Sci-Tek's technical staff includes professional engineers, geologists, and surveyors registered in DE, OH, MD, PA, and WV, as well as experienced and certified environmental scientists, planners, technicians, and specialists, all of whom specialize in meeting clients' needs expeditiously and efficiently. All employees adhere to high standards of integrity, ethics, and trust while respecting the environment and the economic and social interests of all parties. Applicable employees receive and maintain OSHA safety training, and all employees participate in our corporate safety program, which includes regular first aid and CPR training.

**What Our clients say:**

*The Allegheny County Airport Authority is very pleased with the quality and level of service that Sci-Tek has provided us over the last decade. We hope to continue our positive working relationship with Sci-Tek in the years ahead as we continue to address various environmental issues at both Pittsburgh International and Allegheny County Airports.* **Richard C. Belotti, Planning/Environmental**

*Sci-Tek has been a valued services provider to Allegheny County Sanitary Authority. Their support on our Combined Sewer Overflow Abatement Program has been an integral part of our progress in dealing with this important issue.* **Arletta Williams, Executive Director**
