

The African-American Independent Union (AAIU) 8-17-26
Honoring Black Leaders Civil Rights Movement and Reparations

We thank African-Americans and Black People for being founders and leaders of our cities. We should let them and our elders and allies know, that we admire them for their input, but blacks are hurt by lingering problems and encroachment. So, let us address those setbacks by moving wisely to secure land. We obtain land and bypass divisions, by endorsing and promoting one reparations plan. All the new city state and new reparations groups are causing more confusion and divisions.

We ask everyone to support the African-American Reparations/Sovereignty (AARS) Global Black Reparations Plan i.e. **AARS**. to finish the Civil Rights Movement (**CRM**). The only way African-Americans or any Black People will reach equality, is by finishing the CRM. We finish the CRM with reparations dialogue focused on gaining sovereignty. Others know blacks were abused, so they should be compensated for withheld slave wages; stolen ideas, resources, and contributions; and being victims of crimes against humanity. Yet, blacks stayed loyal by serving the U.S. in wars, only to return home to raw racism. So, the U.S. Government owes them an apology and relocation.

We recognize other affairs may seem more important than finishing the CRM, but we know much more should be going on and being done, for our people to reach equality, because we are vestiges of slavery, lynching, and segregation. We compare AARS to all reparations plans with its benefits and rewards to form a consensus. If they would not have killed Dr. King and the CRM, we would have won our civil rights. So, we should use the Kwanzaa Reparations Project (**KRP**), for peaceful and political reparations dialogue, to initiate congressional and public debates, to validate AARS.

We notice domestic and foreign affairs are causing many problems. That is a direct result of poor government. Those affairs are taking billions which should be used for programs, to help African-Americans and all Black People, cope with and heal from psychological injuries and propaganda. African-Americans and all Black People should confront those issues, to prepare to finish the CRM to get justice via reparations. Blacks should not sit back watch and do nothing, as others protest, as their struggles began 2500BC-500 years ago! yet they never got justice, so the KRP is essential.

Blacks pay billions in taxes every year, which should be used to help them recover from historical and current injustice, including redlining. The U.S. Government should **match all the money** they are spending, (of our tax dollars), on other affairs; to provide family, social, and ideal processes, programs, and services, which blacks need and will attain from AARS for full recovery and repair.

Our young generation realizes they benefited from our elders sacrifices, so we are asking them to agree to unite via AARS, so we produce a real purpose, to fight hard for AARS via the KRP. Black Americans are in great need of a group not formed or owned by others, for leadership, the African-American Independent Union (**AAIU**), and a plan (**AARS**), to unite and inspire our people to fight.

Please rush to contact Brotha Pruitt by email, or call the number in the footer, to request both short reparations presentations, 1st for the AAIU and 2nd for AARS. Info to lift the self-esteem and group pride in all blacks. Info to show Africa's wisdom and wealth, then how blacks fought colonialism; to resist middle passage and subjugation. Black Americans have no power or control in integration, so they demand land for repatriation and sovereignty, for self-rule and self-governing via AARS.

African-Americans and all Black People experience racism and oppression, because they lack a homeland, money, and resources. They are frustrated and depressed because they endure rounds of police brutality, which results in the death of innocent and unarmed Black People, like George Floyd, then riots explode. So, no justice no peace in integration, so they should strive for unity to prepare to engage in the KRP to win AARS, to get their own land for eternal peace and prosperity.

1 Unfortunately, African-Americans and all Black People face many old factors which keep them -
2 down & out & divided & conquered - mainly racists, sell-out groups, and aloof reparations groups.
3 So, let us use a fair, just, and valid reparations plan to make a strong, collective, and constant
4 demand for AARS in the KRP, for Black People to get justice at home and abroad. We use spiritual
5 guidance to start and keep **The AARS Special Premise**, "For All People to Treat All Others with
6 Respect". We need some kindness, joy, love, and happiness in our world today. Thank You KJLH.

7 African-Americans and all Black People should become a repatriated and sovereign people,
8 because colonizers envied, stole, and partitioned their land. Sovereign people have their own land,
9 laws, and their own government. They negotiate with other governments for prime land grants, to
10 settle their people within their own city limits. Repatriated Africans reclaim their customs and laws
11 to own, control, and govern their people, themselves. Africans were tricked, captured, colonized,
12 and displaced from their homeland, so they need a restoration process to reinstate African identity;
13 then their leaders and people can live life as they see fit, by spiritual principles. The process should
14 also include reuniting Africans, to acknowledge and preserve their cultures, values, and traditions.

15 History proves that people will treat and govern their own people with integrity and reverence, but
16 that they will not give others the same rights, privileges, or protections under the law, as their own
17 people. Therefore, it is paramount and most important, for African-Americans and all Black People
18 to have their own land; for liberation and autonomy to guarantee group safety, and teaching African
19 morals; to grow up by tribal rites of passages and practices; so that all Black People know they are
20 expected to become civil and astute, to build great minds and bodies to make our group strong.

21 Now, we dissect problems so that African-Americans and our Global Black Family will get AARS
22 solutions. Therefore, we should learn, discuss and embrace the truth. After Africa was invaded and
23 depleted, it left blacks crushed, and in a terrible condition without a foundation. Their assets were
24 seized by colonizers who benefited tremendously to the tune of trillions of dollars, while killing
25 hundreds of millions of Black People, causing Post Traumatic Slave Syndrome (PTSS). Now, most
26 Black People still need treatment for dire mental illness and dormant emotional trauma. Colonizers
27 left Africans behind, excluded, in debt, desperate, and at their mercy to be exploited and erased.

28 African families were violated, separated, and exiled, so that their hopes and aspirations for a better
29 future were totally broken and beaten down. These are monumental statements to make regarding
30 an entire continent and race of people, so we should really and sincerely deliberate and talk about
31 this information; in KRP time frames; because it describes the "Destruction of Black Civilization".
32 So, reparations are way past long overdue, to revive Africa and all Black People back to tranquility.

33 There is no way African-Americans or any group of Black People should be living under the power
34 and control of others in integration or anywhere. Blacks were derailed and deposed on a global
35 scale, so they should use KRP to win AARS for deliverance, independence, and to live in comfort.
36 African-Americans and our Global Black Family should prioritize using AARS models for Black
37 American relief, to get colonizers out of Africa, and all areas where they lure black on black crime.

38
39 We build momentum in the KRP in town halls and zoom calls, on relevant info and AARS annually,
40 or until the U.S. Government ratifies AARS for justice. Then facilitates truth and reconciliation
41 among all the culprits who gained from capturing, transporting, and enslaving Africans, and other
42 Black People. AARS Notes \$100B Per City + \$50K For All Black Americans 18 Plus + \$50K For
43 All Black Families Abroad + our own land to build our own, new, beautiful, elite, and safe cities.
