

The Future Looks Bright!

By Liliana Olguin, Career Counselor

Job is...

a piece of work, especially a specific task done as part of the routine of one's occupation or for an agreed price. a post of employment; full-time or part-time position:

She gave him the job of mowing the lawn.

A career is...

an occupation or profession, especially one requiring special training, followed as one's lifework:

He sought a career as a lawyer.

Future outlook on California's job market as indicated by EDD forecasts

Healthcare and Social Assistance: among the largest contributors to job creation in CA, mainly in home health assistants, personal care assistants, and registered nurses.

Technology and Professional Services: Continuous progress & focus in artificial intelligence, cybersecurity, and research investment.

Construction and Infrastructure: The state is financing heavily renewable energy projects and infrastructure improvements.

Future outlook on California's job market as indicated by EDD forecasts

Manufacturing and Logistics: Particularly in areas like the Inland Empire, due to constant claims for goods and transportation service areas.

Educational Services and Public Sector: predicted to continue to stabilize or grow, mainly in higher education and local government roles.
