

EXPOSING U.S. BLACK COWARDS and SELL-OUTS WHILE UPLIFTING THOSE WHO are WORTHY

All the Reparations Groups Lack Communication Because Their Sponsors Keep Them Divided and Conquered - So KRP Dialogue Will Encourage Unity at Home and Abroad to Offset Divisions - All Black Reparations Groups Should Unite to Form a Power Base

BLACK JEWISH RELATIONS: THE TRUTH DIVIDES

BUT THE TRUTH WILL SET YOU FREE

NOW IT IS TIME for BLACKS to TELL THE TRUTH and SHAME THE DEVIL
WE HAVE WAY too MUCH PROOF on BLACK COWARDS and SELL-OUTS
BEING USED TO DIVIDE CONQUER and KEEP BLACKS DOWN and OUT

Now, when we speak the truth, it will manifest into solidarity for collective movement. The best move African-Americans and all Black People (THE GLOBAL BLACK FAMILY), can make is to unite, and start using words like edify, uplift, and in the spirit of love, peace, and progress; towards one another. African-Americans and all Black People should be proud of themselves, when they manage to unite, with all the inner and outer forces against the masses desire for unity. They deserve credit for being loyal and true fighters for our people. Not Hershel Daniels, Yona El, Brooks Robinson or his Long-Term Strategic Plan (LTSP), with Richard Finley, Calvin Grigsby, Howard G. Richards, Shabaka, and Attorney Maynard Henry. {{They are all cowards and sell-outs, and are misled and paid off by sponsors with their own selfish motives}}.

When we get deep into the KRP we will expose all those cowards and sell-outs, who do not operate in the best interest of the masses of Black People. We will use Reparations Tribunals to coerce them to admit their transgressions, and to transform them into fighters for Black People.

The sell-out problem has become so bad that it has blew up from individuals, into sell-out groups. We are aware of many blacks who were agent-provocateurs, infiltrators, or just plain sorry to the bone house negroes; who were timid, and unethical, who did many other blacks wrong. That has hurt the entire Global Black Family very badly, because we have those types of sorry negroes in Africa, America, and Globally. Now, the situation is much worse, if you can imagine that, because the enemy is using personal black puppets, to form groups they sponsor to control. Those crooked groups are in society and in the reparations arena causing problems.

Those sorry crooked reparations groups are working in secret with their sponsors, so they are limited on communicating with other reparations groups. Their reparations agenda is created by their sponsors, so they are not allowed to ask for (1) spiritual guidance (2) unity (3) liberation, or (4) sovereign land and (5) enough money, which are the most important goals to achieve in black reparations. Their sponsors and everyone else should know the best solutions for Black People, for problems created by colonialism, middle passage, slavery, lynching, and segregation are factors which include amenities such as (6) freedom (7) independence, and (8) repatriation.

Now the reparations groups are divided city by city, so the daredevil sponsors are doing their jobs very well. They have completely and successfully divided blacks into a system where the blacks in those groups, elude yet pretend like they are doing a good job. The sponsors want to keep blacks confused and divided, so we do not come to agree what the main problems and

solutions are. Now, when we start comparing reparations plans, their groups will not ask for spiritual guidance, independence, or sovereignty, like AARS. They request **minor changes** to give blacks more opportunities for civil rights components like education, employment, housing, and health care. However, the main problem blacks still have are **racial assaults** and **elevated aggression of police killings and terrorism**; that went on from Slavery to George Floyd. So, Black People should finish the protests they started back then for George Floyd, which the **Lowly Black Lives Matter Group Stopped**, because of their sponsors. Ultimately, those protests would have led to unity and a strong and collective demand for sovereign and repatriated land.

That is why the government should stop appointing their **puppet groups** like the CA Reparations Task Force, and other city reparations study groups. There were nine on the force. I tried calling them myself for months, and never talked to any one of them. However, months later, the preacher who was on the task force called me back. He was more **arrogant** and **egotistical** than most airline pilots and clever chefs. We know those self-serving **rude blacks** cannot help us in our quest for justice, as they are more concerned about self-image, than repairing vast damage.

There was a Japanese guy on the task force. I went to talk to him at one of the public meetings they had, but he acted like he was retarded, and wouldn't even speak to me, or my guest. Now, the last time I checked, Japanese are trying to get more reparations for the two bombs dropped on Japan. **THAT IS A DOG GONE SHAME**; for him to be on a task force to try to get reparations for blacks, then fail, then go to lead another group to try to get more reparations for Japanese. Listen, there is a lot more disdain, disregard, and disrespect for Black People!!!

Native Americans claim they are sovereign to get more benefits, they know should be reserved for Black People. **They are not** a sovereign people. The U.S. Government has allowed them to lie, to pass laws to attain sovereign land. However, science and statistics have proved that blacks are the only original people. So, the only people who are aboriginal, indigenous, or sovereign are Black People! So, give us our credit, our AARS reparations, and note that the Japanese and the Native Americans revealed their plans to pursue more benefits **during** Black History Month!! **THAT IS A DOG GONE SHAME**; African-Americans and all Black People should be tired of all the lies, deceit, cowards, and sell-outs, keeping them from justice and reparations. We need the KRP to make a strong constant collective demand for AARS, ASAP!

Blacks cannot get justice living under the power and control of those, whose lineage enslaved their ancestors. The only way blacks will gain freedom, justice, and/or equality in America, is with independent land for self-rule and self-government. That is why they should claim AARS Reparations to build their own new beautiful elite and safe sovereign and repatriated cities, at home and abroad. That will ensure all opportunities, rights, and privileges for blacks, which all other citizens enjoy, plus blacks get much needed relief from racism and police terrorism.
