

# The Statistics on Crime in Washington State

Unfortunately, Washington State is no longer among the safest states to visit or live. In just the past five years, Washington has become one of the worst states in the nation for both violent and non-violent crimes. There is no other way to turn this around than to replace elected officials and party who allowed this downward spiral to occur. We do not want to be “top” state for crime! We deserve safety for our families.

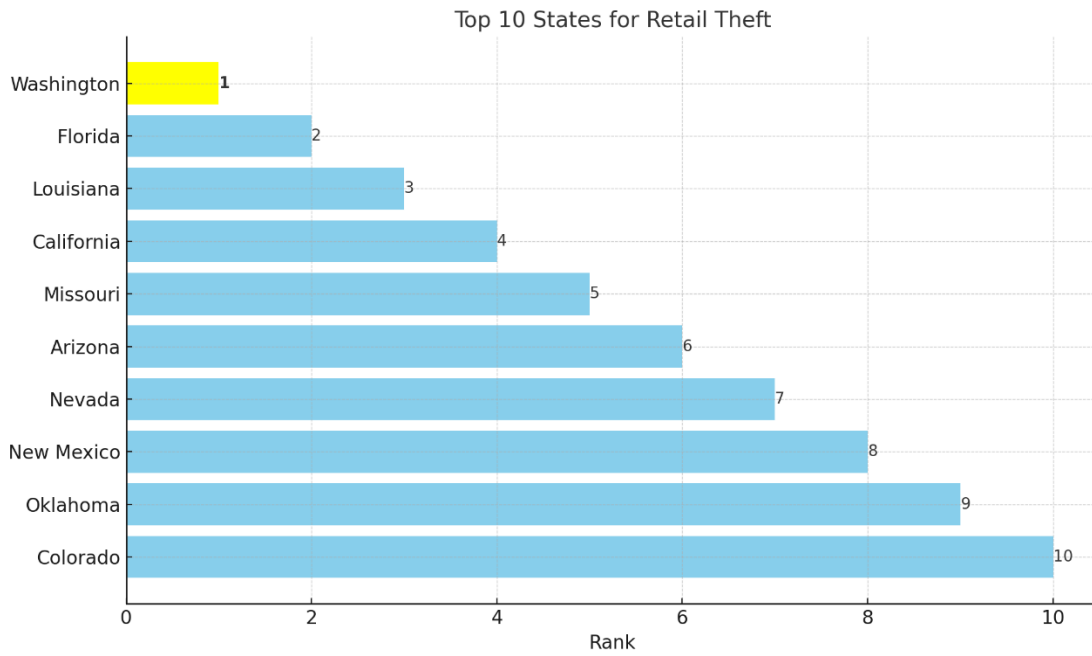

Increase in violent crime – while national averages decrease, Washington State's murder rate is up 96% since 2019.

Washington State is the #2 State in the Nation for Property Crimes and Larceny Theft.

## First State for Retail Theft

## Third State for Motor Vehicle Theft
