Differentiators

- ACCAD Corporation is deeply rooted in tradition and family history in West Virginia highway construction.
- We take pride in providing our Customers with quality work, built safely, and enjoy employing talented craftsmen who feel the same.

Family Owned, Quality Driven, You Have Our Name On It!

ACCAD Corporation was incorporated in 1994, for over two decades, ACCAD has proudly constructed quality work in nine of the ten WVDOH districts, building over 60 bridges as a general contractor for the WVDOH, and has worked for many other heavy highway contractors as a DBE subcontractor in WV and VA. ACCAD is licensed as a general engineering contractor in the state of West Virginia and Class A heavy highway contractor in the Commonwealth of Virginia, specializing in concrete work, bridges, and other heavy highway concrete structures.
