### EXPERIENCE:

Residential / Commercial/ Government/Industrial

In 2009 SafeHouse Solutions was awarded a Technical Grant from the Department of Housing and Urban Development HUD to identify, remove and verify Normal Fungal Ecology in 30 Homes occupied by children severely affected with Asthma and Allergies.

Successfully applied those BEST PRACTICES to hundreds of Family Homes. We have worked with State, City Departments of Health, Commercial Businesses including Assisted Living Facilities, Medical Buildings, Offices, Places of Worship, Apartment Living, Non -profits and Industry.

### MISSION:

To treat our customers like family and their home/business like our own.

### OBJECTIVE:

Identify, isolate, and remediation of damaged materials removing least amount of building material ensuring a healthier indoor environment meeting the goals of Normal Fungal Ecology applying BEST Practices from our Healthy Homes HUD Award.
