

::: SEEG Promo for Racism Education/Economics Project

This is an SEEG racism education/economics project from Juneteenth through Black History Month (BHM). To read essential information on the agenda that will educate America on true Black History, problems created by racism, showing sovereignty as the solution, and lead to racial healing. The agenda is set for people to learn about racism with clarity by reading and discussing info on the website from scholars and activists. This will lead to producing solutions for problems that have plagued our nation since slavery, and will nurture peaceful race relations.

THE SPORTS ENTERTAINMENT & EDUCATION GROUP (SEEG)

FORMING SPECIAL AARS GROUPS & INDIVIDUALS TO RAISE 100M or 5B EACH
TO CONTRIBUTE TO THIS HUMANITARIAN PROJECT TO HELP BUILD SAFE CITIES

Racism is the most dangerous problem in America and the world. The good part is America will use her selected places and people to dialogue on racism to pacify the people again, but the bad part is they will not produce solutions, and we will continue to see Blacks killed by corrupt police, and white supremacists! That triggers protests and riots!! We should take this opportunity to advance that dialogue from repetitive emotional outbursts, to discussing relevant articles, books, reports, and films on racism. Dialogue on racism, civil rights, and social justice is right on time, because unjust police killings incites anger; so, the people and the AAIU and SEEG should host, and monitor racism and police killings dialogue, including scholars, politicians, educators, cops, activists, authors, and spiritual leaders, to reduce and eventually stop both problems. This will enable us to discuss problems created by racism methodically, to produce mandated solutions, by appropriately dissecting reports and dialogue, from those with knowledge and experience.

I am qualified and prepared to participate in; and host racism dialogue to solve problems, which were and are created by racism, and maintained by discrimination and laws. (We should not expect this from Michael Jordan, or other rich or prominent African-Americans, or new Black Groups, because they spend the majority of their time preparing to excel in their careers). Therefore, they are not prepared to discuss racism issues in a legal and social manner to facilitate change, as those of us who have been educated and trained for decades to solve problems. As fans we should release them of that duty, but ask them to monitor all racism dialogue, and to join us in producing and scheduling AAIU Racism Dialogue. Now let us make sure we greatly applaud and seriously thank athletes and others, who are standing for justice, kneeling against injustice, and having zero tolerance for noose incidents. Constant protesting will keep these issues on the peoples' minds.

We should take this opportunity to introduce possibilities for universal peace and prosperity for all people. We must keep faith in God, and hope alive for all races, classes, and future generations, especially during this possible reconciling hour of outrage, impositions, and uncertainty due to man made viruses. The SEEG has a business plan for rich people or groups with 100M or 5B cash, for collective economics, with no risk of losing your money, because the SEEG and all clients and

groups will use their own advisors, attorneys, and bankers in the due diligence process, to confirm the money never leaves the account, but only works as a compensating balance to generate wealth for our business purpose. They will generate excessive wealth for great personal and/or group profit, and help us build safe cities, as a humanitarian effort to provide relief for victims of racism, displacement, and deculturalization. This is fitting for a race of people who have been damaged for more than 2000 years, but we can settle for recoup from the last 500 years! This is the AAIU recovery plan for Blacks to heal FROM CRIMES IN AFRICA, THE MIDDLE PASSAGE, SLAVERY, AND OVER THE LAST 500 YEARS!!!!

We read and discuss agenda items and current affairs to identify societal problems that require immediate attention. When people realize (partial info from the CD & DVD used for this purpose) is insightful, helpful, and from qualified scholars, activists, and educators, to give a thorough and complete understanding of racism, in order to initiate dialogue to produce solutions; that will plant the seeds for national interest to grow, inspiring the people to inquire about (the rest of the info on the CD & DVD), making them products in demand. The info is hard but true, and meant to inspire people to seek the truth so we can facilitate reconciliation. Our group received death threats so we will postpone this part of fund raising.

We are using this strategy to make sure people learn about racism in a manner, to defeat that subtle, but most evil disease, and to fund both groups with that intent. Our funding plan evolved into asking wealthy groups and people to contribute, without risk of losing their funds. This enables us to raise reparations funds, and distribute reparations info for free, which is why we are using the new strategy. When people and the police learn Blacks have made great contributions to advance all civilizations and societies, they may develop an appreciation for African-Americans, and eventually stop harassing and killing innocent, unarmed, and good Black people. This causes severe emotional stress.

Proposing Collective Economics,
Brotha Cliff Pruitt
