john j. CLARK & ASSOCIATES, Inc. offers professional services to government agencies, architectural and engineering firms. We have provided these services for over three decades and have built up a strong client base of satisfied customers and successful outcomes.

john j. CLARK & ASSOCIATES understands our clients' needs and deliver services catering to the specific needs of each assignment. We provide a variety of data collection services, including parking and traffic studies, in-person interviewing and economic data. In addition, we also provide public engagement services for public projects to inform and engage various stakeholders.

### Core Services

#### Planning Support

- We provide reliable planning services including implementing data collection schemes and creating databases

#### Consulting

- We have successfully provided strategic and business planning, business operations reviews, marketing, sales and accounting support services to organizations.

#### Analytics

- We provide a range of analytic services. Our experience includes survey research, intercept interviews and related data analysis such as testing for significant differences, correlation etc.

### Differentiators

- With a combined experience of over 100 years, success working in team settings, our team has extended our reach to support more clients in a greater geographic multi state market.
- We are sensitive to the unique challenges often faced by large and small organizations.
- Among the industries and organizations we have engaged include health care, government, architects, engineers and public utilities.
- We have incorporated cameras (20 plus) and computer vision technology in our traffic study projects.

### Past Projects

- **Economic Development Research Group**  
Allegheny County Airport Authority
- **AECOM**  
Public Engagement on Public Project's
- **Whitman Requardt & Associates**  
Metropolitan Planning Organization - Southwestern Pennsylvania Commission
- **URA**  
The Urban Redevelopment Authority of Pittsburgh (URA)

**Our purpose is always Satisfy all of our Client's decision support and data needs."**
