

If you worked with a localized installer like Victoria's Marble & Granite LLC or Pro Granite Inc by Victoria, the warranty is broken into two parts:

- **Workmanship Warranty:** Local fabricators generally offer a **1-year warranty on installation and labor** (covering issues like seam separation or sink fastening).
- **Material Warranty:** Because granite is a 100% natural, quarried stone, the raw slabs themselves rarely carry a manufacturer warranty. Natural variations, fissures, pits, and subsequent staining or chipping are classified as natural characteristics or wear-and-tear, which are not covered. Any warranty on the product itself is fulfilled via third-party stone wholesalers.
