

Reachout Missions in Africa

TO AFRICA

In association with Mamkhulu.org

June 2018 is going to be an exciting time for a team of Canadian Christians traveling on an missions trip to serve AIDS Orphans and Vulnerable Children and youth in Southern Africa. At the HOPE Camps program the Canadian volunteers work with local trained youth leaders and vulnerable orphans and youth.

The missions trip departs Vancouver during the third week of June 2017 and returns Mid July 2017. We have an interesting and exciting program that will give team members an opportunity to experience life in Africa.

While they are there, team members will share their skills and experience with local youth leaders and participate in our psycho/social care camp program, they will stay with the youth and leaders at our camp site Ekukhanyeni (The place of Light). In addition, you will enjoy visiting the world renown Kruger National Park and other sites on your days off. If this program interests you, please contact our volunteer representative or got to our web site for more details and contact information.
