

Ground Courses

Private Pilot Accelerated Ground Course

Two day weekend course 8 am-5pm

Cost \$400.00

Required course material

- ASA Private Pilot Knowledge Test Prep
- FAA Test Supplement (Diagrams)
 - E6B Flight Computer
 - Plotter

Upon completion of this course the student will be endorsed for the FAA Private Pilot Knowledge Exam. This test must be taken at an approved testing facility. Students should be close to solo or have previously soloed prior to taking the course. If the student does not successfully pass the Knowledge Exam they can return and take the course at no charge.

Part 107 Commercial Drone Course

One Day Course

Cost \$150.00

Course material included

Upon completion of this course the student will be prepared for the FAA Remote Pilot Written Exam. After passing the exam the student can apply for and receive a Remote Pilot Certificate for commercial drone operation. If the student does not successfully pass the Knowledge Exam they can return and take the course at no charge.
