

RACISM - When the 7 European Nations and the Jews (both culprit groups), explored the early world, (like 2000-3000 years ago), they noticed Africa had great weather, prime land, an abundance of valuable assets and resources, and millions of strong Black People to colonize. Unfortunately, they decided to invade and capture Africa and her people for colonial purposes. So, both groups are liable for **hostile invasions, colonizing** the land and people, **stealing** her assets and resources, and **causing extensive emotional, psychological, and mental illnesses**. African-Americans and most Black People in the U.S. are victims of racism and oppression, and descendants of captured, middle passaged, and enslaved Africans.

{{The Culprit Groups STOLE HUNDREDS of TRILLIONS of DOLLARS and KILLED HUNDREDS of MILLIONS of BLACK PEOPLE, over their colonial period, so by Mixing and Computing Spiritual Warfare {{passing intentional lies and hypocrisy in the bible - and capturing and murdering Africans}}, Land, Labor, Assets, and Pain and Suffering, the Reparations Debt America Owes to Black People is \$30T of the \$150 Trillion Owed to All Blacks}}! Therefore, everyone should understand and agree that Africa, African-Americans, and all Black People should get national and global reparations via AARS, ASAP!

Both groups plotted to partition Africa into 7 parts where resources flourished, so each group would steal an astronomical amount of assets, for more than 2000 years! **That gave both groups monumental wealth from unjust enrichment, while excluding Africans from their fair share!** So, Africans were intentionally cut out of corporate business a long time ago. Then they were permanently excluded from financial practices for economic stability and growth, so they never ever recovered. **Now, there is a large wealth disparity gap, and the culprits have the nerve to say Africa is in debt! The biggest lie ever perpetrated on any people, in the history of the world!!**

Removing that lie and installing the truth is going to be a long and stressful journey, but it is something that is essential, so we must prioritize and accomplish that goal. The plot included capturing Africans for land, labor, and lust. **They treated Africans worse than animals.** Africans were chained around the neck and feet like donkeys, and were branded on their arms and backs like property, **just like black slaves were in America!** Africans were forced to work in caves and other unsafe places, to excavate and mine their assets, for culprits to gain and advance. The substances and materials they seized included natural resources (oil), precious metals (gold), valuable minerals (diamonds), and certain special seeds, along with various foods and seasonings, which both groups acquired a taste for and began to crave.

Africans produced so much materials and supplies, until it actually enabled the culprit groups to become wealthy, affluent, and prosper, while depleting African resources, and leaving many areas of the continent desolate, with no chance for having **safe tribal communities or upward mobility**. It also caused African people to dwindle down to **living in poor and impoverished conditions**. So, yes Africa, African-Americans, and all Black People should get AARS reparations, ASAP! - Both culprit groups desired and lusted for African women, so we have to discuss the statement made by Dr. John Henrik Clarke, when he said, **“Europeans and Jews Bastardized the Entire African Continent!!”** That means both groups invaded all areas of Africa, and raped women in all parts of Africa! That is a dog gone shame, and we should form a special ethics commission to investigate that madness, along with current divisive and destructive acts, postulated and implemented by the U.S. Government, causing more and unnecessary damage for symbolic reparations.
