EPA	Environmental Protection Authority
FIJV	FI Joint Venture Pty Ltd
GHG	Greenhouse Gas
GOS	Groundwater Operating Strategy
OEPA	Office of the Environmental Protection Authority
WA	Western Australia

1 INTRODUCTION

FI Joint Venture Pty Ltd (FIJV) proposes to develop the Yogi Magnetite Project (the Project), which is located approximately 250 km east-northeast of Geraldton and 15 km northeast of Yalgoo in the Mid-West region of Western Australia (WA).

This annual Compliance Assessment Report (CAR) addresses the requirements of Ministerial Statement (MS) 1225 for the Yogi Magnetite Project, and is due for submission by 19 September 2026, for reporting period 01 September 2025 to 31 August 2026. The report covers compliance with all conditions during the reporting period. As the Project remains in the pre-construction phase, no ground-disturbing activities associated with mining operations have occurred. This CAR has been prepared in accordance with the Post Assessment Guideline for Preparing a Compliance Assessment Report (PAG 3, August 2012, Office of the Environmental Protection Authority) and aligns with the approved Compliance Assessment Plan (CAP) submitted under Condition D2-5 of MS 1225. This CAR will be made publicly available in accordance with the approved Compliance Assessment Plan (CAP), including upon request within seven days and usually published on FIJV's website within 60 days of submission to the CEO.

2 CURRENT STATUS

The Project remained in the pre-construction phase during the reporting period. No mining-related disturbance, operational activities, or rehabilitation have occurred during the reporting period.

A Section 46 of the *Environmental Protection Act 1986* request from the Minister for Environment to undertake inquiries into changing implementation conditions was initiated during the previous reporting period (Assessment Number 2490). The Section 46 Amendment/s requested includes: *Change the implementation conditions relating to greenhouse gas emissions in the Ministerial Statements that apply to the 20 approved proposals identified by the Minister for Environment.*

Assessment continued during the reporting period.

3 COMPLIANCE

3.1 Statement of Compliance

All conditions and plans of MS 1225 have been complied with during the reporting period. The Statement of Compliance and Audit Table is provided as Appendix A.

3.2 Non-compliances and Corrective Actions

No non-compliances or potential non-compliances were identified during the reporting period. No corrective or preventative actions were required.

Where a non-compliance occurs in future it will be reported in accordance with the MS1225 conditions and the CAP and submitted to the DWER Compliance Branch within seven days, followed by a detailed report within 21 days detailing contingency measures, impacts, and rectification timelines.

4 ENVIRONMENTAL MONITORING AND RESEARCH

As the Project remained in pre-construction phase during the reporting period no monitoring or research as required by conditions or plans of MS 1225 was conducted during the reporting period.

4.1 Groundwater Monitoring

No groundwater abstraction occurred during the reporting period. Baseline groundwater monitoring continued during the reporting period as part of the site-wide program to assess the existing groundwater levels and water quality.

The most recent groundwater monitoring was completed by GHD Pty Ltd (GHD) in March 2026 and forms the tenth monitoring round of the baseline program. The 2025/2026 monitoring program is consistent with the 2021 to 2025 programs and in line with the monitoring outlined in the current approved Yogi Groundwater Operating Strategy (GOS).

Groundwater levels fluctuate by up to 0.3m throughout the year and most show minimal seasonal variation (GHD, 2026). Groundwater levels present with either stable or decreasing trends. The groundwater response to individual rainfall events is little to non-existent suggesting there are other factors affecting water levels or the water level is too deep to be sensitive to surface processes (GHD, 2026).

The analytical results from March 2026 are consistent with those from previous monitoring rounds, with analyte concentrations within the same order of magnitude. This indicates stable groundwater conditions which is expected considering there is currently no infrastructure on site (GHD, 2026).

Baseline water quality indicates a natural concentration in a selection of metals and major ions, some above the adopted assessment criteria. Considering there is no infrastructure at present, elevations are reflective of the natural geological formations and environment of the project area (GHD, 2026).

FIJV intend to revise and submit the GOS to DWER within the coming reporting period to establish baseline groundwater quality and levels for the Project prior to implementation.

4.2 Research

No research or trials were planned or implemented during the reporting period.

5 ENDORSEMENT

I, Seyed Reza Azimi, Managing Director of FI Joint Venture Pty Ltd, hereby endorse this Compliance Assessment Report for the Yogi Magnetite Project (Ministerial Statement 1225) for the reporting period 01 September 2025 to 31 August 2026. I confirm that the information provided in this report is accurate and complete to the best of my knowledge, and that all requirements of Ministerial Statement 1225, including the implementation conditions and procedures, have been complied with during the reporting period.

Signed:

Managing Director

FI Joint Venture Pty Ltd

Date: 01/09/2026

7 APPENDICES

Appendix A: Statement of Compliance and Audit Table

Statement of Compliance

1. Proposal and Proponent Details

Proposal Title	<i>YOGI MAGNETITE PROJECT</i>
Statement Number	<i>1225</i>
Proponent Name	<i>FI Joint Venture Pty Ltd</i>
Proponent's Australian Company Number (where relevant)	<i>611 846 023</i>

2. Statement of Compliance Details

Reporting Period	<i>1/09/25 to 31/08/26</i>
------------------	----------------------------

Implementation phase(s) during reporting period (please tick ✓ relevant phase(s))							
Pre-construction	☒	Construction	☐	Operation	☐	Decommissioning	☐

Audit Table for Statement addressed in this Statement of Compliance is provided at Attachment:	2
An audit table for the Statement addressed in this Statement of Compliance must be provided as Attachment 2 to this Statement of Compliance. The audit table must be prepared and maintained in accordance with the Department of Water and Environmental Regulation (DWER) <i>Post Assessment Guideline for Preparing an Audit Table</i>, as amended from time to time. The 'Status Column' of the audit table must accurately describe the compliance status of each implementation condition and/or procedure for the reporting period of this Statement of Compliance. The terms that may be used by the proponent in the 'Status Column' of the audit table are limited to the Compliance Status Terms listed and defined in Table 1 of Attachment 1.	

Were all implementation conditions and/or procedures of the Statement complied with within the reporting period? (please tick ✓ the appropriate box)			
No (please proceed to Section 3)	☐	Yes (please proceed to Section 4)	☒

3. Details of Non-compliance(s) and/or Potential Non-compliance(s)

The information required Section 3 must be provided for each non-compliance or potential non-compliance identified during the reporting period covered by this Statement of Compliance.

Non-compliance/potential non-compliance 3-1

Which implementation condition or procedure was non-compliant or potentially non-compliant?
Was the implementation condition or procedure non-compliant or potentially non-compliant?
On what date(s) did the non-compliance or potential non-compliance occur (if applicable)?

Was this non-compliance or potential non-compliance reported to the Chief Executive Officer, DWER?	
☐ Yes ☐ Reported to DWER verbally Date _____ ☐ Reported to DWER in writing Date _____	☐ No

What are the details of the non-compliance or potential non-compliance and where relevant, the extent of and impacts associated with the non-compliance or potential non-compliance?
What is the precise location where the non-compliance or potential non-compliance occurred (if applicable)? (please provide this information as a map or GIS co-ordinates)
What was the cause(s) of the non-compliance or potential non-compliance?
What remedial and/or corrective action(s), if any, were taken or are proposed to be taken in response to the non-compliance or potential non-compliance?
What measures, if any, were in place to prevent the non-compliance or potential non-compliance before it occurred? What, if any, amendments have been made to those measures to prevent re-occurrence?
Please provide information/documentation collected and recorded in relation to this implementation condition or procedure: • in the reporting period addressed in this Statement of Compliance; and • as outlined in the approved Compliance Assessment Plan for the Statement addressed in this Statement of Compliance. (the above information may be provided as an attachment to this Statement of Compliance)

For additional non-compliance or potential non-compliance, please duplicate this page as required.

Each page (including Attachment 2) must be initialed by the person who signs Section 4 of this Statement of Compliance.
INITIALS: SA

4. Proponent Declaration

I, Reza Azimi (Managing Director), declare that I am authorised on behalf of FIJV Pty Ltd to submit this form and that the information contained in this form is true and not misleading.

Signature:.....*Sayed Reza Azimi*..... Date:.....01/09/2026.....

Please note that:

- it is an offence under section 112 of the *Environmental Protection Act 1986* for a person to give or cause to be given information that to his knowledge is false or misleading in a material particular; and
- the Chief Executive Officer of the DWER has powers under section 47(2) of the *Environmental Protection Act 1986* to require reports and information about implementation of the proposal to which the statement relates and compliance with the implementation conditions.

5. Submission of Statement of Compliance

One hard copy and one electronic copy (preferably PDF on CD or thumb drive) of the Statement of Compliance are required to be submitted to the Chief Executive Officer, DWER, marked to the attention of Manager, Compliance (Ministerial Statements).

Please note, the DWER has adopted a procedure of providing written acknowledgment of receipt of all Statements of Compliance submitted by the proponent, however, the DWER does not approve Statements of Compliance.

6. Contact Information

Queries regarding Statements of Compliance, or other issues of compliance relevant to a Statement may be directed to Compliance (Ministerial Statements), DWER:

Manager, Compliance (Ministerial Statements)

Department of Water and Environmental Regulation

Postal Address: Locked Bag 10
Joondalup DC
WA 6919

Phone: (08) 6364 7000

Email: compliance@dwer.wa.gov.au

7. Post Assessment Guidelines and Forms

Post assessment documents can be found at www.epa.wa.gov.au

Each page (including Attachment 2) must be initialed by the person who signs Section 4 of this Statement of Compliance.
INITIALS: SA

ATTACHMENT 1**Table 1 Compliance Status Terms**

Compliance Status Terms	Abbrev	Definition	Notes
Compliant	C	Implementation of the proposal has been carried out in accordance with the requirements of the audit element.	This term applies to audit elements with: - ongoing requirements that have been met during the reporting period; and - requirements with a finite period of application that have been met during the reporting period, but whose status has not yet been classified as 'completed'.
Completed	CLD	A requirement with a finite period of application has been satisfactorily completed.	This term may only be used where: - audit elements have a finite period of application (e.g. construction activities, development of a document); - the action has been satisfactorily completed; and - the DWER has provided written acceptance of 'completed' status for the audit element.
Not required at this stage	NR	The requirements of the audit element were not triggered during the reporting period.	This should be consistent with the 'Phase' column of the audit table.
Potentially Non-compliant	PNC	Possible or likely failure to meet the requirements of the audit element.	This term may apply where during the reporting period the proponent has identified a potential non-compliance and has not yet finalized its investigations to determine whether non-compliance has occurred.
Non-compliant	NC	Implementation of the proposal has not been carried out in accordance with the requirements of the audit element.	This term applies where the requirements of the audit element are not "complete" have not been met during the reporting period.
In Process	IP	Where an audit element requires a management or monitoring plan be submitted to the DWER or another government agency for approval, that submission has been made and no further information or changes have been requested by the DWER or the other government agency and assessment by the DWER or other government agency for approval is still pending.	The term 'In Process' may not be used for any purpose other than that stated in the Definition Column. The term 'In Process' may not be used to describe the compliance status of an implementation condition and/or procedure that requires implementation throughout the life of the project (e.g. implementation of a management plan).

Each page (including Attachment 2) must be initialed by the person who signs Section 4 of this Statement of Compliance.

AUDIT TABLE

PROPOSAL: YOGI MAGNETITE PROJECT
STATEMENT: 1225

Note:

- Phases that apply in this table = Pre-Construction, Construction, Operation, Decommissioning, Overall (several phases).
- This audit table is a summary and timetable of conditions and commitments applying to this project. Refer to the Minister's Statement for full detail/precise wording of individual elements.
- Code prefixes: M = Minister's condition, P = Proponent's commitment.
- Acronyms list: CEO = CAR = Compliance Assessment Report; Chief Executive Officer of OEPA; DBCA = Department of Biodiversity, Conservation and Attractions; DAA = Department of Aboriginal Affairs; DEMIRS = Department of Energy, Mines, Industry Regulation and Safety; DWER = Department of Water and Environmental Regulation; EPA = Environmental Protection Authority; DoH = Department of Health; Minister for Env = Minister for the Environment; OEPA = Office of the Environmental Protection Authority.
- Compliance Status: C = Compliant, CLD = Completed, NA = Not Audited, NC = Non – Compliant, NR = Not Required at this stage.

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
A1.1	Limitations and Extent of Proposal	The proponent must ensure that the proposal is implemented in such a manner that Part A of the Ministerial Statement outlining the limitations or maximum extents / capacities / ranges are not exceeded.	Implement the proposal to meet the conditions outlined in A1.1	Compliance assessment report; Plans and/or spatial data of extent of any clearing	Overall	Ongoing	C	Section 2 of CAR
B1.1	Flora and Vegetation	The proponent must ensure the implementation of the proposal achieves the following environmental outcomes: - disturbance to no more than 153 ha of vegetation representative of the Yalgoo vegetation complexes Banded Ironstone Formation Priority Ecological Community within the mine development envelope. - disturbance to no more than 2.54 ha of vegetation representative of the Eucalypt Woodlands of the WA Wheatbelt Priority Ecological Community within the pipeline development envelope. - disturbance to no more than: 50 individuals of <i>Dicrastylis linearifolia</i> recorded in the flora and fauna survey. 27 individuals of <i>Acacia subsessilis</i> recorded in the flora and fauna survey. 288 individuals of <i>Acacia speckii</i> recorded in the flora and fauna survey. - no adverse indirect impacts to conservation significant flora outside the disturbance footprint in the pipeline development envelope. - disturbance only in areas that have been subject to survey or cleared areas that have previously been disturbed; and - no disturbance to Threatened Ecological Communities or Threatened Flora listed under the <i>Biodiversity Conservation Act 2016</i> or <i>Environment Protection and Biodiversity Conservation Act 1999</i>.	Implement the proposal to meet the environmental outcomes outlined in B1.1	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B1.2	Flora and Vegetation	The proponent must ensure implementation of the proposal achieves the following environmental objectives: - no adverse impacts to flora and vegetation occurring within or directly adjacent to the development envelope from the introduction or spread of environmental weeds compared with pre-construction condition. - no adverse impacts to flora and vegetation occurring within or directly adjacent to the development envelope from dust emissions or altered fire regimes; and - no adverse impacts to flora and vegetation occurring within or directly adjacent to the development envelopes from the alteration to surface water flow regimes or groundwater flow regimes compared with pre-construction condition.	Implement the proposal to meet the environmental outcomes outlined in B1.2	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B1.3	Flora and Vegetation	The proponent must take reasonable steps to use existing or proposed roads, access tracks, infrastructure corridors and other cleared areas that have previously been disturbed, including shared use with other existing or proposed disturbance areas, to minimise adverse impacts to flora and vegetation.	Proponent taking all reasonable and practicable steps to meet the environmental objectives outlined in B1.3	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B1.4	Flora and Vegetation	The proponent must review and revise the Environmental Management Plan (Version 1, 12 June 2023) and the Environmental Management and Rehabilitation Plan for the Pipeline Corridor (Version 1, 12 June 2023) so that it satisfies the requirements of condition C4-1 and condition C5-1 and demonstrates the flora and vegetation environmental outcomes in condition B1-1 and environmental objectives in condition B1-2 are achieved, and submit it to the CEO.	Proponent to update the Environmental Management Plan and Rehabilitation Plan to meet the requirements of B1.4	Environmental Management Plan; Environmental Management and Rehabilitation Plan	Overall	Prior to construction	CLD	EMP Rev 2.3 submitted and approved by DWER 22/05/2025

AUDIT TABLE

PROPOSAL: YOGI MAGNETITE PROJECT
STATEMENT: 1225

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
B2.1	Terrestrial Fauna	The proponent must ensure the implementation of the proposal achieves the following environmental outcomes: 1) within the mine development envelope, disturb no more than: (a) 153 ha of the Banded Ironstone Formation fauna habitat type considered suitable habitat for Western spiny-tailed skink (<i>Egernia stokesii badia</i>), Gilled slender bluetongue (<i>Cyclodomorphous branchialis</i>) and Long-tailed dunnart (<i>Sminthopsis longicaudata</i>); and (b) 1.14 ha of granitic formations fauna habitat type considered suitable habitat for Western spiny-tailed skink (<i>Egernia stokesii badia</i>), Gilled slender bluetongue (<i>Cyclodomorphous branchialis</i>) and Long-tailed dunnart (<i>Sminthopsis longicaudata</i>). 2) within the pipeline development envelope, disturb no more than: (a) 6.95 ha of low granite outcrops fauna habitat type considered suitable habitat for Western spiny-tailed skink (<i>Egernia stokesii badia</i>); (b) 6.29 ha of mallee over mixed shrubland sandplain fauna habitat type considered potentially suitable habitat for Malleefowl (<i>Leipoa ocellata</i>); (c) 8.65 ha of mixed shrubland on sandplain fauna habitat type considered potentially suitable habitat for Malleefowl (<i>Leipoa ocellata</i>); and (d) 8.59 ha of low value foraging habitat for Carnaby's cockatoo. 3) with the exception of low impact activities, no disturbance to fauna habitat within the exclusion zone in the mine development envelope.	Implement the proposal to meet the environmental outcomes outlined in B2.1	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B2.2	Terrestrial Fauna	The proponent must implement the proposal to meet the following environmental objectives: 1) Avoid where practicable and otherwise minimise adverse impacts and disturbance to native fauna including mortality, physical injury, behavioral changes and health impacts; and 2) Ensure there is no long-term increase in population of feral animals as a result of implementing the proposal.	Implement the proposal to meet the environmental objectives outlined in B2.2	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B2.3	Terrestrial Fauna	Prior to ground-disturbing activities, the proponent must undertake the following actions: 1) within seven (7) days prior to clearing within the fauna habitat areas identified in condition B2-1(1) and condition B2-1(2), using a suitably qualified or licensed fauna spotter, undertake pre-clearance surveys to detect the presence of conservation significant fauna within clearing areas; 2) where individuals of Western spiny-tailed skink (<i>Egernia stokesii badia</i>) are detected under condition B2-3(1), ground-disturbing activities shall not commence until either: (a) the individual(s) have been relocated by a licensed fauna handler in accordance with the Western Spiny-tailed Skink Relocation Monitoring Program (Revision 0, May 2021) and any subsequent revisions of the Program; (b) the individual has been observed by the fauna spotter to have moved on from the area to adjoining suitable habitat; and (c) the fauna spotter considers that the individual no longer occurs in the area 3) where active Malleefowl (<i>Leipoa ocellata</i>) mounds are detected under condition B2-3(1), ground-disturbing activities shall not commence until either a five hundred (500) metre exclusion zone is implemented around the active mound during breeding season (October to February), or if outside the breeding season a seventy-five (75) metre exclusion zone is implemented around the active mound.	Implement the proposal to meet the environmental outcomes outlined in B2.3	Compliance assessment report	Construction and Operations	Within seven (7) days prior to ground-disturbing activities	C	Section 2 of CAR

SA

AUDIT TABLE

PROPOSAL: YOGI MAGNETITE PROJECT
STATEMENT: 1225

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
B2.4	Terrestrial Fauna	The proponent shall undertake the following actions during construction activities: 1) Visually inspect open trenches for the presence of vertebrate fauna and, where required, remove trapped vertebrate fauna from within open trenches, using a suitably trained or licensed fauna handler: (a) at least twice daily, with the first daily clearing to be completed no later than three (3) hours after sunrise and the second clearing to be completed between the hours of 3:00 pm and 6:00 pm of that same day, unless otherwise agreed to by the CEO; and (b) within one (1) hour prior to backfilling of trenches; 2) Ensure open trench lengths shall not exceed a length capable of being inspected and cleared by the requirements set out in condition B2-4(3); 3) Ensure ramps providing egress points and/or fauna refuges providing suitable shelter from the sun and predators for trapped vertebrate fauna are to be placed in the trench at intervals not exceeding fifty (50) metres; 4) In the event of substantial rainfall, and following the clearing of vertebrate fauna from the trench, pump out any pooled water in the open trench and discharge it to adjacent vegetated areas in a manner that does not cause erosion; 5) Produce and provide a report on fauna management no later than sixty (60) days after the completion of construction activities to the CEO. The report shall include the following: (a) details of fauna inspections; (b) the number and type of fauna cleared from trenches and actions taken; and (c) vertebrate fauna mortalities.	Implement the proposal to meet the environmental outcomes outlined in B2.4	Compliance assessment report	Construction and operations	Prior to construction; ongoing	NR	Section 2 of CAR
B2.5	Terrestrial Fauna	The proponent must review and revise the Environmental Management Plan (Version 1, 12 June 2023) and the Environmental Management and Rehabilitation Plan for the Pipeline Corridor (Version 1, 12 June 2023) so that it satisfies the requirements of condition C4-1 and condition C5-1 and demonstrates the terrestrial fauna environmental outcomes in condition B2-1 and environmental objectives in condition B2-2 are achieved, and submit it to the CEO.	Implement the proposal to meet the environmental outcomes outlined in B2.5	Compliance assessment report	Construction and operations	Prior to construction	CLD	EMP Rev 2.3 submitted and approved by DWER 22/05/2025
B3.1	Inland Waters	The proponent must ensure implementation of the proposal achieves the following environmental outcomes: 1) No impact to quantity or quality of the Yalgoo Water Reserve, a Priority 1 Public Drinking Water Source Area; 2) No adverse impacts to nearby groundwater users identified at risk within the drawdown area including pastoral stations for stock use; 3) Source an alternative water supply of similar quality and quantity for groundwater users at Lazy Well, Ram Well, Wadgingarra Well, Cattle Well, and any other locations identified at risk within the drawdown area that have been adversely impacted; and 4) No adverse impacts to groundwater or surface water quality compared with pre-construction baseline quality along the pipeline and at the abstraction bores.	Implement the proposal to meet the environmental outcomes outlined in B3.1	Compliance assessment report	Operations	Prior to commencement of groundwater abstraction; ongoing	C	Section 2 of CAR
B3.2	Inland Waters	The proponent must ensure the implementation of the proposal achieves the following environmental objectives: 1) Avoid, where practicable, and otherwise minimise adverse impacts to surface water flow regimes; and 2) Avoid, where practicable, and otherwise minimise adverse impacts to Aboriginal cultural heritage values associated with groundwater or surface water quality and flows.	Implement the proposal to meet the environmental objectives outlined in B3.2	Compliance assessment report	Operations	Prior to commencement of groundwater abstraction and construction; ongoing	C	Section 2 of CAR
B3.3	Inland Waters	The proponent must include the environmental outcomes of condition B3-1(4), and the objective of condition B3-2(1) in the Environmental Management Plan (Version 1, 12 June 2023) and the Environmental Management and Rehabilitation Plan for the Pipeline Corridor (Version 1, 12 June 2023) so that it satisfies the requirements of condition C4 and C5 and demonstrates the inland waters environmental outcomes in condition B3-1 and environmental objectives in condition B3-2 are achieved and submit it to the CEO.	Implement the proposal to meet the environmental objectives outlined in B3.3	Environmental Management Plan	Operations	Prior to commencement of construction	CLD	EMP Rev 2.3 submitted and approved by DWER 22/05/2025

AUDIT TABLE

PROPOSAL: YOGI MAGNETITE PROJECT
STATEMENT: 1225

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
B3.4	Inland Waters	The proponent must include the environmental outcomes of condition B3-1(4), and the objective of condition B3-2(1) in the Environmental Management Plan (Version 1, 12 June 2023) and the Environmental Management and Rehabilitation Plan for the Pipeline Corridor (Version 1, 12 June 2023) so that it satisfies the requirements of condition C4 and C5 and demonstrates the inland waters environmental outcomes in condition B3-1 and environmental objectives in condition B3-2 are achieved and submit it to the CEO.	Implement the proposal to meet the environmental objectives outlined in B3.4	Environmental Management Plan	Operations	Prior to commencement of construction	CLD	EMP Rev 2.3 submitted and approved by DWER 22/05/2025
B4.1	Social Surroundings - Aboriginal Heritage	The proponent must implement the proposal to meet the following environmental outcomes: 1) No disturbance to Aboriginal cultural heritage, unless consent is granted to disturb that site under the Aboriginal Heritage Act 1972 and has involved reasonable steps to consult with relevant Traditional Owners; and 2) Subject to reasonable health and safety requirements, no interruption of ongoing access to land utilised for traditional use or custom by relevant Traditional Owners.	Implement the proposal to meet the environmental objectives outlined in B4.1	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B4.2	Social Surroundings - Aboriginal Heritage	The proponent must implement the proposal to meet the following environmental objective: 1) avoid, where practicable, and otherwise minimise adverse impacts to Aboriginal cultural heritage.	Implement the proposal to meet the environmental objectives outlined in B4.2	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B4.3	Social Surroundings - Aboriginal Heritage	The proponent must take reasonable steps to consult with relevant Traditional Owners about the achievement of the outcomes in condition B4-1 and objectives in condition B4-2 for the life of the proposal.	Implement the proposal to meet the environmental objectives outlined in B4.3	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B5.1	Social Surroundings – Surrounding Land Use	The proponent must implement the proposal to meet the following environmental objectives: 1) Maintain a two (2) km separation distance to sensitive receptors from areas of ground disturbance within the mine development envelope during implementation of the proposal; 2) Ambient dust emissions from implementation of the proposal, measured as particulate matter (PM10), must not exceed forty-six (46) micrograms per cubic metre for a twenty-four (24) hour averaging period at any sensitive receptor; 3) Avoid where practicable and otherwise minimise adverse impacts to visual amenity from implementation of the proposal; and 4) Minimise adverse impacts to surrounding land uses, such as pastoral station activities.	Implement the proposal to meet the environmental objectives outlined in B5.1	Compliance assessment report	Operations	Ongoing	C	Section 2 of CAR
B5.2	Social Surroundings – Surrounding Land Use	The proponent must review and revise the Environmental Management Plan (Version 1, 12 June 2023) and the Environmental Management and Rehabilitation Plan for the Pipeline Corridor (Version 1, 12 June 2023) so that it satisfies the requirements of condition C5-1 and demonstrates the social surroundings environmental objectives in condition B5-1 are achieved and submit it to the CEO.	Environmental Management Plan and the Environmental Management and Rehabilitation Plan for the Pipeline Corridor prepared in accordance with the requirements outlined in B5.2	Environmental Management Plan and/or Environmental Management and Rehabilitation Plan	Overall	Prior to construction; ongoing	CLD	EMP Rev 2.3 submitted and approved by DWER 22/05/2025
B6.1	Greenhouse Gas Emissions	Subject to condition B6-1(7), the proponent shall take measures to ensure that net GHG emissions do not exceed the following limits: 1) 1,060,005 tonnes of CO2-e for the period until 30 June 2029; 2) 795,004 tonnes of CO2-e for the period between 1 July 2029 and 30 June 2034; 3) 536,628 tonnes of CO2-e for the period between 1 July 2034 and 30 June 2039; 4) 268,314 tonnes of CO2-e for the period between 1 July 2039 and 30 June 2044; 5) zero tonnes of CO2-e for the period between 1 July 2044 and the end of the proposal operations and decommissioning, including up until 30 June 2050; 6) zero tonnes of CO2-e for every consecutive five (5) year period from 1 July 2050 onwards, should a proposal time extension be approved; and 7) Where the time between the commencement of operations and the end of a period specified in condition B6-1(1) is less than five (5) years, the net GHG emissions limit for that period is to be determined in accordance with the following formula:	Implement the proposal to meet the limits outlined in B6.1	Compliance assessment report	Construction and operations	Ongoing	NR	Section 2 of CAR

AUDIT TABLE

PROPOSAL: YOGI MAGNETITE PROJECT
STATEMENT: 1225

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
		Reduced net GHG emissions limit = $(A \div 1825) \times B$ Where: A is the net GHG emissions limit for the period as specified in condition B6-1. B is the number of days between the commencement of operations and the end of the relevant period specified in condition B6-1.						
B6.2	Greenhouse Gas Emissions	The proponent shall revise, and submit to the CEO, the Greenhouse Gas Emissions Environmental Management Plan (24 August 2022) to: 1) be consistent with the achievement of the net GHG emissions limits in condition B6-1 subject to the adjustment provided for in condition B6-1(7) (or achievement of emission reductions beyond those required by those emission limits); 2) specify the estimated proposal GHG emissions and emissions intensity for the life of the proposal; 3) include a comparison of the estimated proposal GHG emissions and emissions intensity for the life of the proposal against other relevant emissions reduction practices, pathways and comparable facilities; 4) identify and describe any measures that the proponent will implement to avoid, reduce and/or offset proposal GHG emissions and/or reduce the emissions intensity of the proposal; and 5) provide a program for the future review of the plan to: (a) assess the effectiveness of measures referred to in condition B6-2(4); (b) identify and describe options for future measures that the proponent may or could implement to avoid, reduce, and/or offset proposal GHG emissions and/or reduce the emissions intensity of the proposal; and (c) consider reasonably practicable options for reductions in scope 3 emissions.	Revised Greenhouse Gas Environmental Management Plan summary prepared and submitted to CEO in accordance with B6.2	Greenhouse Gas Management Plan	Operations	Prior to operations; ongoing	NR	Section 2 of CAR
B6.3	Greenhouse Gas Emissions	Within one (1) month of receiving confirmation in writing from the CEO that: 1) The Greenhouse Gas Environmental Management Plan referred to in condition B6-2 has been revised and satisfies condition B6-2; or 2) Any subsequent version of the confirmed Greenhouse Gas Environmental Management Plan submitted under condition C2-2 or B6- 8 which satisfies the requirements of condition B6-2, The proponent must submit a separate summary of the relevant plan to the CEO, which must: 3) Include a summary of the matters specified in conditions B6-2(1) to condition B6-2(4); and 4) Be published as required by condition B6-7.	Greenhouse Gas Environmental Management Plan summary submitted to CEO in accordance with B6.3	Submission to CEO	Operations	Within one (1) month of receiving Confirmation from CEO	NR	Section 2 of CAR
B6.4	Greenhouse Gas Emissions	The proponent shall submit an annual report to the CEO each year by 31 March, commencing on the first 31 March after the commencement of operations, or such other date within that financial year as is agreed by the CEO to align with other reporting requirements for GHG, specifying for the previous financial year: 1) the quantity of proposal GHG emissions; and 2) the emissions intensity for the proposal.	Annual report submitted to CEO in accordance with B6.4	Submission to CEO	Operations	Each year by 31 March	NR	Section 2 of CAR
B6.5	Greenhouse Gas Emissions	The proponent shall submit to the CEO by 31 March 2030 or such other date within that financial year as is agreed by the CEO to align with other reporting requirements for GHG, and every five (5) years thereafter: 1) a consolidated report specifying: (a) for each of the preceding five financial years, the matters referred to in condition B6-4(1) and condition B6-4(2); (b) for the period specified in condition B6-1 that ended on 30 June of the year before the report is due: (i) the quantity of proposal GHG emissions; (ii) the net GHG emissions;	Consolidated report and supporting information prepared and submitted to CEO in accordance with B6.5	Submission to CEO	Operations	At 5 year-intervals starting 31 March 2030	NR	Section 2 of CAR

PROPOSAL: YOGI MAGNETITE PROJECT
STATEMENT: 1225

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
		(iii) any measures that have been implemented to avoid or reduce proposal GHG emissions; and (iv) the type, quantity, identification or serial number, and date of retirement or cancellation of any authorised offsets which have been retired or cancelled and which have been used to calculate the net GHG emissions referred to in condition B6-5(1)(b)(ii), including written evidence of such retirement or cancellation. 2) an audit and peer review report of the consolidated report required by condition B6-5(1), carried out by an independent person or independent persons with suitable technical experience dealing with the suitability of the methodology used to determine the matters set out in the consolidated report, whether the consolidated report is accurate and whether the consolidated report is supported by credible evidence.						
B6.6	Greenhouse Gas Emissions	A consolidated report referred to in condition B6-5(1) must be accompanied by: 1) a revision of the confirmed Greenhouse Gas Environmental Management Plan required under condition B6-2; and 2) A separate summary report, for the period specified in condition B6-1 that ended on 30 June of the year before the report is due and any previous periods specified in condition B6-1, and which includes: (a) a graphical comparison of net GHG emissions with the net GHG emissions limits detailed in condition B6-1 (subject to the adjustment provided for in condition B6-1(7)); (b) proposal emissions intensity compared to comparable facilities; (c) a summary of measures to reduce the proposal GHG emissions undertaken by the proponent for compliance periods detailed in condition B6-1; and (d) a clear statement as to whether limits for net GHG emissions set out in condition B6-1 have been met, and whether future net GHG emissions limits are likely to be met, including a description of any reasons why those limits have not been, and/or are unlikely to be met.	Consolidated report and revised Greenhouse Gas Environment Management Plan prepared and submitted to CEO in accordance with B6.6	Submission to CEO	Operations	Ongoing	NR	Section 2 of CAR
B6.7	Greenhouse Gas Emissions	In addition to the requirements of condition C2-6 about publication of the confirmed Greenhouse Gas Environmental Management Plan, the proponent shall make the summary of the confirmed Greenhouse Gas Environmental Management Plan, and all reports required by this condition B6 publicly available on the proponent's website within the timeframes specified below, or in any other manner or time specified by the CEO: 1) the summary of the confirmed Greenhouse Gas Environmental Management Plan within twenty (20) business days of submitting the document to the CEO in accordance with condition B6-3; and 2) the reports referred to in condition B6-4, condition B6-5, and condition B6-6 within twenty (20) business days of submitting the document to the CEO, and they shall remain published for the life of the proposal.	Greenhouse Gas Environmental Management Plan, consolidated report and supporting information publicly available in accordance with B6.7	Online publication	Overall	Ongoing	NR	Section 2 of CAR
B6.8	Greenhouse Gas Emissions	In addition to the requirements of condition C2-2, the proponent must revise and submit to the CEO the confirmed Greenhouse Gas Environmental Management Plan by the date that the first five (5) yearly consolidated report is required to be submitted under condition B6-5 and every five (5) years after that date.	Proponent to submit Greenhouse Gas Environmental Management Plan as outlined in B6.8	Greenhouse Gas Environmental Management Plan	Operations	At 5 year-intervals starting 31 March 2030	NR	Section 2 of CAR
B7.1	Rehabilitation and Closure	The proponent must implement the proposal to meet the following environmental outcomes: 1) Rehabilitated landforms are stable and do not cause pollution or environmental harm; 2) Rehabilitated vegetation is self-sustaining; 3) Rehabilitated drainage lines are stable, not prone to erosion, and support ecological processes; 4) Rehabilitated areas are consistent with the species diversity and abundance of native vegetation within comparative analogue or reference sites;	Implement the proposal to meet the environmental outcomes outlined in B7.1	Compliance Assessment Report	Operations and closure	Ongoing; post-closure	NR	Section 2 of CAR

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
		5) Rehabilitation includes the use of native seeds collected from native vegetation adjacent to the proposal; 6) Groundwater quality is returned to background conditions; and 7) Closure planning and rehabilitation are undertaken in a progressive manner consistent with achievement of the above outcomes during operations, where practicable, and as soon as practicable upon closure.						
B7.2	Rehabilitation and Closure	The proponent must include the environmental outcomes of condition B7-1 in the Mine Closure Plan required under the <i>Mining Act 1978</i> and submitted for approval to the DEMIRS.	Mine Closure Plan will be prepared in accordance with B7.2	Mine Closure Plan	Operations and closure	Ongoing; post-closure	CLD	Mine Closure Plan approved on 29/10/2024
B7.3	Rehabilitation and Closure	The proponent must monitor the progress towards achievement of environmental outcomes of condition B7-1 and include the findings in the reporting of enhanced restoration offsets required by condition B8.	Implement the proposal to meet the environmental outcomes outlined in B7.3	Compliance Assessment Report	Operations	Ongoing; post-closure	NR	Section 2 of CAR
B8.1	Enhanced Restoration Offsets	The proponent must ensure the implementation of the proposal achieves the following environmental outcomes and objectives: 1) Counterbalance the significant residual impacts to the following environmental values: (a) Carnaby's cockatoo (<i>Zanda latirostris</i>) foraging habitat; (b) Western spiny tailed skink (<i>Egernia stokesii badia</i>) habitat; and (c) Malleefowl (<i>Leipoa ocellata</i>) habitat. 2) Restore and enhance habitat to ensure a net-gain in suitable habitat outside the area disturbed by the proposal which is likely to remain viable is achieved for the environmental values listed in condition B8-1(1); 3) Ensure an environmental benefit is achieved for the environmental values listed in condition B8-1(1); and 4) Contribute to key knowledge gaps about Carnaby's cockatoo (<i>Zanda latirostris</i>), Western spiny tailed skink (<i>Egernia stokesii badia</i>) and Malleefowl (<i>Leipoa ocellata</i>), to enable them to be managed consistent with the associated recovery plans for each of the species.	Implement the proposal to achieve the outcomes and objectives in B8.1	Compliance Assessment Report	Operations and closure	Prior to construction; ongoing	NR	Section 2 of CAR
B8.2	Enhanced Restoration Offsets	The proponent must, in consultation with the DBCA, review and revise the Biodiversity Offset Strategy (Environmental Management Plan) (Revision 0, 26 September 2023) so that it demonstrates how the environmental outcomes and objectives in condition B8-1 will be achieved, and how this achievement will be substantiated, and submit it to the CEO.	Biodiversity Offset Strategy revised and submitted to CEO in accordance with B8.2	Submission to CEO	Construction and operations	Prior to construction; ongoing	NR	Section 2 of CAR
B8.3	Enhanced Restoration Offsets	The Biodiversity Offset Strategy (Environmental Management Plan) must: 1) demonstrate that the environmental outcomes and objectives in condition B8-1 will be met; 2) identify the enhanced restoration areas for the environmental values identified in condition B8-1 which will result in a ratio of at least 3:1 (impact) for each species. 3) demonstrate how the environmental values within the enhanced restoration areas will be maintained and improved in order to counterbalance the residual impact to the environmental values in condition B8-1(1) and achieve the environmental outcomes and objectives in condition B8-1. 4) demonstrate application of the principles of the WA Environmental Offsets Policy, the WA Environmental Offsets Metric and the WA Offsets Template, as described in the WA Environmental Offsets Guidelines, and the <i>Environment Protection and Biodiversity Conservation Act 1999</i> Environmental Offsets Policy Assessment Guide, or any subsequent revisions of these documents; 5) identify how the ongoing performance of the enhanced restoration activities, and whether they are achieving the outcomes and objectives in condition B8-1, will periodically be made publicly available; 6) identify how the enhanced restoration areas will be protected, being either the sites are ceded to the Crown for the purpose of management for conservation, or the sites are	Biodiversity Offset Strategy prepared in accordance with B8.3	Biodiversity Offset Strategy	Overall	Ongoing	NR	Section 2 of CAR

		managed under other suitable mechanism for the purpose of conservation as agreed by the CEO by notice in writing. 7) identify how ongoing security and permanence for enhanced restoration areas will be provided, including for after satisfying completion criteria. 8) where on-ground management is proposed: (a) state the targets for each environmental value to be achieved, including completion criteria, which will result in a tangible improvement to the environmental values subject to enhanced restoration. (b) demonstrate the consistency of the targets with environmental outcomes and objectives in condition B8-1 and the objectives of any relevant guidance, including but not limited to, recovery plans or area management plans. (c) detail the on-ground management actions, with associated timeframes for implementation and completion, to achieve the targets identified in condition B8-3(7)(a); and (d) detail the monitoring, reporting and evaluation mechanisms for the targets and actions identified under condition B8-3(7)(a). 9) For research offset identified in condition B8-1(4), prepare a research program that: (a) identifies the objectives and intended outcomes and specifies the deliverables and completion criteria. (b) identifies how the research will result in positive conservation outcomes or tangible improvements and will either improve management and protection or address priority knowledge gaps that have been identified as a research priority needed to improve management and protection, for the environmental values identified in condition B8-1(1). Page 15 of 36 (c) demonstrate the consistency of the objectives in condition B8-3(8)(a) with any relevant guidance, including but not limited to, recovery plans or area management plans, the principles of the WA Environmental Offsets Policy, the WA Environmental Offsets Guidelines, or any subsequent revisions of these documents. (d) identifies and justifies the how the research will support land acquired and/or on-ground management in achieving a positive conservation outcome. (e) provides an implementation and reporting schedule, including an outline of key activities, all deliverables, stages of implementation, reporting of research results (including interim results), reporting on implementation status, and milestones towards completion criteria. (f) identifies the governance arrangements including responsibilities for implementing, and oversight of, the research program, agreements with government agencies, agreements with any third parties, and contingency measures. (g) identify how a research program summary, and the results (including interim results) of the research program will be communicated and/or published in an open access format; and (h) identifies the third party to carry out the work required to meet the outcomes of condition B8-3(8)(a), who is satisfactory for the role to the CEO. In applying to the CEO for endorsement of the selected third parties, the proponent shall provide: (i) demonstration of the track record, experience, qualifications and competencies of the proposed third party to carry out the work and achieve the outcomes.						
B8.4	Enhanced Restoration Offsets	If, after receiving the ongoing performance review of the enhanced restoration and research, reporting and evaluation required by condition B8-3(7)(d), the CEO determines that the proposal has not met the environmental outcomes and objectives in condition B8-1, and after notifying the proponent in writing, the proponent must undertake an additional	Proponent to undertake additional restoration offset activities as outlined in B8.4 if notified by the CEO	Compliance Assessment Report	Overall	Ongoing	NR	Section 2 of CAR

		offset to counterbalance the significant residual impact from the additional impact to Carnaby's cockatoo (<i>Zanda latirostris</i>), Western spiny tailed skink (<i>Egernia stokesii badia</i>) and Malleefowl (<i>Leipoa ocellata</i>).						
B8.5	Enhanced Restoration Offsets	Within twelve (12) months of receiving notice in writing from the CEO that an additional offset is required under condition B8-4 the proponent must update the Biodiversity Offset Strategy (Environmental Management Plan) required by condition B8-2 to include additional offsets to counterbalance the significant residual impacts to Carnaby's cockatoo (<i>Zanda latirostris</i>), Western spiny tailed skink (<i>Egernia stokesii badia</i>) and Malleefowl (<i>Leipoa ocellata</i>).	Proponent to update the Biodiversity Offset Strategy (Environmental Management Plan) as outlined in B8.5	Written correspondence: Biodiversity Offset Strategy	Overall	Within twelve (12) months of receiving notice in writing from the CEO	NR	Section 2 of CAR
C1.1	Conditions Related to Commencement of Implementation of the Proposal	The proponent must not undertake: 1) ground disturbing activities until the CEO has confirmed in writing that the environmental management plan required by condition B1-4, condition B2-5, condition B3-4 and condition B5-2 meets the requirements of those conditions and conditions C4 and C5; 2) ground disturbing activities of the habitat types as described in condition B8-1(1) until the CEO has confirmed in writing that the Biodiversity Offset Strategy (Environmental Management Plan) required by condition B8-2 meets the requirements of that condition; and 3) operational activities until the CEO has confirmed in writing that the Greenhouse Gas Environmental Management Plan required by condition B6-2 meets the requirements of that condition.	Proponent to adhere to the conditions outlined in C1.1	Written correspondence from the CEO	Operations	Ongoing	NR	Section 2 of CAR
C2.1	Conditions Related to Commencement of Implementation of the Proposal	Upon being required to implement an environmental management plan under Part B, or after receiving notice in writing from the CEO under condition C1-1 that the environmental management plan(s) required in Part B satisfies the relevant requirements, the proponent must: 1) implement the most recent version of the confirmed environmental management plan; and 2) continue to implement the confirmed environmental management plan referred to in condition C2-1(1), other than for any period which the CEO confirms by notice in writing that it has been demonstrated that the relevant requirements for the environmental management plan have been met, or are able to be met under another statutory decision-making process, in which case the implementation of the environmental management plan is no longer required for that period.	Proponent to implement the Environmental Management Plan in accordance with C2.1	Written correspondence from the CEO	Overall	Ongoing	C	Section 2 of CAR
C2.2	Conditions Related to Commencement of Implementation of the Proposal	The proponent: 1) may review and revise a confirmed environmental management plan provided it meets the relevant requirements of that environmental management plan, including any consultation that may be required when preparing the environmental management plan. 2) must review and revise a confirmed environmental management plan and ensure it meets the relevant requirements of that environmental management plan, including any consultation that may be required when preparing the environmental management plan, as and when directed by the CEO; and 3) must revise and submit to the CEO the confirmed Environmental Management Plan if there is a material risk that the outcomes or objectives it is required to achieve will not be complied with, including but not limited to as a result of a change to the proposal.	Environmental Management Plan revised in accordance with C2.2	Environmental Management Plan	Overall	Ongoing	C	No revisions following approval of the EMP Rev 2.3
C2.3	Conditions Related to Commencement of Implementation of the Proposal	Despite condition C2-1, but subject to conditions C2-4 and C2-5, the proponent may implement minor revisions to an environmental management plan if the revisions will not result in new or increased adverse impacts to the environment or result in a risk to the achievement of the limits, outcomes or objectives which the environmental management plan is required to achieve.	If necessary, proponent to revise the Environmental Management Plan in accordance with C2.3	Environmental Management Plan	Overall	Ongoing	NR	No revisions following approval of the EMP Rev 2.3

SA

PROPOSAL: YOGI MAGNETITE PROJECT
STATEMENT: 1225

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
C2.4	Conditions Related to Commencement of Implementation of the Proposal	If the proponent is to implement minor revisions to an environmental management plan under condition C2-3, the proponent must provide the CEO with the following at least twenty (20) business days before it implements the revisions: 1) the revised environmental management plan clearly showing the minor revisions. 2) an explanation of and justification for the minor revisions; and 3) an explanation of why the minor revisions will not result in new or increased adverse impacts to the environment or result in a risk to the achievement of the limits, outcomes or objectives which the environmental management plan is required to achieve.	If necessary, Proponent to revise the Environmental Management Plan in accordance with C2.4	Written correspondence	Overall	Ongoing	NR	No revisions following approval of the EMP Rev 2.3
C2.5	Conditions Related to Commencement of Implementation of the Proposal	The proponent must cease to implement any revisions which the CEO notifies the proponent (at any time) in writing may not be implemented.	Proponent to implement the proposal to meet the requirements in C2.5	Written correspondence	Overall	Ongoing	C	No notification during the period
C2.6	Conditions Related to Commencement of Implementation of the Proposal	Confirmed environmental management plans, and any revised environmental management plans under condition C2-4(1), must be published on the proponent's website and provided to the CEO in electronic form suitable for on-line publication by the Department of Water and Environmental Regulation within twenty (20) business days of being implemented, or being required to be implemented (whichever is earlier).	Environmental Management Plans to be published online in accordance with C2.6	Written correspondence; online publication	Overall	Ongoing	C	EMP is available via the FIJV website
C3.1	Conditions Related to Monitoring	The proponent must undertake monitoring capable of: 1) substantiating whether the proposal limitations and extents in Part A are exceeded; and 2) detecting and substantiating whether the environmental outcomes identified in Part B are achieved (excluding any environmental outcomes in Part B where an environmental management plan is expressly required to monitor achievement of that outcome).	Proponent to implement the proposal to meet the monitoring requirements in C3.1	Compliance Assessment Report	Overall	Ongoing	C	Section 2 and 4 of CAR
C3.2	Conditions Related to Monitoring	The proponent must submit as part of the Compliance Assessment Report required by condition D2, a compliance monitoring report that: 1) outlines the monitoring that was undertaken during the implementation of the proposal. 2) identifies why the monitoring was capable of substantiating whether the proposal limitation and extents in Part A are exceeded. 3) for any environmental outcomes to which condition C3-1(2) applies, identifies why the monitoring was scientifically robust and capable of detecting whether the environmental outcomes in Part B are met. 4) outlines the results of the monitoring. 5) reports whether the proposal limitations and extents in Part A were exceeded and (for any environmental outcomes to which condition C3-1 (2) applies) whether the environmental outcomes in Part B were achieved, based on analysis of the results of the monitoring; and 6) reports any actions taken by the proponent to remediate any potential non-compliance.	Proponent to implement the proposal to meet the monitoring requirements in C3.2	Compliance Assessment Report	Overall	Ongoing	C	Section 2 and 4 of CAR

AUDIT TABLE

PROPOSAL: YOGI MAGNETITE PROJECT
STATEMENT: 1225

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
C4.1	Conditions Relating to Monitoring and Adaptive Management for Outcomes Based Conditions	The environmental management plans required under condition B1-3, condition B2-5, condition B3-3, condition B6-2 and condition B8-2 must contain provisions which enable the substantiation of whether the relevant outcomes of those conditions are met, and must include: 1) threshold criteria that provide a limit beyond which the environmental outcomes are not achieved; 2) trigger criteria that will provide an early warning that the environmental outcomes are not likely to be met; 3) monitoring parameters, sites, control/reference sites, methodology, timing and frequencies which will be used to measure threshold criteria and trigger criteria. Include methodology for determining alternate monitoring sites as a contingency if proposed sites are not suitable in the future. 4) baseline data. 5) data collection and analysis methodologies. 6) adaptive management methodology 7) contingency measures which will be implemented if threshold criteria or trigger criteria are not met; and 8) reporting requirements.	Proponent to implement the proposal to meet the monitoring requirements in C4.1	Environmental Management Plan	Overall	Ongoing	C	EMP Rev 2.3 submitted and approved by DWER 22/05/2025
C4.2	Conditions Relating to Monitoring and Adaptive Management for Outcomes Based Conditions	The Groundwater Operating Strategy and environmental management plans required under condition B3-3 and condition B3-4 are also required to include: 1) identification of reasonably likely alternative water supply options to nearby groundwater users if they are adversely affected, and contingency measures including reducing or ceasing water extraction to prevent adverse impacts to other water users. 2) reasonable steps for the proponent to consult with Water Corporation about the achievement of the outcomes in condition B3-1 for the life of the proposal and any updates to the Strategy required in condition B3-3; and 3) reasonable steps for the proponent to consult with pastoral stations and relevant Traditional Owners about the achievement of the outcome in condition B3-1(3) for the life of the proposal and any updates to the environmental management plans required in condition B3-4.	Proponent to implement the proposal to meet the monitoring requirements in C4.2	Compliance Assessment Report	Overall	Ongoing	C	EMP Rev 2.3 submitted and approved by DWER 22/05/2025 GOS submitted and approved by DWER 28/03/2025.
C4.3	Conditions Relating to Monitoring and Adaptive Management for Outcomes	Without limiting condition C3-1, failure to achieve an environmental outcome, or the exceedance of a threshold criteria, regardless of whether threshold contingency measures have been or are being implemented, represents a non-compliance with these conditions.	Proponent to implement the proposal to meet the monitoring requirements in C4.3	Compliance Assessment Report	Overall	Ongoing	C	Section 3 of the CAR
C5.1	Conditions Related to Management Actions and Targets for Objective Based Conditions	The environmental management plans required under condition B1-2, condition B2-5, condition B5-2, condition B6-2 and condition B8-2 must contain provisions which enable the achievement of the relevant objectives of those conditions and substantiation of whether the objectives are reasonably likely to be met and must include: 1) management actions. 2) management targets. 3) contingency measures if management targets are not met; and 4) reporting requirements.	Proponent to implement the proposal to meet the objectives in C5.1	Environmental Management Plan	Overall	Ongoing	CLD	EMP Rev 2.3 submitted and approved by DWER 22/05/2025
C5.2	Conditions Related to Management Actions and Targets for Objective Based Conditions	The environmental management plans required under condition B3-4 are also required to include: 1) reasonable steps for the proponent to consult with pastoral stations and Traditional Owners in the Environmental Management Plans about the achievement of the objective in condition B3-2 for the life of the proposal and any updates to the environmental management plans required in condition B3-4.	Proponent to implement the proposal to meet the consultation requirements in C5.2	Environmental Management Plan	Overall	Ongoing	C	EMP Rev 2.3 submitted and approved by DWER 22/05/2025

D4.2	Time Limit for Proposal Implementation	The proponent must provide to the CEO documentary evidence demonstrating that they have complied with condition D4-1 no later than fourteen (14) days after the expiration of period specified in condition D4-1.	Written notification will be sent to the CEO.	Written correspondence when required	Overall	Within fourteen (14) days from substantial commencement (and no later than 4 July 2029)	NR	Section 2 of CAR
D4.3	Time Limit for Proposal Implementation	If the proposal has not been substantially commenced within the period specified in condition D4-1, implementation of the proposal must not be commenced or continued after the expiration of that period.	If the project is not substantially commenced by five (5) years from the date of this Statement (ie by 20 June 2029), the proponent will notify the CEO in writing.	Written correspondence when required	Overall	Five (5) years from the date of Ministerial Statement 1225	NR	Section 2 of CAR
D5.1	Public Availability of Data	Subject to condition D5-2, within a reasonable time period approved by the CEO upon the issue of this Statement and for the remainder of the life of the proposal, the proponent must make publicly available, in a manner approved by the CEO, all validated environmental data collected before and after the date of this Statement relevant to the proposal (including sampling design, sampling methodologies, monitoring and other empirical data and derived information products (e.g. maps)), environmental management plans and reports relevant to the assessment of this proposal and implementation of this Statement.	As per the method outlined in the Compliance Assessment Plan	Compliance Assessment Plan	Overall	Within a reasonable time period approved by the CEO and continuing for the life of the project.	C	Information is publicly available in a manner approved by the CEO.
D5.2	Public Availability of Data	If: 1) any data referred to in condition D5-1 contains trade secrets; or 2) any data referred to in condition D5-1 contains particulars of confidential information (other than trade secrets) that has commercial values to a person that would be, or could reasonably be expected to be, destroyed or diminished if the confidential information were published. The proponent may submit a request for approval from the CEO to make this data publicly available and the CEO may agree to such a request if the CEO is satisfied that the data meets the above criteria.	As per the method outlined in the Compliance Assessment Plan	Written correspondence when required	Overall	Within a reasonable time period	NR	No request has been made.
D5.3	Public Availability of Data	In making such a request the proponent must provide the CEO with an explanation and reasons why the data should not be made publicly available.	As per the method outlined in the Compliance Assessment Plan	Written correspondence when required	Overall	Within a reasonable time period	NR	No request has been made.
D6.1	Independent Audit	The proponent must arrange for an independent audit of compliance with the conditions of this statement, including achievement of the environmental outcomes and/or the environmental objectives and/ or environmental performance with the conditions of this statement, as and when directed by the CEO.	Independent audit report will be prepared in accordance with D6.1	Independent Audit Reports; written notification from CEO	Overall	Ongoing	NR	No audit required during the reporting period
D6.2	Independent Audit	The independent audit must be carried out by a person with appropriate qualifications who is nominated or approved by the CEO to undertake the audit under condition D6-1.	Independent audit report will be prepared in accordance with D6.2	Independent Audit Reports; correspondence from CEO	Overall	Ongoing	NR	No audit required during the reporting period
D6.3	Independent Audit	The proponent must submit the independent audit report with the Compliance Assessment Report required by condition D2, or at any time as and when directed in writing by the CEO. The audit report is to be supported by credible evidence to substantiate its findings.	Proponent to submit independent audit report in accordance with D6.1	Compliance assessment report; independent audit report	Overall	Ongoing	NR	No audit required during the reporting period
D6.4	Independent Audit	The independent audit report required by condition D6-1 is to be made publicly available in the same timeframe, manner and form as a Compliance Assessment Report, or as otherwise directed by the CEO.	As per the method outlined in the Compliance Assessment Plan	Compliance Assessment Plan	Overall	Within a reasonable time period approved by the CEO.	NR	No audit required during the reporting period
