BLACK JEWISH RELATIONS: THE TRUTH DIVIDES

BUT THE TRUTH WILL SET YOU FREE

IT IS TIME for BLACKS TO TELL THE TRUTH and SHAME THE DEVIL
WE HAVE WAY too MANY FACTS PROVING WE HAVE BLACK COWARDS
and SELL-OUTS USED TO DISCREDIT, DIVIDE, and KEEP BLACKS DOWN

Now, when we speak the truth, it will manifest into solidarity for collective movement. The best move African-Americans and all Black People (THE GLOBAL BLACK FAMILY), can make is to unite, and start using words like edify, uplift, and in the spirit of love, peace, and progress; towards one another; to move us and keep us going in the same direction; in order to win AARS Reparations. We know people like Hershel Daniels, Yona El, **Brooks Robinson and his Long-Term Strategic Plan (LTSP)** - Richard Finley, Calvin Grigsby, Howard G. Richards, Shabaka, and Attorney Maynard Henry {{are cowards and sell-outs, since they are misled and paid off by enemies and sponsors, and/or they have their own selfish moves and motives}}.

When we get deep into the KRP we will expose all those cowards and sell-outs who do not operate in our best interest. Therefore, they should not be in the reparations arena! Then we will call for a Reparations Tribunal on them!! If they refuse to attend, we will excommunicate them from all Black Groups and all Reparations Activity!!!

The sell-out problem has become so bad that it has blew up from individuals, into sell-out groups. We are aware of many blacks who were agent-provocateurs, infiltrators, or just sorry, timid, and unethical, who did many other blacks wrong. That has hurt the entire Global Black Family very badly, because we have those types of sorry negroes in Africa and America. **Now, the situation is much worse**, if you can imagine that, because the enemy is using personal black puppets, to form groups they sponsor and control. Those crooked groups are in society and in the reparations arena.

Those sorry crooked reparations groups are working in secret with their sponsors, so they are limited in communicating with other reparations groups. Their reparations agenda is created by their sponsors, so they are not allowed to ask for (1) spiritual guidance, (2) liberation, or (3) sovereignty, which are the most important goals to achieve in black reparations. Their sponsors and everyone else should know the best solutions for blacks, for problems created by colonialism, middle passage, slavery, lynching, and segregation are (4) freedom, (5) independence, and (6) repatriation.

Now the reparations groups are divided city by city, so the sponsors are doing their jobs very well. They have successfully divided blacks into a system where the blacks in those groups, really think they are doing a good job. The sponsors want to keep blacks divided so they do not come to agree what the main problems and

solutions are, but when we start comparing reparations plans, their groups will not ask for spiritual guidance, independence, or sovereignty, like AARS. They request minor changes to give blacks more opportunities for civil rights components, like education, employment, housing, and health care. However, the main problem blacks still have is racial assaults, and the mass police killings and terrorism that went on from Slavery to George Floyd. So, blacks need to finish the protests we started back then, that the lowly Black Lives Matter Group Stopped, because of their sponsors. Ultimately, those protests would have led to unity and a collective demand for land.

That is why the government should stop appointing their puppet groups like the CA Reparations Task Force. There were nine of them. I tried calling them myself for months, and never talked to any one of them. Suddenly, the preacher who was on the task force called me back a month later. He was more arrogant than athletes and entertainers, so we know those arrogant egotistical blacks cannot help in our quest for justice, as they are more concerned about self-image, than damage done to blacks.

There was a Japanese guy on the task force. I went to talk to him at one of the public meetings they had, but he acted like he was retarded, and wouldn't even speak to me. Now, the last time I checked, Japanese are trying to get more reparations for the two bombs dropped on Japan. THAT IS A DOG GONE SHAME; to be on a task force to try to get blacks reparations, then fail, then go to lead a group to try to get Japanese more reparations. Listen there is a lot more disdain, disgust, and disrespect for blacks!

Native Americans claim they are sovereign, to get more benefits, when they are not a naturally sovereign people. The U.S. Government has allowed them to lie, to pass laws to attain sovereignty. However, science and statistics have proved that blacks are the original people. Therefore, the only people who are aboriginal, indigenous, or sovereign are Black People! So, give us our credit, our AARS reparations, and note that the Japanese and the Native Americans revealed their groups plans during Black History Month! THAT IS A DOG GONE SHAME; African-Americans and all Black People should be tired of all the lies, deceit, cowards, and sell-outs, keeping them from justice and reparations. We need KRP to make a collective demand for AARS!

Blacks cannot get justice living under the power and control of those, whose lineage enslaved their ancestors. The only way blacks will gain freedom, justice, and equality in America, is with independent land for self-rule and self-government. Then they use AARS Reparations to build their own new beautiful, elite, and safe sovereign and repatriated cities, at home and abroad. That will ensure all opportunities, rights, and privileges of all citizens, and much needed relief from racism and police terrorism.
