a background and compliance process including filling out 20-30 pages, which are scrutinized, after opening a new 500M, 1B, 2B, or (5B) cash account at a major bank. We are asking super attorney Willie Gary and financial wizard Warren Buffet for diligence. We will also ask them to be 2 of the 3 signatories required on the AARS Account to stop all attempts in any illegalities, unethical practices, or mismanaging funds. The 3rd person is also a person everyone can trust. The SEEG can have funds ready next year, and take 5 years and 50 5B clients to generate the total \$67 Trillion. That was an Equity Restorative Justice (ERJ) settlement. New appalling facts forced us to revise from ERJ to Demand Full Redress (DFR), of \$200 Trillion, which includes an individual emergency relief payout of \$2 Million for all blacks in the U.S. on 12-1-22.

Product Patents

The company owns the rights to the African-American Reparations/Sovereignty (AARS) Plan. It is the AARS Promotional Page, and AARS's Parts I, II, III, and IV. The complete and comprehensive Revised AARS Plan from ERJ to DFR is Part IV.

Future Products

The programs and services we provide will be unlimited. We have many programs now to help repair major damage inflicted over the last 500 years. However, it is going to take many more programs to repair all the emotional, family, financial, and social problems, which we identified. We provide many and various programs, to repair blacks back to their spiritual, peaceful, safe, and productive status they were in, prior to slavery.

Marketing Plan

Established Customers

The customers of our company are easily noticed by the beautiful complexions and tones of the light and dark colors of their skin. We are pressing for blacks to get reparations and to learn to produce all products required, needed, and desired for good living in two reparations models; instead of getting reparations and spending it with others. The money should stay within the Black Family. Blacks should build cities

and all infrastructure; produce food; design homes, cars, and clothes; provide light, water and power; and produce appliances (like TVs), electrical devices (like motors), and electronic devices (like computers). We should get reparations and become producers of all products to keep the money in our family. Just as important is we are pressing for blacks to do like Malcolm X said, “Some Serious House Cleaning”.

Budget

The financial strategy of the company is to utilize the SEEG funding source to raise the \$67 Trillion, and for the AAIU, allies, and politicians to create the AARS Congress, who will identify problems with 5year case studies on all companies, systems, and institutions affecting blacks in America. This should be in operations to create and identify sound and viable solutions including mental wellness programs.

Advertising

Many people have debated reparations for blacks in America many times since slavery. The fact of that matter is blacks never should have been forcefully taken from Africa for slavery, financial, and deviant reasons, which in the process destroyed their country, culture, race status, and emotional stability. So, blacks should have received reparations right after slavery. However, more problems always arise during the debates because the debt is so high, and they lack proper guidance. The talks usually end prematurely, are intentionally misled, or have people hosting the debates, who are not knowledgeable of reparations as it relates to black suffrage, and they want to diminish the range and depths of damage blacks endured. So, they are not qualified, and they minimize the harm and trauma of unjustified killings, to the souls of black folks. They neglect bad social conditions of victims of racism, who have been crying out for help since emancipation, and who are descendants of slaves. Thus, African-Americans need reparations now to repair generations of damage, and to build trust to improve police and race relations. The advertising will consist of ad campaigns, broadcasting, emails, major newspapers, pod cast, and social media outlets.

AARS Congress Analysis

Staffing and Operations

The AARS Congress will consist of 200 activists, from reparations groups, politicians, and scholars with a track record of helping blacks. We will engage people from certain entities, institutions, and systems, like housing, education, employment, and health care, which we know need improvement, to join the AARS Congress. We should create this group because there are no credentials, rules, or regulations for a reparation’s business or company. **We need those with knowledge of reparations, those who are protesting, and those who are working in groups to endorse or produce a reparations plan, to consider helping us to form, and joining the AARS Congress to implement the AARS Plan.**

The AARS Congress will facilitate reparations by creating and offering 5-year programs based on findings from 5-year studies, on entities listed above, and the following list of areas to examine. We also realize there will be a great need for many more programs after providing those for the same ideals and

rights, which we fought for, but failed to gain back in the Civil Rights Movement. Then we produce programs in the areas of spiritual growth, conflict resolution, cultural recovery, and social and economic parity, which are reparations amenities. We will create and implement action programs to strive for black pride and unity, an end to black-on-black crime, and to work towards racial harmony with all others.

All the aggression and turmoil in society has **most** blacks living in dismay with a poor mental psyche. We should admit racism and lingering effects of slavery have had a major negative impact on **most** blacks, who live at, and below the poverty line. **Most** blacks are poor folks experiencing a cycle of racial deprivation perpetuating psychological and social oppression. Reparations should go to poor blacks first, then rich blacks may use their reparations, or cash reserves to help poor blacks, with the SEEG source.

Racism is still without question the most dominant and powerful social force in America. It determines where we are born, how we are raised, how we are treated, where we worship, where we go to school, where we work, where we play, and where we are buried. This overwhelming negative social phenomenon called racism has caused damage for more than 500-2000 years, and will not change without 5-year case studies on all the companies, institutions, systems, and entities, which provide the programs and services, which blacks need to grow up healthy, proficiently, and safe in integration.

I will have a top Black and White law enforcement official on the AARS Congress. I will direct them on programs to optimize to stop rampant police killings, and to improve police and race relations. We will also have a person or group in the AARS Congress representing the best interest of Africans abroad, to get their agreements from native leaders throughout the Diaspora, to inform us of their customs, so we arrive without disrespecting them, and having a sense of belonging. This will boost the will in the Black Family for national and global unity. I will have a group of Pastors on the AARS Congress to provide guidance for healing, rites of passage, and spirituality via renewal and maintenance programs. In AARS we provide repair and restore programs; emergency relief; and we improve integration, expand repatriation, and create sovereignty. We also provide education programs to improve police and race relations; which will work to repair damage, and delegate peace and collective progress for descendants of slaves.

In Memory of Slavery and our Ancestors,
Brotha Pruitt
